

Do you have any further comments on our services?

- It is difficult to 'rate' services I've not used, or have no need to use, or of which I have little knowledge, as would others. It is debatable as to the real value this performance survey.
- A focus on cultural events and perhaps some more youth events would be great.
- A footpath has been planned for Delamere drive for many years and still has not been executed however another footpath going to the Tafe when there is access to a tunnel and footpath on the other side of the road seems like an overkill when other areas don't have a footpath at all.
- A footpath out to the LIA would be awesome. Much safer for pedestrians and bike riders.
- A lot of families are leaving town due to the rising cost of living. It is becoming more unaffordable than ever to live here with the rising cost of rates, building and contents, freight costs of items being shipped here and utilities. I personally will be leaving town by the end of the year as it is becoming unsustainable to live here and we have a high dual income.
- A seasonal water park at the Dampier foreshore would be a winner.
- Advertising and community announcements of up-and-coming events could be better engaged.
- After putting in multiple complaints about people making their own dirt roads across the bottom of streets in Wickham (Rosewood to Jacaranda) and from Rosewood to the Wickham Youth Centre and nothing being done is shows that CoK, does not care for Wickham, and we are only here for numbers to Keep the City status. All the money gets spent on Dampier and CoK. How about taking care of Wickham. No trees on the main drag, all the trees at the Wickham Shopping Centre have been cut down and nobody seems to know who did it. Dirt tracks are being made, no police, no medical centre, no care.
- Apart from the obvious street verges etc. There is no support or material available to rate payers who would like to tidy their cross overs and verge.
- As a new person to the area, it has been pleasing to see the streets and amenities that are well kept.
- As a rate payer, I would prefer the council concentrate on the basic services a council should deliver to the local people who live, work and invest in the City. Why are the rest of us supporting the FIFO workers so much? The older suburbs suffer the most. They need footpaths, verge cleaning, rubbish removal and some attention. The tree planting is great- but now maintain them and water/weed them! Please get back to the basics and prioritise local ratepayers! We feel you don't even care about just - yet you keep asking for us to pay for everyone else!
- As a resident of Wickham, I am very grateful for the amazing efforts of the litter picking team.
- As a result of great planning over the past 17 years Karratha and surrounds is a very liveable City. The planting of large trees

and bushes regularly over these years especially along the top and bottom road and throughout the City adds a great deal to the liveability and beautification of the area. Well done, City. Keep up the great work.

- Awesome and perfect!!
- Basically, ok but would be great that public toilet in Karratha and, dog and cat control more in Wickham area.
- BBQ at Hearson's and lighting need to be fixed we put these facilities in and now the timer on lights no longer work.
- Be good to have footpath/cycleway to Dampier.
- Be great to have a green waste bin like other councils provide in WA.
- Better crime prevention & Shaded water playground for children and shaded exercise area for dogs. Need dingo control.
- Better maintenance of footpaths. Karratha is a beautiful Pilbara town but a bit of a letdown in some areas.
- Better management relating to cat control bylaws are needed. It is not ok for cats to roam. Cok is lagging greatly compared to related laws on the east coast of Aust.
- Better skateparks for the kids, waterslides at the Leisureplex and international flight options.
- Bins need to be removed from the verge asap after emptying.
- Broken glass often on and beside footpaths. Challenging to manage, though a safety concern for people and dogs (when walking). Had many punctured bike tyres from glass and thorns.

- Building and development is far too difficult for the average household to do modifications.
- Building planning took far too long and the shire seems to work against you not with you. A sign will not deter someone from dumping illegally how about placing some bins with lids in some areas for the lazy ones that won't drive to the tip.
- Building services team need more support.
- Bulgarra is not looked after like Bayton and Nichol west areas.
- Bulk verge collections / free skip bins.
- BUNNINGS!
- Business development and support: can we please get an update on what's happening with the Dampier shopping precinct? It still looks abandoned in there. And such a shame that giggle and groove won't happen anymore! That was such an awesome programme for our community! I think if the precinct didn't look haunted and had more foot traffic, they would have gotten more sign ups in this first term to keep the programme running.
- Can the council help with keeping the home west housing tide. With bins etc (warrior St Bulgarra).
- Cats are not controlled enough around town. While dogs are patrolled during the day, cats create havoc at night. Great job otherwise. Karratha is becoming a liveable city.
- Cats need to be controlled. There is too many wanderings around.

- Certain pockets of town are ignored in relation to cleanup because of the residents who occupy these areas.
- Charmaine in the building department is amazing!
- City being understaffed and under resourced leads to service quality and completion being compromised.
- City of Karratha do an amazing job with community ovals, parks, and streetscapes. It's a pleasure to utilise the ovals and parks.
- City of Karratha is a great LGA. Doing a much more contemporary job than some of the other 'meat and potatoes' Pilbara lgas.
- City of Karratha really don't care about Roebourne or Wickham, but your happy to take RIO money to do things for Karratha.
- City wasting rate payers' money on ventures that don't go past feasibility studies or not what rate pays want.
- Clean up the road between Wickham and Roebourne. The litter around the Wickham area is atrocious. The dumped rubbish in the bush near Cheeditha is absolutely disgusting. These have all been reported many times.
- COK do not care about Roebourne, Wickham, and Point Samson. Our foot paths, street scapes, verges, road sweeper (who parks near the oval for hours then leaves town and only sweeps some streets, observed numerous times) look terrible. Don't forget, it used to be Shire of Roebourne before it was taken from us, and I believe COK is trying to take the Roebourne Cup as well. Basically, I am saying we've been kicked to the curb. Don't forget Roebourne was here first.
- CoK has the venue and population to facilitate a high-level NAIDOC ball for the Pilbara.
- Cok isn't just about Karratha, there are other towns that need things too.
- Community engagement - as an emergency service volunteer, I feel there is VERY LITTLE support from the city for volunteers. Considering the commitment from volunteers purely for the betterment of CofK, I feel like the city could do more and "promote" the emergency services and assist the service a lot more. Cultural and community events - there aren't any cultural events? Sustainability - recycling could be a lot better. We need initiatives for green waste and compost. Cycleway - installing new cycle ways but not itemizing them. Not the quality they should be.
- Community events are underwhelming - just never quite hits the mark. Get more creative, involve local groups and ensure there are things/food to keep people there.
- Compost initiative would be incredible. Any physical indoor activities and events during summer for kids. Happy to pay for more options.
- Consider fostering and encouraging greater market competition by encouraging businesses to establish in Karratha giving residents' better choice, improving local competition, and providing more employment opportunities.
- Considering I have contracted RRV I would like to see some additional resourcing into fogging.
- Consistently rubbish dumped out the back of Baynton hills. Need something done about it.

- Could be better.
- Council grounds look like the king lives there!! Maybe spend some time and effort on the rest of Karratha – it's not that big!
- Council spends too much on landscape, gardens then what we really need in town, sick of seeing people trimming, cutting, planting, I would hate to see the water bill, retic maintenance bill and wages for this massive team of people.
- Cover trees, etc, so people, families' groups can be outside during the warmer times if able.
- Curb side bins should be removed from kerbside rubbish left on roadside. Footpaths should be fully placed along at least one side of the streets not done in sections.
- Dampier boat ramp already needs expansion. Add an additional launch jetty on the left-hand side where the landscape is already suitable.
- Dampier needs more attention in all aspects.
- Dampier streets need a big tidy up.
- Dampier verges, pathways often overgrown and lots of plants in public areas along streets Cape untidy or dead (e.g. Oleanders) Positive: excellent support from planning and approvals team in planning for pool fencing, carport etc.
- Delambre Drive in Nickol needs a path all the way along it. Also smith Place Park Nickol needs to be updated!
- Directional Signage replacement for facilities and ovals.
- Distribute evenly as we all pay rates.
- Do more outside of Karratha and Dampier
- Do more things for the kids.
- Do more work to the Dampier foreshore.
- Do you have any specific comments or feedback on the performance of the services provided above?
- Do you live remote? A lot of us order things online which comes with a lot of packaging. It would be great to make the yellow bins weekly to ensure that all cardboard and papers are recycled properly.
- Dog control in Karratha is terrible. I see the same vicious dogs roaming the streets with no collars every day. The rangers don't do anything about it. The ranges told me I was basically overreacting when my small dog was attacked by two big dogs. I'm sick of not being able to walk my dog on a leash or to the park in my own area because there are people who let their big dogs who are not friendly with other dogs run around without a leash and being vicious towards other dogs or small dogs. We need enclosed dog parks, and ones which allow specifically for small dogs.
- Dog control specifically in Samson people still take dogs to honeymoon cove and front beach regardless of signage saying no dogs. Illegal dumping of rubbish is disgusting around Wickham area not sure what the answer. I thought advertising for dash cam footage of rubbish coming out of trailers and trays then fine people. I would also be interested to know how many people have been fined in the last 12 months for littering. Can you supply this data?

- Dogs off lead after 5pm and the ranger is off duty.
- Dogs that roam Nickol prevent our young family safely walking around the suburb. Seems to be consistently the same dogs roaming and the owners are creating an unsafe environment.
- Dumping of rubbish continues to be an issue - on the outskirts of towns and at local parks. City needs to act of residential properties that are also dumping grounds. Rubbish bins are required at Withnell Bay.
- During the past 12 months, I had an injury where I was unable to walk and instead had to use a knee scooter. I found some of the pathways (especially slopes e.g. To get up onto the pavement or get down onto the road) were quite difficult and at times I felt unsafe moving around without potentially falling and doing more damage to myself.
- Dustmen are great - rangers need to be more invested to rid of stray cats and dogs and barking dogs.
- Emma with elk track - Roebourne. Needs extra love.
- Every street needs a footpath. Mine does not and this is dangerous at night as several people walk on the street.
- Everything is good, shire is doing the best they can.
- Excellent.
- Excellent work.
- Excessive number of resources spent on median gardens (i.e. By hospital, Sharpe Ave, Warambie). Lots of money spent on plants that are not in a place people can

enjoy them. Also, it's a visual hazard for someone trying to get to the hospital in a hurry. \$200k on a roundabout too is ridiculous. Changing the rule for itemising projects I think needs to change (\$ amount lowered). Embracing our environment I think makes more sense. We live in a desert, let's have plants in places that make sense (in parks, the trees along the highway are nice . Hopefully they are sturdy enough for a cyclone / the strong winds up here to last). - note on trees - they were planted on the side of the footpath where pedestrians won't get shade. It would be nice to have more thoughtful planning of gardens; whereby it's cost effective, planting plants that are hardy and will thrive up here (is all the trees and shrub species that thrive on the mudflats). And in places where they can be enjoyed. Not in the middle of roads and roundabouts and SHADE! 100% shade cover in all playgrounds would be amazing. Lots of the playgrounds are unusable most of the time due to no shade.

- Extremely disappointed in the shade structure at the KLP. This should have been a higher priority for the people of Karratha, and then we still must pay to swim in a hot bath!! What a joke!
- Financial management should prioritise the more important things. If there is money left over to the luxury things after. I would have preferred to support local schools or playgrounds with shade since they don't have enough money over a roundabout with flowers. Grow more trees instead of removing them. They cool the areas down. We need more trees and shades installed. We are in the hottest place how come that the playgrounds don't have shade or only small trees? There are cyclone proof shades. Install a shaded carpark at the shopping centre with solar panels on top like in Broome with cameras so people can find out who damaged their car since here are so many dishonest people. Make the

shopping centre attractive for smaller businesses who can't effort the high rent the centre management wants. Stop using Glyphosate. It isn't good for our flora and fauna. The whole world knows that. Just not the city of Karratha. It kills beneficial insects and poisonous water ways. I saw the city spraying it 2 days before a cyclone with heavy rain. All the poison was washed into the ground water. I don't want to put my child on the grass in the parks because it was sprayed before. Some European countries stopped using pesticides 14 years ago. Karratha is well behind and damages our environment. Better clean-up of litter. The playgrounds have glass in the sand and are full of rubbish. The roadside was mowed from Karratha to Point Samson. The driver from that company drove over rubbish including mattresses, pillows and rubbish bags and turned it into tiny fluffy pieces which were blown around into the countryside. I contacted the city about it with pictures and apart from that they will have a look nothing happened!!! The rubbish and mattress fluff is still getting blown around. The city doesn't care about environment obviously. I started to pick some stuff up myself. That driver of the mower should have driven around it or there should have been a roadside rubbish collection beforehand. Common sense doesn't seem to exist.

- Fiscal responsibility needs to be examined.
 - 200k before itemisation of contracted works? It's a high number. Should be looked at closer. I've worked at Woodside as a contacts admin, and they have multimillion \$\$ contracts where you itemise every man hour. It's not difficult for the companies to do this, it's standard actual for contact work.
 - town subsidised hotel at the Quarter to be scrapped. Rate payers will not benefit from these big expenses
 - plants / gardens on roads isn't effective. The trees lining the

streets is nice, but the garden on medians is excessive. Especially in our climate. Paving this median makes way more sense to me.

- building single dwelling houses is costly and not overly beneficial to rate payers either, please stop.
- looking at planting more hardy plants that don't need so much care in parks etc.
- not continually expanding parks / gardens around town.
- More shade in parks please. More development of walking trails is awesome!
- chemical use / glyphosate spraying around town. Too much.

Alternatives need to be looked at. People are constantly sick when lots of spraying going on. Shouldn't be spraying when it's windy.

- remove fluoride in drinking water. Unnecessary and a health risk.

Food van area with no cap on number of vans would be so cool! Food van alley on a Friday / Saturday night would be a great local attraction. It wouldn't take away from dine-in restaurants as it's more of a takeaway option / outdoor eating. Splash pad like Exmouth somewhere in town (maybe I. The quarter area?). Need to have good parking though too.

- removing gardens outside hospital entrance. Makes it hard to see how it get into place.
- helping more small / micro businesses (i.e. Fitness instructors, food vans, health and wellness providers) vs larger operations like building a hotel.
- play centre is awesome, love that we have that space. Keeping entry price low would be nice.
- noise reduction in play centre (i.e. Cloth panels like in a movie theatre), that place gets so loud when busy.

- Fix shade sails over the pools at Karratha Leisureplex.
- Fix the road near the shopping centre near KFC, street clean-up Nickol west broлга meander street, remind owner of vacant land to clean the land as it is source of mosquito.

- Focus more on Wickham as a town. Litter is bad here; we have no hiking trails. Beach area has no facilities.
- Focus on education programs for litter prevention. Increase fines for offenders.
- Focus on the bigger issue instead of constantly planting things that constantly die. Also, so many plants block driver view, making driving dangerous.
- Footpath where it matters most. And the police can't stop motor bikes on reserve for park areas.
- Footpaths are good. We just need some more.
- Footpaths are great. Bush tracks and maintenance needs better management by community groups but overseen by the city.
- Footpaths both sides of road in Karratha full length of town both east and west and we can't get one footpath from Wickham to point Samson so the kids can ride out to swim or fish as road is way too busy now.
- Footpaths need to be better connected for wheeled mobility users (e.g. Wheelchairs, scooters, prams).
- Footpaths really need work, too many dead ends which is super frustrating.
- For a rural/remote town, Karratha is excelling. I have lived in many rural/remote towns, and they do not hold a candle to Karratha.
- For such a big fishing/boating/ adventure area, there are no fish cleaning facilities or toilets at any of the boat ramps in the COK.
- Foreshore and beach amenity is only applicable to Dampier and not Karratha. Karratha back beach needs to be invested in to give us a place to go.
- From what I have personally seen the council do a good job at constantly keeping on top of everything.
- Frustratingly, a lot of service requests are basic and repeated. It would be good if repeat issues such as repairs to playground fencing, overgrown vegetation affecting footpath usability and issues regarding bins blocking footpaths for most of the week were scheduled to be followed up as a part of ongoing operations rather than being reactive based on when someone notifies the Shire that there was an issue.
- Garbage bin is occasionally missed on bin day. Dumping around salt flats and Baynton flats is getting worse.
- Generally better than other councils I am familiar with. Room for improvement
- Glass and dog poo on footpaths is a constant issue, especially at the Nickol end of town along the end of the Dampier Highway footpath. It would be great if there were some trees planted on this footpath for shade also.
- Glyphosate use - would be good to look at alternatives. Also, look at not spraying when so windy (I know you have a policy, but needs to be reviewed). Signage before, during, and after spraying, as well as an online log of when and where spraying occurs. Fluoride in water - to be removed from water filtration plant operations. People should have the choice to opt-in to using fluoride. - more drinking fountains available in public spaces - cafe at Leisureplex - should be a local business running it. Not council. Having affordable rent so the service can be

provided to the public. Could have rules in place they have to be open during certain times and serve certain foods etc. In exchange for low rent, as they're providing a service to the community vs COK spending (guesstimate) 100k+ a year to operate.

- Good services some streets need cleaning but that is not the city of Karratha's fault it's the community.
- Good to see finally getting pathway from Leisureplex to St Luke's!
- Good to see some progress with footpaths and cycle ways, but still quite a few major streets not connected to nearby paths Poor planning and completion timing of pathways along Dampier Hwy, near Karratha SHS, TAFE and St Luke's in time for the start of the new school year. Not good hearing rumours of Dampier Sports Precinct upgrades being put on hold, which interrupts overall Dampier Masterplan. Very pleased with the continued upkeep of public amenities at parks and beaches (could do with hand sanitiser and public toilets though).
- Good upgrades to the pathways on Dampier highway going on.
- Great services provided.
- Great to see further development on the footpaths leading to the Leisureplex.
- Gullys and drains are overgrown with weeds need more focus. Roundabouts have been redone even though they looked good was a waste of money.
- Gullys around town full of rubbish and prickles. Streets constantly have rubbish from over filled bins. Need to be harsher on bin collection.

- Have just moved here so haven't been able to see some of the programs in action.
- Have more entertainment for the younger people in town and better artist coming to Karratha, more low-cost living availability.
- How about targeting state housing houses with all the rubbish always in their front yards blowing everywhere and the worst offenders are our first nations people. Or are you too scared of been seen as racial profiling. Some houses look like the tip. DISGRACEFUL.
- How many more annual surveys do we have to go through for Point Samson stats to tell you the same thing – it's the forgotten town but the most bombarded by resident, visitors, and tourists. Nothing ever in the budget and zero commitment to community consultation.
- I am in Samson so hard to judge facilities in Karratha as I don't use them.
- I am not aware of any sustainability initiatives run by the Shire. Would be great if you could educate the public on the correct items to put in us recycle bins.
- I am not aware of a lot of questions asked however, coming from Wickham it is evident that it gets the leftover of budgets, services, and community grants etc.
- I don't know maybe make places that have more activities for adults.
- I feel like in the past couple years city of Karratha has stepped up with the general maintenance of the town. There are a lot of footpaths that could be getting repaired before all these new ones have been put in.
- I get a sense most of the points focus on Karratha, I would potentially rate Karratha

on many points higher I see and experience very little from COK in the other towns. My focus is Wickham Roebourne and Point Samson.

- I have been happily impressed.
- I have only just moved here, and I am impressed with the recycling, community events and cleanliness of the town.
- I have put N/A if I'm not able to make opinion. Parks/beach/bike paths and waste control seem very well maintained.
- I hope the City encourages and support more local business. An international direct flight like Singapore to connect to the world would be great too.
- I know mosquito control is hard, and the team respond promptly, but is there something more that can be done? Particularly Cattrall Park and the Baynton hills.
- I know staff and patients at Roebourne hospital are eaten alive by mosquitos while at work. Also being eaten alive in point samson.
- I like how the council is improving the footpaths in town.
- I like looking at how clean the streets are kept and the manicured foliage. Well done keep it up around the city and public buildings.
- I live in Roebourne; I don't see anything done in my local community.
- I love all the trees being planted down the footpaths. I think building shaded areas around town is important. I love all the natural landscaping around Cattrall and Bulgarra park. I think digging up and replanting flowers regularly in roundabouts

is a colossal waste of money. It slows traffic down when it's being done, and then when you are driving you are focusing on the traffic, not the plants there. Some hardy low maintenance plants would suffice. I think this is a big, mismanaged area. I'm also not sure why the big tree at Lo's is fenced off, but this space is so valuable for us with children, I hope this is rectified quickly. Also, please landscape, develop the dirt area here too. A water park would be phenomenal. A playground good. Landscaping would also be a nice option.

- I love seeing the improvements around town. HATE the overuse of glyphosate though! Can we be like other councils in other states and countries that have chosen other options or consider banning it! It damages us Humans health and the local flora and fauna. There are definitely other options that I believe need to be explored Yes it works well but at what cost? Our health!
- I often travel to Port/South Hedland and the great effort that CofK puts in makes so much difference, Karratha is THE jewel of the Pilbara, a lot of people say so too.
- I really like the landscaping in Karratha on the centre islands. But why are they not being continued anywhere else?
- I see litter pick up along the Dampier Hwy however litter within the suburbs does not appear to be addressed. Some litter in storm water drain areas has been there for a very long time. Litter within 500m of Hungry Jacks and the Services Stations is typically bad. It would be good to have more information about recycling within the City.
-
- I think it is important to keep rates low and focus on bins, roads and paths, public toilets and library facilities. The rest is a waste of money.

- I think money needs to be spent on easing the housing issues in town. Money needs to also be spent on better projects for improving facilities and options for families to do around town.
- I think the city of Karratha could do better with community events throughout the year, particularly markets - we need more stall holders. I think we can attract them given the tourist traffic through town. I'd like the arts festival to go for longer or for another event through the year. More food vans and them to have freedom to park at dreamers.
- I think the council are doing a good job in terms of verge maintenance etc.
- I think the population should be better educated regarding sustainability topics to avoid the amount of waste it is gather in the houses, that ends up in the tip shop or in illegal dumping. Specially children. This should be promoted at school level with the sponsor of the local government.
- I walk every day around town centre and along Bayview and there is an excessive number of broken bottles and glass on road and pathways. There is also a lot of rubbish around town centre streets.
- I walk my dogs on the local tracks - i.e. Behind the caravan park on Bayview. So much rubbish dumped, have no idea why, the tip is free and often easier to get to. Lots of animal carcasses, fish frames and rotting food in garbage bags. I am constantly dragging my piggy dogs away from the gross things they find and want to eat or roll in.
-
- I would like to see an area made available for the Karratha Mountain Bike Club to set up as its base.
- I would like to see green waste compost bin become available.
- I would like to see more family events I Karratha.
- I would like to see the paths cleaned more often. Also, the verges and swales need to be constantly cleaned up.
- I'd like to see a lot more development in show casing tourism and cultural heritage and history. It's nice to know the jump up is getting developed however it seems it's still forever away to be accessible again.
- I am happy because it's help me more with my family.
- I'd prefer to be able to rate your Building and Planning approvals separately, as my experience with each was very different.
- If we need shire to remove rubbish or replace wooden logs to the hills so cars can't drive through, they, do it with n a couple days good work Thank you.
- If you take away the tip being free you will be making a huge mistake. Also need a footpath to gap Ridge and the Lia for cyclist/scooters not new plants in the round about.
- Illegal dumping around the Wickham area is very bad. A lot of things around Wickham shows poor management.
- Illegal dumping around town is a real issue that has no fix unless people are caught and held responsible.
- I'm very proud of the state of this town. Areas for improvement would be rubbish (the Karratha City Shopping Centre carpark is appalling, and the rubbish caused by cockatoos pulling rubbish out of overflowing bins needs to be improved

and residents taking accountability). Still a lot of dogs roaming the streets, and cats out after dark killing our nature.

- Improve advertising for community engagement / events.
- Improvement of the walking trails and signage
- In a time of inflated costs and limited availability of contractors, the City of Karratha should consider going into a maintenance phase rather than carrying out large infrastructure projects which only drives up the cost for residents, wastes money with the cost escalation and leaves us with limited options of who can carry out works on our own properties. The City appears to operate more as a business than as a local government entity who should be focusing on liveability for residents and community integration.
- It is important that long term residents are provided with cultural and recreational opportunities.
- It is so good to regularly see city employees out maintaining streetscapes and verges and cleaning facilities.
- It looks like non-indigenous history is the ONLY history that counts, EMMA WITHNELL? What about NGARLUMA history?
- It would be amazing to have a foreshore in Karratha. Something like Dampier but in Karratha would be very popular and good for tourism.
- It would be great to cut some of the red tape to help new businesses establish and grow. More community events for younger people and social events.
- It would be great to see more stray dogs off the streets and public verges maintained and it would be great to develop dreamers hill with an area for street vans, i.e. Concreted/fenced off from the road and set up to eat there, and if not at dreamers to be able to create a night weekly street food market.
- It would be great to see problem areas where footpaths are not connected to become a priority before other new paths being made. Also, creek areas between houses need to be cleaned/ rubbish removed on a more regular basis.
- It would be great to see the shire employ more people to help with the building and planning department. 8-16 weeks is too long for any variation to the R codes. Multiple business closed last year due to this delay and not been able to stem a flow of work.
- It would benefit the multicultural community to have a purpose-built space for community gatherings and events.
- It's a very hot place I lived here all my life and community does very well maintaining every aspect of our towns ...thank you.
- It's hard with so much glass broken on footpaths everywhere, and I see some effort is made to clean.
- I've chosen N/A on several as I've not been echoed to these services enough to taste how the city performs.
- I've put NA where I'm not sure so can't comment.
- Just look at the difference between Karratha and Wickham!! Wickham should be better.

- Just moved here so can't comment.
- Kalgoorlie had a ride on water cleaning machine to clean the main street foot paths early each morning. Our mall walkways are disgusting.
- Karratha Airport Building in horrible state.
- Karratha and the surrounding towns are beautiful and welcoming. It's quiet off putting when family or friends come to visit, and they see a fair bit of rubbish around the gulleys/highway from people not being rubbish wise. Although the CoK obviously does all it can, it could be something that's looked at. Also, would like to note that the gardening crew and rangers are always out in public, and show professionalism and pride in their work. It's awesome to see.
- Karratha Back beach could do with BBQs and showers.
- Karratha council is doing a great job to make the community look near.
- Karratha does not accommodate to the population of the town. The everyday hard workers are left in the dust and neglected. The town is overpriced and takes advantage of its population. Tracks, beaches, and any desirable activities to make living rurally and isolated attractive are consistently being shut off to locals making it even more so isolated and unbearable.
- Karratha gets everything, Wickham gets nothing.
- Karratha has the worst boating facilities in the state, terrible boat ramp, no fish cleaning facilities, no fresh water, not even a toilet, no emergency phone, the boating facilities are extremely substandard. For more ring me David 04 [REDACTED]
- Karratha health campus needs an MRI scan machine in Karratha hospital as I had to fly Perth just for that.
- Karratha needs a way to compost our kitchen waste as it's a health hazard disposing in our bins.
- Karratha's streetscapes and verges are nice but only in certain areas (main road roundabouts, in the city centre) the bush land in between streets should not so much be cleared just cut back, it will feel safer when using pathways.
- Keep planting the tropical plants around town...they survive longer and make the town looks half decent! Please replace any trees that have died or are struggling at REAP carpark! Please respect and revive the memory of past people from the town who built and created great clubs during their time...a lot of the old Rugby history at Millars well or Bulgarra has been overshadowed by AFL clubs maybe because of the family connections with former Directors, not cool. Why did you need to spend so much money on a clubhouse that was never a City asset then try get respective sports club to join an AFL club. Each sport should stay independent. We are not a farming town. Club history gets lost amongst "AFL" clubs.
- Keep up the great community spirit Team. We are all only as good as our local government we elect and the folk they hire.
- Kids water splash area for Dampier Foreshore and Point Samson would be nice. Water slides for little and big kids would be great at the Leisureplex. More outdoor movie nights would be great the kids love them. A good activity for kids back home was movie nights at the town pool maybe we could do that here.

- Leisureplex Shade Sails....too long out of service, seems not to be a major urgent priority.
- Lighting and footpaths in Bulgarra aren't good. Rubbish is everywhere and needles are bad seeing them at back beach along with rubbish.
- Like to see more in Dampier.
- Litter and graffiti are well managed. Trails lacking!! Trail running, mountain biking desperately needs sanctioned trails.
- Litter dumping is high in bush areas.
- Love the footpaths here in Karratha, you don't realise how good we have it until we go to other towns/states and see the lack of good footpaths there.
- Love the new footpaths down the main road! Very much needed, well done.
- Love the new path between Rosemary and the Tafe.
- Love to see the level of streetscape care in Karratha to be in Wickham as well. Congrats on the footpath project, seems to be going well!
- Loving seeing all the trees being planted down Dampier Hwy. Far too much glyphosate spraying especially in windy conditions, surely the City can afford a better solution.
- Lower the airfares and open international airport.
- Lower the rates.
- Main road a city centre seems to get a lot of attention with the garden old parts of town like Bulgarra have not had any upgrades for many years.
- Make sure they change the broken bin if its broken and the bin collector did that. I don't want to pay for another bin and in the first place the bin collector needs to take care of our bins when they collect the rubbish.
- More advertised sustainable initiatives would be great.
- More affordable commercial land for business startups, government incentives/ lending opportunities to help small businesses achieve land purchasing.
- More attention needs to be applied to Nickol. This suburb is run down. The COK needs to issue legal notices to properties that have overgrown grass that is a fire danger and have rubbish in the front yard. Other councils do this, why doesn't COK? If you don't raise living expectation's people will just continue to live the same. More governance needs to be applied.
- More coastal walking paths e.g. Sea ripple to back beach should have a path the whole way. Replace the sand at the leisure plex beach volleyball area so that can commence again. Fix the shade sails at Leisureplex.
- More community engagement and events!
- More community events planned.
- More cultural events for the city would benefit everyone to make a more harmonious place to place for all.
- More date for verge collection, not enough information like leaflet or letter for the notice.

- More effort to stop motorcycles in storm water drains and on the ring roads in Nickol.
- More entertainment buildings build like bowling skating rink the Leisureplex needs more entertainment at the pool another night club.
- More events in the CBD to help business in town.
- More focus on the foreshore in Point Samson.
- More free community events would be great - ones that are family friendly like music in the park.
- More green spaces
- More illegal dumping than there used to be, but we have such a great tip, so close, people are lazy.
- More inclusive community events.
- More investment for cycle specific infrastructure. E.g.m cycle way on highway to Dampier and Burrup. Also reestablish/develop MTB trails on hills directly behind town provided more access to all users to explore and live healthy lifestyles.
- More litter clean up required. Or evict the troublemakers. Look at Hutton Court. This whole street is a mess. The inhabitants live like animals. I don't think these people deserve free housing if they are destroying the neighbourhood.
- More mosquitos' sprays in pt Samson, could be better looking after parks and surrounds, could do more verge pickups.
- More needs to be down in point samson and Wickham. Its dismal when you drive around. Wickham pool NEEDS a toddle pool the pool so too deep for small kids splash pad is for fun not swimming Toilets and showers are very clean need an upgrade and relocates so lifeguards can watch all areas.
- More opportunities and events for teenagers in the community. Most events are targeted at the young children of the community.
- More seating at Hearson's, support local businesses, REAP the rental market low make the big companies build more house and facilities, more places to eat etc down near waterfronts, green grass are near Los used more often with more trees, more regular markets than we have now, change those terrible water towers red dog should've been put on there! Make the big companies clean up salt ponds around Karratha and Dampier.
- More sporting activities need to be provided for kids to handle the volume of children living in the City, so everyone gets a chance to participate. This also includes swimming lesson availability because getting young kids in to start learning is impossible and learning to swim living in Karratha should be nonnegotiable. Also, availability of sports for kids younger than 5 years old. We should be enabling kids aged 3 and 4 to be getting involved in sports, particularly team sports, and in hours that support their attendance with suitable hours if they have started kindergarten.
- More street cleans up and monitoring of rubbish dumping around houses and walkways.
- More things to do that aren't 50-million-dollar sports clubs. Like more hiking and camping stations to bring better tourism opportunities

- More walking paths.
- Mosquito control at the wastewater plant needs to be looked at closely and have regular treatment.
- Mosquito control is out of control. 2023 we could hardly leave the house without being attacked. Be nice to see more advertised for what is being done about it. Increase as it affects every day lives. The Leisureplex "no shade over the pool" issue has gone on for too long. More communication to the community is required, what is being done and be quick about a decent solution.
- Mosquito management seems to be very hit and miss, especially in the LIA. Management of Calthrop on verges is absolutely appalling. They seem to wait until it seeds then mow it, spreading even more of it around. Needs to be sprayed as or before it flowers to use up the seeds.
- Most of my ratings are based off my knowledge of what the Karratha city council actually does, which is not a lot, as I actually don't know much about the Karratha city council members duties, I mean, I see the vehicles and the garden crew around town, I see the path and road sweepers from time to time, I see contractors building footpaths and picking up rubbish and water plants. So, my ratings are based off that knowledge, I see contractors doing the work but maybe, and I'm only assuming here, maybe the Karratha city council members give contractors the jobs to look after the places mentioned above but that's just my assumption or observation as I don't actually know. No one's explained to me personally what it is the council members actually do around towns. So, my ratings are based off that.
- Most of the wheelie bins on our street are damaged with lids knocked off or cracked by the bin collection truck. This leads to the birds pulling out the rubbish on collection day and it is blowing around the street. Several reports have been made on the shire website though nothing done about it.
- Most of these don't apply where I lives in Point Samson, or I haven't seen any of them happening.
- Multiple occasions where bins have been missed on bin day despite being out the night before. Called to get a collection, and wasn't done until the next bin day, which was 2 weeks for the recycling.
- Must be doing a good job as our streets and walls are in great condition a clear of rubbish/dumped rubbish, graffiti and don't see many stray dogs.
- My recycling bin wad damaged last fortnight.
- Need fish cleaning stations and back beech enhancements. Cat control is a joke.
- Need long term planning to create shade by planting trees. Lots of trees, everywhere. The street scapes look good but large trees are needed.
- Need more activities for youths Like. Cable ski water park. Paintball/bowling alley. Indoor ski diving?
- Need more control over people overloading their bins causing rubbish to end up scattered in the street.
- Need more done in Roebourne.
- Need more emphasis on traditional custodians and culturally specific areas of the region. Beaches need shower facilities.

- Need more stuff to do in town.
 - Need more things than a basic market to hold attention for longer than 20 minutes.
 - Need more to keep teenagers entertained. Verge clean ups more often.
 - Need more trees planted round town.
 - Need to cut back trees near IGA/liberty can't see cars coming out of roundabout.
 - Need to fence the playgrounds in Dampier to avoid kids wandering into car parks and the ocean.
 - Need to focus equally on suburbs. Old Nickol area does not get looked after same as Nickol west.
 - Need to help beautify 6718 not only just parks n benches. Start by planting trees, all around, the oval us a disgrace, give jobs back to the people of Roebourne not outsiders doing the work that we want to do, outsiders never ever do a great job, bins should be collected twice a day to control the waste problem, let us set up a recycling unit in 6718 and with our garden offcuts, let us have jobs back in Roebourne. If not give us subsidy because we know we are paying triple the amount of rent, fix these houses up give the houses back to traditional owners and stop the Generational renting scheme, also there is more than one that resides in Roebourne...
 - Need to improve the beaches.
 - Need to start catching up with national initiatives for circular economy requirements. Going forward instead of falling behind.
 - Need to stop two- and 4-wheel motorbikes from destroying vegetation
- and spraying rocks onto paths by underage youth.
- Needs a fence around small kids' playground in Dampier, it's close to water and cars. Parents with 2 kids don't like going there.
 - New infrastructure that is affordable and fit for purpose needs to be prioritised without a 10 year wait for new recreational facilities for our youth.
 - New paths along the Dampier highway are a great addition, potentially more underpasses along the road would be beneficial to pedestrian traffic.
 - New to Karratha, enjoy the streetscapes. Great to see you increasing the cycle ways. Yet to visit the Red Earth Precinct but looking forward to seeing what's on offer there. Love the Leisureplex and can't wait until the shade sails are fixed.
 - New to town but happy with what I've seen so far.
 - Newish to town so haven't experienced many issues. Nice looking and many good events and services provided. One concern was the bus timetable for school run is very hard to understand and does not include specific times. This made it extremely difficult to start using.
 - Newspaper delivery is very hit and miss. We don't get a newspaper for weeks at a time, so miss out on events and council updates. Bring back the big oval based music events at a reasonable cost, less of the money-making events by Bart parson and others. Get bunnings and Aldi to town to help with the cost of living.
 - No investment in housing when they had the opportunity. The council got scared off by greedy homeowners and now we have

a housing crisis again the verges of everyone's property look pretty feral.

- No support for retail businesses affordability. No incentives to build homes.
- No More engaging activities should be initiated to involve community.
- Not everyone has a trailer, a household collection would be useful to avoid illegal dumping and hoarding.
- Our park bays need to be bigger the new shopping centre car park and ingress and egress is a disgrace! Houses need verandas and area to store boats caravan and camper trailers.
- Overall doing well.
- Overall, I think the City is doing a very good job.
- Overall, I think the city is quite forward thinking and productive.
- Overall Karratha is a nice clean well-maintained town.
- Overgrown verges and weeds constantly. Very unattractive and would be great to see the verges/ nature strips grassed rather than weeds that get mowed and poisoned. Tired of the gravel islands down Dampier highway and the damage to our vehicles
- Parking on verges and footpaths. Rangers need to address the issue. I issue is in evening.
- Path out to Dampier
- Pathways feel too close to the road. Especially when walking with babies in prams and kids riding bikes.
- Perhaps add off road vehicles / 2 and 4wd motorcycles to the list as they are consistently an issue in most suburbs of Karratha and other towns.
- Planning is expensive and takes more time than it should.
- Please cease the use of Glyphosate for weed treatment. This is an extremely toxic chemical and a known carcinogen. There are multiple suitable alternatives that are much safer for the community.
- Please cut back the scrub that is covering parts of the Yaburara trail (Leisureplex hills).
- Please improve your disability services and awareness. The leisure plex disabled toilets are not accessible for individuals. Please arrange monitoring of and education around disabled parking! The parking spaces are often being used by people who do not have parking cards or inconsiderate construction workers, taxis and being used for dropping offs. This activity makes accessing the community even more difficult and dangerous for the disabled and elderly population of Karratha.
- Please keep the weeds under control on the walk trails behind the Leisureplex.
- Please focus on families, every park or kids' area should have compulsory permanent shelter, water play, and toilet included into planning. No metal benches out of shade. The reason people leave is there is nothing to do in the hottest times with kids. Build more indoor kid's things. You moved the indoor playcentre to a smaller area, where is the reasoning. You want to stay a city and not a ghost town focus on families. More community kid friendly events please. Free water parks like smaller towns like Onslow would help. Also please help

businesses like Aldi, spud shed, bunnings to move here. Help Wickham and Point Samson too, more community events please. And for goodness sakes don't let anything be built without having a team of local family's input. The hub in Wickham is barely usable for play programs. A dedicated safer facility for play program would be amazing especially as a lot of gym memberships rely on kids being looked after. Again, listen to the families, without them there would not be a city and just another fifo camp.

- Please stop using chemicals to spray the weeds where children walk to school.
- Please upgrade dog parks with water to drink and to swim in, dogs are overheating.
- Point Samson township has been forgotten/ignored for many years.
- Poor performance all around. Madigan only gave one way in and a horrible exit of the estate. No large tree, unnecessarily spending on so called art when there should be shady trees planted not desert roses which are expensive compared to native shady trees.
- Possibly 2 verge clean ups a year would help.
- Pretty good but glass on pavements can be improved.
- Problem streets that need more attention with glass clean up on the streets and some houses needing to be sent a clean-up your rubbish notice.
- Provide clearer trail markings on the Yaburara trail.
- Providing more flights to more capital cities.
- Public recycling and education Beaches are filthy and littered Trees Dead Garden Beds Stop spraying roundup.
- Ranger services need to patrol the Karratha back beach area better. I see a lot of illegal camping and 4-wheel driving along the dunes there. Have reported in the past but have now given up.
- Really appreciate the City of Karratha's effort to keep our town clean and fresh looking with waste/rubbish removal and the streetscapes. As a young mum, I appreciate the clean and numerous open spaces and playgrounds although more shade would be greatly appreciated for use of these spaces. I understand that balancing this with cyclone preparation can be difficult, but it will allow for use of these spaces for families without having to find indoor programs that require a term fee. I also think roadside collection of items that are large or in bulk would be useful for residents annually. It may help manage illegal dumping (although the tip being fee helps with this so much already!) And support cyclone preparations as well as helping residents who are unable to get these items to the tip (old, young families, new residents).
- Really appreciate the new paths being built around town.
- Recycling isn't collected often enough. I hardly use my household general waste bin, so my Recycling is always too full.
- Road conditions around town in general are fairly good, I think we need to sort out dreamer's hill carpark properly (bitumen, delegation & amenities), there needs to be a roundabout installed at the entrance. Otherwise, you have traffic coming from 4 different locations (IGA/Liberty entrance also).

- Roads are in bad condition. Town struggles with any sustainability incentives, quite a wasteful town other than the can recycling system.
- Roebourne has several heritage buildings that should be open to the public and tourists. The Old Gail needs to be opened to share the history of this area. There is no longer a Tourist Centre in Roebourne. The library is a joke - it has gone from 4,000 books to 1,000 and is only open 2 half days a week. That is not providing a service to this community.
- Roebourne is a specific area where rubbish and animal control need to be a priority even though the rest of the city of Karratha looks okay.
- Roebourne is constantly neglected regarding services provided and when they are, they are provided poorly.
- Roebourne misses out regularly. When was the last time the City of Karratha came out to Roebourne to check how the contractors are maintaining the verges and the main road through the town. It's a disgrace, Roebourne was the first town here but because it's a black fella town, it gets ignored. As if we're all trash and not worth the time and effort. The history of the Pilbara started in Roebourne, and look at Wickham, what an ugly town. But hey, if Karratha looks great, who cares about us.
- Roundup should not be sprayed anywhere let alone right before school siren when kids are walking along the paths adjacent to area just sprayed. Also, library closes at 6pm, staff only paid until 6pm so you get booted out 5mins before. You can't have closing time and paid hours the exact same time. They should be paid until 6.10pm if closing time is 6pm.
- Rubbish at back beach terrible because locals get on the grog down there and leave stuff everywhere.
- Rubbish in the sides of the roads is disgusting. Including between the highway LIA and petrol station.
- Sadly, I've been doing these surveys for years and have yet to see the City of Karratha even listen to what the people wanted. The purpose of these surveys is to meet requirements but not to act in them.
- Sam's island needs to be kept for tourism please do something about it.
- Selected N/A as no personal experience. Rest is based on Wickham.
- Shade over all pools at Leisureplex.
- Should be a proper foreshore/beach area in Karratha to make the city more liveable and attractive.
- Small businesses need more support! Rent is high and these businesses add so much to the community.
- So many cats Baynton West.
- So much glass left on roads and walkways were kids like to ride and walk it's dangerous. More effort and money need to be put into shade e.g. Definitely for playgrounds- some are too hot to even go on in summer and shaded parking lots Karratha shopping centre is well and truly outdated- maybe some money assistance for them to make it nicer? Or build new shops where the old hospital used to be.
- Some hoses need to look after better, front yard messy.

- Some inviting signage along the NW Hwy, welcoming people into our City. Need to upgrade the Yaburara Heritage Trail signage. Include the historical significance of areas along the trail. Update the signage at the Dampier Boat Ramp. Update the directions and signage into and Karratha Visitors Centre.
- Some more love for Dampier would be nice!
- Some social housing needs to be more accountable and managed better.
- Spend the money don't bank it. It's there to be used responsibly.
- Still no footpaths on Dampier Hwy adjacent to Dreamers or at southern end of Bathgate. Residents of Millars Well are not able to access the shopping centre via a footpath.
- Stop spending money on round about.
- Stop the councillors trying to line their own pockets, voting only with THEIR interests!
- Streets are priority and clean in the Rio and Woodside housing area streets. The rest of us paying ridiculous rent are walking on smashed glass up and down our streets.
- Streets clean up needs some work in Bulgarra on Maitland. The extreme wind has resulted in more rubbish. The warrior St units are a disgrace. Glass bottles thrown on adjacent footpaths.
- Street cleaning could be better in some suburbs.
- Streetlights are too dim. Unsafe to use footpaths at night, especially with children.
- Street litter and streetscapes and verges are only well maintained in Baynton West. The other suburbs are well below standards and there is often glass and rubbish on streets and footpaths.
- Street litter clean up generally good, but overflow ditches could do with attention. Same for roadsides heading out of town e.g. Rece drive to Roebourne from Karratha we were shocked by the amount of rubbish on roadside.
- Street litter cleanup especially in Nickol "Nickol road" needs attention - Department of Housing needs to educate some of their tenants re litter and illegal dumping!
- Street litter from public housing.
- Street litter is an issue, particularly around some homes. More education and initiatives to support this could be considered. The work that was done at the Dampier Foreshore is excellent, would be nice to see something similar in other areas of the shire, i.e.: Point samson, Karratha back beach.
- Street scapes along Sharpe avenue - parking bays are way too close to the entry/exits to the village & the shopping centre & plants are allowed to grow too high. Very poor & dangerous viability at all those intersections, especially for small cars but also very little visibility in a big car. There should probably be a mini roundabout between the village & the shopping centre as most people have no idea who has the right of way at that junction.
- Street scapes external to the town centre could be vastly improved.
- Streetscape and verges clean-up are not supervised resulting in a very poor job.

- Streetscapes and verges have progressively gotten worse in the last few years. Weeds are out of control and make the city look unmaintained.
- Streetscapes and verges need to include businesses from home impeding into neighbouring properties. Multiple cars any given day for long longs, sea containers on verge etc.
- Supervision and quality control of some contracted garden maintenance is extremely poor. Must hold contractors accountable but you have to get out and inspect work done.
- Support for local businesses that do not work for mining companies require more support for staff accommodation.
- Sustainability and environmental protection and management needs to be given a higher priority.
- Takes forever for anything to be processed through the city for businesses/development/buildings/events.
- Thanks for building the new footpath along the highway near the old hospital - about time we have been asking for years.
- The 20k threshold for home improvements needs to increase to keep up with inflation can't do much for 20k now.
- The addition of footpaths is slowly improving as is streetscapes and verges. Tree planting along the top road on the Bulgarra end would be good.
- The beach / coastline is neglected and underutilised. Back beach could be a great place for exercise and enjoying the water but it's not accessible to wheelchairs or prams to be able to walk along the ridge from Searipple lookout to back beach - only sand.
- The bridge/road near Red Dog statue needs a street sweep on edges. Looking messy.
- The city spends too much time and money maintaining CBD and newer suburbs infrastructure. Give more time and Money to older suburbs. We don't even have footpaths.
- The City still uses Glyphosate to kill weeds. Killing beneficial insects and bees. Some countries in Europe don't use pesticides since 2010. Karratha is 14 years behind. Plus, I don't feel comfortable letting my child play on the grass in public spaces. Rubbish cleans up in general is not sufficient. Especially playgrounds are badly littered, even with glass. When the curb sides got mowed from Samson to Karratha the company mowed over rubbish and mattresses. The debris got blown into the country. I wrote emails about it. Sent pictures. Nothing was done. Just got told the departments got informed. But nothing was done. The rubbish spread out into trees and countryside. The company should have cleaned up the sides of the road beforehand. And the person who drove the mower at least should have gone around it and not over it.
- The COK do an amazing job This town is awesome for a rural town. So lucky.
- The financial management of the rates that we pay needs to be better managed to reflect the needs of the community. I did not agree with us lending millions of dollars to private companies. It was very upsetting that we gave hundreds of thousands of dollars to airlines and hotel companies which never came to fruition. And the roundabout plants? Really? This

seems like an enormous waste of resources.

- The flower beds and verges are looking really good.
- The footpath to the South of Dampier Hwy past the old Nickol Bay Hospital site should not be a priority over other footpaths. One for example is along Delambre Dr from Tambrey Dr North. Nickol also seems to be the poor cousin when it comes to street scapes. Legislation also seems to be deterring food businesses from starting up, between that and affordable housing, the hospitality and service industries are struggling.
- The illegal dumping around Karratha is horrific, especially seeing as the rubbish tip is free. Street and footpath litter between suburbs is also very bad.
- The Leisureplex shade for the pools not working is appalling. It's so hot and the sun! I haven't been without the shade as the water is hot and you just get burnt! Street rubbish is disgusting!
- The Leisureplex pools need shades over them, they need to be fixed. The water is so hot.
- The Leisureplex needs another exit onto the highway at the end of the soccer fields at the town end to provide better access and ease congestion, with the high school and Leisureplex both using only one access road it's too congested. More money needs to be spent on connecting footpaths missing links are present in Millars Well near Dreamer's hill where the footpath stops. Only access to IGA on footpath require kids to navigate traffic and pass people drinking alcohol and smoking at the tattoo shop or pub. Noxious weeds are poorly controlled.
- The little signs to know what trail you're on are mostly missing, signs are missing.
- The main thing for me is keeping my dog and child safe, there are lots of dogs out all the time. If you go to an on-leash dog park all the dogs are off the leash which makes it difficult when you have a reactive dog that you're trying to keep safe on leash. I feel uneasy about walking my dog on my own due to the number of stray dogs out. I also think we could do better when it comes to community and child friendly community events, we have some fun activities, but I find them very repetitive it would be nice to do new things now and again or do activities at beaches or the Dampier foreshore.
- The medians on Dampier Highway are full of weeds and need to be better maintained, as do the other verges around town. The amount of kapok in major road verges, residential verges and generally around town is disturbing - the City needs to do more to reduce the spread of this weed, and educate people that it is a weed (most think it is native)
- The mosquito issue seems to be a lot more prevalent this year. Did inform the city but no action was taken (LIA).
- The n/a means I haven't engaged with that dept.
- The new CEO has consistently mentioned that each area of CoK are individualistic (Dampier, Karratha, Roebourne, Wickham, Pt. SAMSON) but why are we spending millions on roundabout flowers and artworks in Karratha but nowhere else?
- The new footpath is looking great!
- The new landscaping in the roundabouts looks fantastic. The trees that have been planted along the top road are growing

beautifully. We took part in the tear drop initiative a year ago and that's looking great too. Really good work from the landscaping team.

- The parks and gardens team are doing a great job in samson. We need shade trees around the place some Poinciana trees, more work on the dune rehab and a shed storage solution for the surf lifesaving group so that they can store the bigger equipment suitable for youth/adult programs and engagement like ski, rowing and racing mal boards which are large and need a bigger storage. Toilets are also needed at boat beach. A bike path connecting samson and Wickham would meet expectations of sustainable transport options, wellbeing, encourage active communities etc.
- The parks and public spaces are beautifully maintained by the Shire. I think your employees do a wonderful job.
- The quarter is totally dead and appears empty.
- The questions are the same each year. Ask different questions. No one knows about building approvals, planning etc. U don't mention Laneways.
- The roundabout landscape in town was an absolute waste of funds.
- The rubbish next to roads has recently become more than disappointing especially on the road out to Dampier. It's the worst I've seen it and really spoils the area.
- The sections of road where they have been joined is a joke. They are not joined level. When driving over these areas the sudden drop or rise can jar my back. I already have spinal issues and if my spine is further damaged by incompetent road works

being done, I will be seeking legal avenues to be compensated from the Karratha Shire. You have been notified. Take a drive along De Witt Road and the bridge along Coolawanyah Rd. Disgraceful.

- The shade of the Leisureplex still hasn't been fixed.
- The streets are filthy with litter, broken glass, and occasional needles. If you deviate from the glass on the footpaths, the dog ends up with double gee spikes in her paws. Walking just outside town e.g. Walking tracks like Millars road off Bayview are peppered with illegal dumping items like couches, fish frames, dead animals, general rubbish etc. It's not always easy enough to use the report it functions on the website. Making this easier to use and having a more proactive not reactive approach would be great. Waste collection should also include a fortnightly green bin for garden matter.
- The streets are full of broken glass and graffiti. Plants and grass are all dead and the place looks like a ghetto, Wickham that is.
- The streetscape is generally very good around the City, although I do believe the verges along Millstream Rd in Bulgarra could use some attention.
- The streetscapes are being given lots of attention/money hence the excellent performance however, some of that time/money could probably be put into other areas.
- The town does wonderful job keeping the parks, streets, and town clean and beautiful.
- The town has improved so much in the last 5 yrs. Keep up the good work.

- The town planning department is a disappointment you mention it to any rate payer and the shire's performance is substandard and difficult to get development done at a home or business.
- The trails up in the hills are not well marked anymore. Could have better hiking trail options with the Burrup etc.
- The tree plantings along the top road and other streets are fantastic. Makes the town more beautiful and more trees is always good.
- The use of all donations for a specific event should be transparent. In the past I have volunteered for community events to only hear that all donations were not used. And had the call on other companies for assistance when moneys were available but not given out. I don't volunteer anymore. Very sad circumstances.
- The verges are important to clean up and the drains mowed more frequently.
- The volume of community events has declined over the last few years. We used to have REAF that was incredible, but the last few years offerings have been poor.
- The website could be updated better of the Shire.
- The weeds around Wickham streets are often very overgrown. Lots of doubles in the verges. Wickham shopping centre is woeful. The building needs a lot of work, not just a paint job. The basketball courts in Wickham needs shade. A pump track in Wickham would be awesome. We need more public toilets in Wickham, particularly South Park. We need a go back in Wickham. Boat beach boat ramp needs an upgrade.
- The work to plant native species along Dampier highway is appreciated and important.
- The Yaburara trail is so poorly sign posted that I got lost. The map is difficult to follow without track markers. The cultural sites should be signposted so you can tell where you are and what you're looking at.
- There are a lot of unused land in the some of the suburbs, it would be good to see some money allocated towards the suburbs instead of just the main centre. There is a massive dog issue, lots of dogs not leashed or loose just roaming the streets. Lots of rubbish in certain suburbs. Community houses are completely unmaintained, causing eye sores and generally dangerous situations (potential fires - due to excessive rubbish on the property, and broken glass/bottles on the roads and footpaths.
- There are always dogs out and regular rubbish being dumped in Baynton Hills.
- There are always people dumping rubbish in the bush areas, not sure how this could be prevented but it's disgusting.
- There are no community engagement events held by the city for those ages between 18-28 young adults. Music events would be nice, Exmouth and Broome attract and engage with bands to bring them in however they never come to Karratha. There needs to be incentive by the City.
- There are so many dirt trails that the community of runners use yet the rubbish and illegal dumping out bush is disgusting. The tracks near the "pits" near the caravan park on Bayview Road all those trails lead near the pits and the rubbish and dumping needs to be seen and cleaned up. Anything

from knives, dead fish, tyres, eskies, concrete leftovers etc.

- There are uncontrolled tracks being created especially across the flats and dunes, and mountain bike tracks in the Karratha Hills. The drains are full of weeds and rubbish.
- There have been numerous times I have witnessed CoK staff conducting business meetings in cafes, where confidential matters are discussed. This is an extremely poor practice. There are numerous vacant lots in that are CoK that are lucky if they get slashed once a year, these are not only unsightly but also seem to house numerous venomous snakes.
- There is a lack of foot/bike path down Bathgate Rd from the Dampier Highway to Bayview Rd nothing on the left-hand side (excepts for 300m after the Tambrey Road (turn off) but plenty of space to build one...
- There is always smashed glass on the footpaths and roads.
- There is no daily street cleaning around shopping centres and footpaths around shopping precinct areas. Very poor, Kalgoorlie have a cleaning machine every morning cleaning, rates used wisely, not just taken from us!
- There are no development opportunities for small business owners in town. The only commercial spaces available in town are large properties that a new business cannot afford. So, there is no competition for already established business. Old hospital area would be good for this.
- There is no need to re do the roundabout landscapes or put another footpath between the schools when the Leisureplex hasn't had shade for months and won't

until 2025, that should be a permanent structure over the pool.

- There is no shade anywhere. One example; why have you not put shade sails up in the outdoor area at Los.
- There is so much economic opportunity in the region, but not enough is being done to support and provide opportunities for local SMES to build their capability. Parks, gardens and streets are always immaculate - well done!
- There is very poor dog and cat control. No fully enclosed dog parks. Dogs often off lead, attacking and roaming the streets with no penalty so it continues to be a problem.
- There needs to be more footpaths around in the side streets. Kids walking to school must walk either on the road or through overgrown verges which there could easily be snakes. Also, for parents with pushers.
- There needs to be more businesses brought to Karratha. Bigger and better businesses that can support the community and give the people of Karratha more! Small business due to the cost of living charge an absolute fortune for things.
- These questions are all aimed at living in Karratha.
- Think more can be done to develop Dampier in all aspects. Foreshore development, sporting facilities, caravan park, boat ramp, streetscapes. Continue with the development of the village and encourage some tenants to get in there. Feels like we miss out a bit.
- This is a fantastic council which always has things improving. One large need is for a fully fenced dog park. Nearly every town

I'm Australia has one. Even Tom Price has 2 fully fenced dog park areas. The Bulgarra dog park is great however not fully fenced with gates.

- This is the first place I have lived where I feel there is pride from the community and council workers. They are proud of their jobs and make an effort.
- Timely clean-up of rubbish following public events, Australia day and Guy Fawkes at Dampier had rubbish blowing everywhere for days after.
- Toilets in parks need more cleaning.
- Too much broken glass on footpaths. Maybe glass soda bottles should be banned from sale at stores in favour of recyclable plastics.
- Too much money is being spent on gardening/sculptures in the roundabouts through town - surely this money can go elsewhere that it's needed more.
- Too much money spent locally on roads, foot paths, roundabouts and nothing spent on dreamer's hill for food vans. Maybe public toilets, bins. And the support given to small businesses is not acceptable.
- Tracks and trails are not maintained very well.
- Tracks and trails. The tracks and trail signs and track markers need updating. They're either weathered so bad you can't make them out or they're broken and/or removed.
- Unsure on the condition of tracks & trails.
- Unsure what is in place for many.
- Vacant blocks of land are poorly maintained. Empty shopfronts are the Quarter are unattractive, there is a need for longer term reliable tenants, but parking needs to be provided. The dirt patch outside the quarter (where apparently a hotel was once going) is ugly and distracts from the aesthetics of the area.
- Verge side pick up every 6 months residents treat it like it is anyway ha-ha.
- Verges and gully's need a lot of attention in Millars well and I assume other suburbs would be the same.
- Verges and median strips are constantly full of weeds looking so messy and subdivisions have tumble weeds that blow everywhere and spread seeds that cause more weeds. Rangers should have a 24-hour mobile so you can call in an emergency, not having to go through a call centre who don't seem to be able to put you through to anyone.
- Verges and scrub overgrowth on streets and pathways in Roebourne and Wickham needs some work. Would like to see more garden pruning of the scrub and mowing around the schools too, quite often it gets too overgrown, and snakes are found in there. Let's keep our kids safe from potential bites on their way to school.
- Very good services.
- Very little support for small startup business providing essential services. Strict criteria preventing ability to grow business and afford housing at same time.
- Very little sustainability initiatives that we can see. Very limited support for small businesses and startups. Financial and educational support for verges to be greened and not cracker dust would help beautify the streets. Residential streets are

speedways, please consider speed bumps or other way to slow vehicles down, it won't be long before a kid is killed.

- Very much need a dog park, old school area in Bulgarra is not being used.
- Walking path over Dampier highway at school/Tafe required.
- Waste facilities are great, the fact they are free stops illegal dumping.
- Water testing, air quality testing should be monitored a day information provided to all that live in the area.
- Wayfinding on footpaths around the Wickham Precinct is basically impossible if you have a pram, in a wheelchair or on a bike.
- We are a lot of families in Karratha right now that want to get more community events, like the city to surf. Children are eager to commit to more events and fun for families. We have spaces where they can be done. We need more advertising for this type of events.
- We are sick of the tv and phone reception in Karratha.
- We don't need roundabouts to keep being given facelifts. If there's spare money in the budget to rip up roundabouts, and then replant plants, pass it on through lower rates, don't spend it for the sake of it.
- We have footpath / cycleways in Karratha not used. A lot of people would use a cycleway to go to work in the LIA.
- We live in Dampier, and we do a lot of walking and running very early in the mornings. Lighting very poor and

verge/footpath weeds and clearance to pathways in certain streets very dangerous.

- We need better access to nice beaches (Exmouth can have tourists and still have nice beaches) and better community events, not the same old things.
- We need more activities for children/families.
- We need more cultural and community events for kids of all ages more regularly. Proper publication would be sufficed as sometimes I don't hear about an event until the day prior or on the day. We need more kids' entertainment places. Like an arcade or bowling alley for the older kids to keep them out of trouble. The youth shed isn't enough for them.
- We Need more cultural events and community events to keep the youth busy.
- We need more cycleways around the town.
- We need more facilities for families here. We need more shade at parks and beaches and free splash pads at playgrounds would be good. We are a family town instead of spending money on putting new flowers in at round about how about we spend the money on new family friendly facilities.
- We need more footpaths and bike ways within residential streets.
- We need more indoor entertainment for the youth especially in summer months.
- We need more investment in waste recycling specifically investment in household organic waste - stop filling the tip with food!
- We need some international flights for Bali.

- We need to create more of a community spirit to help with the initiatives. Plus, advertising needs to happen in other spaces not just FB.
- We really need to fix the intersection near liberty and the roundabout and dreamer's hill. Even putting a permanent road in from the car wash would help traffic flow.
- We thrive best at community events so need more of them for kids and family.
- We would love more Council involvement and money spent on Wickham to create inviting gardens, landscaping and streetscapes in Wickham, to brighten and make our small town more appealing to ourselves and visitors to Wickham.
- Weed control and rubbish on road verges, along tracks/cycleways and in storm water drainage is almost non-existent for most of the year; seems to only be done when people complain.
- Weeds and overgrown vegetation continue to be a problem for the local areas.
- Weeds everywhere, lack of care in Roebourne is a disgrace. Not services for over two years and even then, poorly. Taking multiple contracts off multiple local businesses. Mismanagement of assets from water tanks exploding to dying trees to purchase of new equipment that is not used. Lack of consultation with local business or understanding of decisions made, increase in rates to justify empire building with unqualified overpaid staff perpetuating the local labour challenges.
- Weekly recycling collection.
- When I go overseas and come back to Karratha, I'm always surprised about the amount of rubbish and litter roadside and around the shops etc.
- When mowing next to the paths the double gs are being flicked all over the paths
- When will Kalama Parade to balmoral Rd be completed? Will anything be done rid a rubbish from soft plastics?
- While the City has significant potential to enhance sustainability initiatives, there always seem to be excuses preventing their implementation. The variety of events offered to the community throughout the year is fantastic. Visitors to our town frequently remark on our good fortune to have such a wide range of events available, with many of them being free of charge. We have consistently experienced reliable bin collection services, always punctual without any issues. As a small business owner in town, it seems that the planning and approval processes are often entrenched in traditional methods, lacking forward-thinking perspectives on how new developments could positively impact our community. Additionally, it's always a very drawn-out process.
- Why are my rate payer's money spent on boosting the CofK Parks and Garden Team, when the towns do not look appealing, weeds are out of control and there are experienced and professional contractors in the City who can do a better job?
- Why are the bins at the Walcott Way apartment complex spilling out onto the road? This was reported years ago, and the city ensured bins were collected from along the fence inside the complex. Now the apartments are full again, the bins are spilled onto the road and rubbish litters the street daily. It is unsightly and has become a dumping ground. I reported this earlier in the year but was told the rubbish trucks can't go into the complex. I don't believe this to be true as some of the bins are still picked up from inside the complex

and they have all were collected there right up until earlier last year. It would be great if all the bins would be collected from the same spot inside the complex again. This is also a cyclone hazard. When Veronica came, my husband had to tie down all the residents' bins to the fence and we don't even live in the complex. If he hadn't, the entire street would have been directly impacted because even on a normal windy day we have had to pick up dirty nappies etc off the street.

- Why are there so many weeds. In the 7 years I've been here, it's never looked so bad. Gardens between street parking aren't maintained and I end up doing it myself. There seems to be a lot more staff achieving a lot less. I would love to see the cost of watering the street trees on the highway vs running retic. By now, it would surely have been more economical to have retic all those years ago.
- Why build an expensive footpath on Dampier highway from Baynton to high school when there is one on other side of road. A set of traffic lights at Baynton Road would have fixed the problem.
- Why do the parks and gardens in Wickham look better than the ones in Karratha?
- Why does the cok use rate payers' money to invest in things like real estate and buildings like the quarter? The money could be better spent around the town.
- Wickham seems to miss out on these services.
- With a free and easy tip close to town you can't do much more to prevent illegal dumping. Great facility. Also love the way our city looks. Beautiful streetscapes around the city centre and Dampier highway.
- With clean ups there are many car bodies and fridges that need collecting on the flats between the airport and hospital.
- With regards abandoned houses they should be cleaned up and rubbish taken away.
- Within town litter cleanup and appearances are kept in good condition. Out of town i.e. Public places such as Miaree Pool there is large amounts of litter that could be better addressed. Illegal dumping is also still an issue although seems to have improved.
- Work with airlines to lower the cost of flights s so it doesn't cost us an arm and a leg to get anywhere. Not everyone is working in the mining sectors and have stupid amounts of money. Help local businesses get staff. Accommodation is too expensive up here and a lot of smaller companies are struggling to compete with salary packages that the large companies can do.
- Would be amazing to see more improvements in the town of Wickham- a sporting club room, shade over the basketball court.
- Would be good if recycling could go weekly and need more activities for the youth sometimes it's hard to keep them engaged in wanting to keep living here when there isn't much they can do when it's too windy for boating etc.
- Would be nice to have more sheds / pergola at the back beach.
- Would like to see more street litter pick up, initiatives in Roebourne.
- Would love green waste as that's why the bins stink!

- Would love more initiative and information around local history and heritage in town. Karratha is a tidy place but the same problem areas for rubbish don't seem to be targeted in clean ups.
- Would love to see Karratha get its own Jacobs ladder near the leisure plex. Up that hill would be amazing and a great revenue raiser to the leisure plex after people run it.
- Would love to see an area of beach maybe in Dampier that has minimal sharp rocks and the things that bite, with easy access in and out of the water. Keep up the great work on all the new foot paths. Scooters hmmm focus on enforcing control of their use. Tip is an easy-to-use resource, always easy to get in and get out, well run. Hit up Citywave and build one, or an indoor skate arena.
- Would love to see improvement for cycle paths for road bike enthusiasts.
- Would love to see some waterslides, diving boards and playground at the Leisureplex swimming pool. Be allowed more than 3 Food vendors at dreamer's hill at a time.
- Writing off a debt from a business but the very same person still operating a business. So, the rate payers' money is wasted.
- Yaburara heritage trail has not been maintained signage for a long time which has caused hazards and OH&S issues for people using it.
- Yaburara Heritage trail is not well marked especially in the middle sections. Easy to take the wrong path. How daily Interest on overdue rates is charged needs addressing. It's difficult to pay the correct amount, when its changing daily, and then getting charged interest on the shortfall is time wasting and annoying.
- Yes, Millars well paths are terrible they need fixing between Stanbridge and Wedge and the path next to gully.
- Yes, we can't get solar installed in Millars Well.
- Yes, why the recreational zone back to Discovery Park, it's full rubbish around, sometimes we funding rest syringes, it's very sad and shame, many people coming for walking or ride bicycle, scooter or simple tracking with your dog.
- You can't really control illegal dumping. Sadly, it's the mentality of some individuals that is beyond control.
- You guys' waste money every year on roundabouts that don't need touching, but we don't even have a footpath on Wotherspoon so we to push a pram down the middle of the Road.

Do you have any further comments on our facilities

- The IPC's evening laser tag sessions are fantastic for attracting children of various ages, catering to a diverse range of attendees beyond the normal trading

hours. The Leisureplex's booking system requires an update to allow for easier access to facility availability, eliminating the need for multiple trips to the front desk. Our local tip is outstanding. It's a fantastic free resource for the community, always well-maintained, user-friendly, and includes a great tip shop.

- - more opening hours for tip shop - having cheaper rates / off-peak time rates for micro businesses at the pavilions in town. I.e. To run fitness classes / workshops during the weekdays. - Leisureplex cafe - should be run by a private business, not the town. Make it affordable for the business as it's a service to the public vs an expense to run by council - complacent lifeguards at the Leisureplex. Need to have more / better training as they're often not that attentive/ watching very closely. - fence around splash pad / fence that separates 50m from rest of po area (prevents/ slows down little kids running into pool) - council possibly going to Broome to discuss budget? That's not right/ waste of taxpayer dollars. We have plenty of nice buildings here you can do your job at. Get some catered lunches and don't be so lavish. I understand big business does this kind of thing, but they make money. Government shouldn't be doing this. - not sure if COK has a say, but the fee structure at the shipping centre is like the mafia. I can't believe it's legal. They charge rent + tenants must pay GROSS profits % after a certain amount is reached. Crazy, and doesn't promote more businesses on the shops.
- - pricing of hire of park buildings (pavilions). To re-evaluate. There are some micro-businesses (i.e. Group fitness classes) that could use this space, but the rates are too high. If the business is

providing something that makes the community better, then why not give them the lower rate/ a flat rate? The buildings often sit empty. Or perhaps an off-peak hour's price (i.e. Weekday mornings), as there's a few people in town that would like to offer programs but the cost of building hire is too high. - cafe at Leisureplex - should be a local business running it. Not council. Having affordable rent so the service can be provided to the public. Could have rules in place they have to be open during certain times and serve certain foods etc. In exchange for low rent, as they're providing a service to the community vs COK spending (guesstimate) 100k+ a year to operate - having a food van alley (i.e. Where the old hospital used to be. Could have a concrete strip put in for tables etc). Not having a vendor limit vs dreamers hill. - removing restrictions / permits for Dreamer's hill.

- 1. A fenced in dog park would be brilliant, Tom Price has a brilliant one. Just as a reference. 2. The cost to purchase anything at the airport is ridiculous. 3. I see that visitors centre isn't as good and busy as it used to be. I quiet enjoyed going to find a gift to buy from there.
- A great job is done with all parks, verges etc. You can see the effort made to beautify the town.
- A homeless support village could be setup. So many in town leaving waste in public spaces.
- A kiosk at the lookout above Karratha would be awesome. You could lease it out to a local business.
- A pool/ gym in Dampier would be great.
- Access to public toilets across the city is an issue.

- After putting in multiple complaints about people making their own dirt roads across the bottom of streets in Wickham (Rosewood to Jacaranda) and from Rosewood to the Wickham Youth Centre and nothing being done is shows that CoK does not care for Wickham, and we are only here for numbers to Keep the City status. All the money gets spent on Dampier and CoK. How about taking care of Wickham. No trees on the main drag, all the trees at the Wickham Shopping Centre have been cut down and nobody seems to know who did it. Dirt tracks are being made, no police, no medical centre, no care.
- Again, I'll make a point regarding tourism and just being able to drive around and learn about the area. It's lacking and there is a massive potential for it to be something good, educational and fun.
- Again, SHADE in public spaces / playgrounds for kids. Consulting with families before playground are built would be a good idea too. Then you can see what the users want/need from space.
- Again, Wickham always misses out.
- Air conditioning in the foyer/gallery at Red Earth Arts Precinct needs to be improved, very hot when attending functions, quite unpleasant.
- Airport - wish we could have international flights, instead of the expensive trips to Perth. Now we are all travelling again, families could save a chunk on not having to go via Perth.
- Airport has had that much money pumped into it over the past 5 years. We still have no international routes. Residential Capped Flights are still expensive even with the discount. Karratha Leisureplex Shade has been broken for months. It's that hot an no families get shade whilst swimming. Indoor play centre is average at best an extremely expensive.
- Airport needs major improvements to allow pets to travel in hot months and to have international flights to Bali and Singapore.
- Airport requires a second body scanner to speed up security check and town requires more for children such as Ten Pin Bowling and arcade like Time zone.
- Airport security is way too slow.
- Airport time to receive bags is far too slow. I've waited over 30 minutes for bags.
- All facilities in Wickham/Karratha are all Good, except Roebourne, my power Ratings is for my Community of Roebourne.
- All the newer, indoor facilities are great. Really appreciate these beautiful and air-conditioned spaces in our climate. Shade should be the highest consideration with community areas outside and it was disappointing to see how little of this was done in the new Millars well oval playground. The facilities are too hot to use their majority of the time. I also think it is a gross abuse of funds for the city to be funding a privately owned pavilion- like at Kevin Richards Memorial. The city either needed to have bought that, or taxpayers should see a return on their investment here. Safer uses round glyphosate also needs to be made high priority. This poison is harming out environments, our animals, our waterway. Many other options are available now to change over too. In the meantime, People should be able to opt in to have spray free verges and the city should make public the movements of when and where is being sprayed around our community. I would never knowingly

take myself or my children to a park that had been recently sprayed, and I don't have the option to make an informed decision around this currently. I would also like to see the smoker's area moved at the airport, there is literally no way to avoid it when coming out of departures currently.

- All the sports fields are open dog playgrounds, so they are always covered in poop. Sick of my kids coming home with crap on their shoes. Time to make enclosed dog parks for big/little dogs.
- An annual bulk rubbish collection would be good.
- An improvement for the Leisureplex would be to add afterhours access to the strength and conditioning room.
- Another indoor play centre would be amazing. Something different indoor for kids. You want more families to move to Karratha, GET MORE THINGS TO DO IN SUMMER!
- Any chance we can have more water bubblers / hydration stations on key running routes e.g. Bayview, and near the BMX park?
- As wonderful as Karratha Leisureplex is, it needs more support or additional space to provide more programs for indoor and aquatic sports. A water slide and or diving or even an updated splash park type space. I think residents would also really support a free splash park within the town.
- Baggage handlers at the airport need to be quicker for the movement of bags. Also paid parking at the airport that used to be free when there is no public service offered to get people out there is a bit of a money grab.
- Being a Point Samson resident my comments. Verge poorly maintained in

point samson and Wickham. Overall appearance of common space. AFL and Soccer oval in Wickham are a disgrace and needs attention immediately I have raised this already through the City. I believe there was a serious injury sustained at the soccer oval last year then work was completed after the event. AFL oval is not up to standard and quite frankly dangerous. There is a lack of grass cover in areas, sprinkler holes, ground is uneven with diverts. Walk the entire AFL ground and see what you think. NPFL season starts on April 22nd from memory. I attended a meeting possibly 2 years ago regarding a pavilion or sports room to be built on the oval and the erection of a shade over the basketball courts. Don't believe there has been an update or any further movement forward with this? Frustratingly every time you raise a concern with the AFL oval you feel like you are whinging, and the bare minimum is done to rectify concerns. Car parking at Johns Creek boat ramp not sure if this sits with City or DOT but be good to put a traffic plan in place to maximise the available area.

- Better crime prevention & Please implement Shaded water playground for children and shaded exercise area for dogs. Need dingo control.
- Bigger space for the gym now that it's busier. Another pool to accommodate sports and swimming lessons. Therapy pool.
- Bring the boating facilities up to standard!
- Build some shade structures at the Leisureplex, reop and the shopping centre, a bit like Newman. Tip shop is awesome, but really need somewhere to drop off food waste. Better protection of the Karratha hills and surrounding areas from the activities of the mountain bike club as they continue to dig and build new tracks.

- Bulgarra football oval needs to be realigned so the wing is in front of the FB facility.
- BUNNINGS!
- Can we please confine people drinking alcohol at airport to bar, so kids don't have to listen to the filthy language?
- Can you guys fix the shade sails at the Karratha Pool please. They have been out of action for ages!
- Can't comment just moved here.
- Can't comment on Roebourne because don't spend a lot of time there.
- Cheaper membership options at Karratha Leisureplex, it is unaffordable for students.
- City does not advertise events with enough notice for people. Attendance is disappointing.
- Clean and well presented.
- Closing early is not good. Extended library hours or night hours is good. Remove the videogames or gadgets keeps are noisy the purpose of library is to read and be quiet.
- COK owned buildings like the quarter could be maintained to a higher level, sometimes the lifts don't work and aren't very clean.
- Community buildings and kiosks underutilised due to costs.
- Community halls should be available for everyone. Some halls are given to clubs permanently and common people can't have access.
- Community spaces are a credit to City of Karratha. It is obvious The City takes pride in the community spaces.
- Cost of use of things and of membership at certain venues are too high. If more people could afford it the city would make more money and more people would have the ability to utilise facilities. Not everyone's work pays for things and some people miss out due to high costs.
- Could the space at Wickham Pool be activated a bit more? Access for a coffee van or a beach volleyball net put up, some programming the pool that brings community together, it's one of few places for families to go in the hottest months in the eastern corridor
- Current facilities are good, but there needs to be new spaces developed.
- Disappointed the waist facility doesn't offer free (or much cheaper) mulch as many councils do.
- Disappointed with the timeframe for a replacement shade at the Karratha Leisureplex pool. Also disappointed with the attention to temporary shade of the pool during summer. Still no shade over playground swings at Bulgarra or Millars Well.
- Do more verge pickups.
- Do you have any specific comments or feedback on the performance of the facilities listed above?
- Encourage more entertainment to the CoK, give the city some life.
- Excellent.
- Expand airport and Leisureplex.

- Expand gym workout areas in the leisure Plex to keep up with increasing demand. Possible look at allowing standard membership access to ALL areas.
- Expansion or update/change the indoor play centre, lots of children on hot days as it's the only indoor play centre for a large population that is predominantly families. A cover for the Leisureplex pool (extremely hot on bare feet to walk to the water from towels).
- Facilities are getting old; equipment need replacement and not enough community space for dance schools and events.
- Fix shade sails over the pools at Karratha Leisureplex.
- Fix the shade at the pool.
- Focusing only on KATS Club, football and no focus on other sports, no shade in pool area.
- For the City's performance in the facilities marked N/A - I have little or no personal knowledge about them.
- For the PAX that move through the terminal, it is considerably substandard compared to other regional and less busy terminals, reference: Gladstone QLD, Hamilton Island QLD, Proserpine QLD. Encouraging a route other than Perth such as Port Hedland's direct Brisbane route would be greatly appreciated by residents. NOTE: the service to Broome notwithstanding.
- Free swimming for all children, all year.
- Free tip service is an exceptional opportunity for everyone in the community to unite in correctly disposing of waste and taking care of our environment.
- Full fenced dog park in both Bulgarra and elsewhere will solve a large amount of dog control issues.
- Getting a building approval to change the building is hard, because the information provided by the city is lacking.
- Good.
- Great and fantastic!
- Great work with limited staff.
- Gym at Wickham needs to be expanded toilets at pool need relocating and a toddler pool Installed the main pool is far too deep for toddlers.
- Hard to comment unfortunately on the places outside of town. We love the play centre - always clean & staff are wonderful. It would be amazing if the shade at the Leisureplex was fixed - for kids in this heat it's the only place of respite for young children without going to be beach and the sun is just deadly without it.
- Having shade back at the KLP is a big priority. The free courts and pool in Jan for the kids was a great initiative.
- Health services are very poor Shade to be added at the kid's pool at the Leisureplex. No cultural considerations at community events. Does not cater to first nation families. Price of airfares is insane. Housing market is ridiculous.
- Hyper fixated on indigenous population rather than the entirety of the town and population.
- I believe the indoor play Centre 4is very limited for a city that values indoor play.

- I can't comment as I haven't been to all those above but what I have attended great job.
- I cannot comprehend how the leisure plex has had its outdoor shade broken for a year. It's unacceptable in a city that is so hot and where there are so many families attending. Also, the splash pad could do with upgrading - maybe look at South Headland Aquatic Centre with slides as an example of a much better used water play area. Even the Wickman water play area is better than Karratha's. Just a very honest opinion.
- I don't use a lot of the facilities in Roebourne or Wickham. I use the Leisureplex in Karratha regularly. We have no news regarding the shade sails. It would be good to have those going asap.
- I enjoyed what the council has done with verges line of trees and placement trees in parks but would have expected some reticulation be planned in by now for the verges as the contract of hand watering and maintenance seems to be excessive. Trying to engage the public is tough on feedback. Face to face I reckon you'd get a more realist answer. What is my or our expectation of a council could or should is varied, but to have voice for those not bothered it should not only here. Getting real answers go out and ask. If you had a button on this survey that ask, if they DID NOT KNOW it would be a popular button, where in a multiple-choice answer will only fudge these results, I remember sitting down with Mr Richards years ago in my home. He had his pulse on the town needs and interests. Not sure of the status of Cleverville and 40mile but feel there needs to a review on locals' access and being blocked out or having to pay for a service of public toilets at these locations. It always seems suss that same people get the same spots to camp and for longer than anyone else.
- I have enjoyed the parks and open spaces so far singing moving here.
- I love the integration of Auslan and local language in nursery rhymes that are sang at the library during rhyme/story times. The crafts are always a hit with my girls. The new family fundays have also been magical.
- I love the waste facility, free and I can buy cheap pre- loved tools and materials.
- I marked down performance at Leisureplex due to lack of timely resolution of the shade sail issue. This is a very important thing for families and to have it out of action for so long is unacceptable in our extremely hot climate.
- I never go out to Roebourne or Wickham.
- I think the city does a fantastic job at keeping the parks and BBQs and facilities clean. The very best I've seen in any town if I am quite honest. I do believe the indoor play centre was suited better in the old location. As there are only 2 places to take your children when it's hot. Play centre and the pools I do believe that the play centre could use a significant upgrade.
- I think the pools should be interchangeable regarding the memberships.
- I think we need to be seriously planning upgrades for the Leisureplex facilities. They are being used at maximum capacity for many years now and are getting busier and busier. I would like to know what the plan is here.
- I would like more books in the library. There's a lot of space but not enough books!

- I would like the tip shop to open a day during the week. The Leisureplex is way too expensive.
 - I would love if my kids could utilise the Youth Shed but due to the lack of control with other attendees, we miss out on this awesome facility.
 - I'm very pleased with the Karratha Leisureplex - the prices are very reasonable, and the crèche is amazing! Love the pool as well! Overall, just a great part of the community.
 - If there are public toilets in the City of Karratha there are no obvious signage indicating where they are?
 - If you take away the tip being free you will be making a huge mistake. Also need a footpath to gap Ridge and the LIA for cyclist/scooters not new plants in the round about.
 - In terms of sustainability, and 'waste facilities' I cringe at the 'good stuff' left outside at the tip shop. Would additional cover reduce landfill, increase re-use? Or is it simply the tip shop is the last resort after Facebook has failed to secure a sale?
 - Inconsistency with letting people drive on roads with rubbish in trailers and bins not covered with a tarp.
 - Increase marketing (no idea what the Base is or where/ but I have now found out) and resources, large oval in Wickham is not easy to access for families or visitors. Long way to walk from the car park - more natural shade in Wickham at the shopping centre, Point Samson and Roebourne increase number of Aboriginal employees at the Wickham Base, has a disability access review been undertaken for the precinct specifically the gym. Currently it is not disability or culturally welcoming.
- Individuals may well be although I'm not sure the physical environment is. Upgrade the Wickham amenities building.
- Indoor play centre could use a revamp/ additional items/new layout.
 - Indoor play centre at times has music far too loud. Leisure plex needs the shade nets operating during summer.
 - Indoor play centre is one place for the whole town when we have so many high temperatures throughout the year. Why not installing a bowling pit or laser tag or a blow-up bouncy castle playground (inflate) Why not having a climbing wall and a bouldering area in the Leisureplex. Keeps the kids off the street and many people could use it for exercise. Have one of the old buildings made into an interractional science museum for kids to learn physics and about their environment they need to protect. Have graffiti contest for the youth to bring some colour into the city. Let the youth decide about a new playground and what it needs or refurbish an old one. Why not installing a free water play park like in Broome?
 - Indoor play centre should be more than just a playground with balls and climbing frame. Why not bowling, laser tag or a bouncy castle playground. More creche should be available so mums with 2 kids can attend for example swim lessons for one child during the other is in creche.
 - Indoor play centre, staff are amazing, needs to be bigger or new things introduced, has been the same since I moved here 10 years ago. Karratha airport, lovely however was an whole international side that is never or has been used.
 - International flight for Bali is required.

- IPC has very dedicated staff and playground is good, but building is clinical and not inviting. Furniture to encourage connection would be advantageous and any sort of engagement on walls would give a new lease on the original equipment. It would be great to see the Roebourne sports field (as the face of our region for southbound visitors) maintained or utilised for something else.
- Is there anything being done to reduce wait times for baggage collection at the airport? Wait times are usually 30/40 mins plus.
- It is ridiculous, the amount of time the shade is out of action at the Leisureplex & how long it takes to fix it, is a joke. Then the heater also seems to be broken once a year. The splash pad could do with major upgrades as it's frequently out of action. One of the water cannons just leaks rather than shoots water & has been like that for as long as I can remember.
- It is unacceptable in a town like Karratha to constantly have no shade over the pool areas. And what will be going on 2 years to fix?!? There is always something new broken at the pool every time we go. What about a free community splash pad? And more shade over playgrounds. There are so many families in town, and these are important things to keep families wanting to stay here.
- It seems with the slightest wind the tip facility easily spreads wide and far. Maybe some better fencing to prevent the litter spreading.
- It would be great if the leisure plex had their shade back up.
- It would be great to have the shade working over the pool at the Leisureplex again.
- It would be great to see more disability access/inclusion in the form of hoists and adult rated change tables in changing rooms. I know people who have had to go home in their wet bathers because there is nowhere accessible to change for them.
- It would be great to see more larger gym with more weights machines.
- It would be nice to be able to have somewhere in town to drop off our kitchen scraps rather than putting them in the bin.
- It's a bit disappointing the shade sails at the Leisureplex are still not fixed.
- It's a shame it's taken so long to fix the shade over the Leisureplex.
- It's alright.
- It's fantastic the Karratha Leisureplex is not big enough!! Gymnastics need their own facility and more courts enclosed. The indoor scoreboards could do with upgrading since all sports use them and they are not reliable. Great how KLP works hard to make sure all sports and clubs get use during their seasons, e.g. Netball not taking over during season. Kevin Richards pavilion is awesome!!
- I've flagged community buildings as average, referring to the Pegs Creek Pavilion. It desperately needs an upgrade to be in line with the other oval facilities around town. I have also flagged ovals, because Bulgarra floods every time there's a bit of rain and this needs some significant capital investment to fix.
- I've written NA where I'm not sure so can't elect a score.

- Just need some more indoor activities centres we can take the kids too in summer months.
- Karratha Airport Building in horrible state.
- Karratha airport has issues at times with security in the terminal. Also, whilst prices for airfares for residents are now great with the residential airfare scheme it is still extremely expensive for non-residence, this deters family members of residents from visiting and exploring Karratha and surrounds and also deters tourists from visiting the region.
- Karratha airport is so expensive minimal flights available and no reliability of ones that are there. Minimal services in airport and expensive food etc.
- Karratha airport should have international flights.
- Karratha has an international airport! PLEASE can we use it? Flights to Bali/ Singapore would be well used!!!
- Karratha Leisureplex needs to fix their facilities in a timelier fashion i.e. The volleyball sand area has been out of use since cyclone Damien with no indication of intention to make it available again, and the shade sail over the pool has been out of action making it unsafe for baby swim classes - it was 50 degrees at the pool this week and you overheat in the water.
- Karratha Leisureplex - particularly the gym is too small for the number of members using the space and the drinking facilities and equipment is always requiring maintenance which once again creates a smaller functional space for users. Considering the amount of money going through there, this should be a high priority.
- Karratha Leisureplex is not large enough to accommodate the amount of people and teams that frequent the facility. There isn't enough parking almost every time I visit. Absolutely love having the facility, just think we underestimated how popular it would be.
- Karratha Leisureplex need the outside basketball courts to be enclosed, it's very hot and the kids are playing games all days on Saturdays.
- Karratha Leisureplex pool shade has been a big problem especially during summer with a lot of kids wanting to come swim with minimal shade. Gardens around town have been very well kept.
- Karratha Leisureplex requires more regular cleaning of the outdoor courts including netball posts and removing the rubbish and grime from the post holes; Airport - PLEASE relocate the smoking area at the airport. You walk straight out of the arrivals and straight into all the smokers - and there is not enough room for them all. Can you do something about 'cleaning up the Taxi company'? The Quarter building is also filthy all around the outside. Please put an undercover roof over the tip shop. This survey doesn't allow you to have a free txt bit at the end, I had to go backwards to add comments. What happened to having Family movies outside the REAP on the grass?? It was in the plans and community consultation as we lost the Moonrise cinema! An outdoor movie series would be amazing! Also, what happened to the NW Insurance enquiry? Can the City lobby, seek information on this please? My last quote was for \$32k for one year on a \$600k house!
- Karratha Leisureplex shade has been such a poor performance by the city of Karratha affecting families attending.

- Karratha Leisureplex shade sails still being out of use are a disgrace considering the climate we live in. It shouldn't take this long to fix them.
- Karratha Leisureplex water is too warm to exercise comfortably.
- Karratha Leisureplex's pool never has a shade sail.
- Karratha Library- not nearly enough board books for babies/ toddlers. I go regularly, and the choice is limited. Go to Kmart, buy one of every board book and the collection would be exponentially better. Play centre- the section for toddlers is average and the price doesn't reflect what's available. \$5 would be fairer for the tiny area. It leads little ones to go on the big equipment, which is meant to be for 4 and over.
- Karratha needs a new skatepark/s facility, as it seems long overdue in comparison to all other regional towns in WA. There is such an untapped resource for community events and youth development without it. Some examples: Busselton, Fremantle, Collie, Bunbury, Wonthella, Margaret River, South Hedland, Esperance, Albany. (All from personal experience).
- Karratha pool needs shade asap.
- Karratha Visitor centre is ethnocentric, no Ngarluma history all items made in CHINA. No town oval or sports field in Roebourne yet look at Karratha. Why can't the tip shop be open during the week and why can't a skip bin be placed at the entrance of the tip for people who miss the tip and to prevent illegal dumping.
- Karratha would 100% benefit off a splash pad in the open space near Los.
- Keep focusing on striving for international travel flights for the Karratha international travel airport.
- Keep up the good work.
- KLP already needs another gym expansion. Peak times are starting to become a joke with the population in town. Expansion over the swale at the front or a second story mezzanine needs to be an immediate priority.
- KLP changing rooms and showers have had broken and missing hooks, shower dials that don't work and generally quite dirty for a long time. Don't think the level of cleaning is sufficient or how often they are clean.
- Leisureplex pool shade is non-existent. Airport flying to Perth only is still disappointing for a City.
- Leisureplex - maintenance and cleanliness issues, no longer sufficient for sporting needs (too small), booking process for courts needs overhaul restrictive and no visibility on booking allocation procedure. Please get gymnastics a venue, a multi-sports court has restricted use all year to accommodate them.
- Leisureplex - The shade sail is greatly missed. I hope all efforts are being made to have it returned to service (apparently the footings are all good?) Would be good for waterslides for young and older kids at the Leisureplex. Water splash pads for Dampier foreshore and point samson beach park would be good.
- Leisureplex and parks DESPERATELY need shade!
- Leisureplex is outdated already. Needs waterslides, more indoor courts, larger gym with stretch area.

- Leisureplex needs more indoor courts!
- Leisureplex needs powerlifting equipment. Such a huge growing sport and nothing from Leisureplex.
- Leisureplex needs shade fixed!! This is beyond a joke to have no shade during summer again!
- Leisureplex needs some money spent on it - shade, toilets redone, splashpad upgrades.
- Leisureplex needs some TLC. Building is looking a bit tired. -may need a lick of paint internally. Scoreboard in basketball needs upgrading.
- Leisureplex needs to expand its indoor courts and shades need to be put up for the sun in the afternoons in outdoor courts.
- Leisureplex shade sail.
- Leisureplex shades for several years damaged and taken down at the hottest part of the year, how about having a second one for backup!
- Leisureplex was built undersized and needs to be expanded.
- Leisureplex will remain average until shade is rectified.
- Leisureplex should fix pool shade during this summertime. It hasn't been changing any facilities in indoor play centre.
- Leisureplex shade being broken for so long.
- Libraries - some really great initiatives coming through. Overwhelming majority of the users of the libraries are young families

the library space should reflect this. So much space is taken up by adult books, etc and children have a tiny area allocated. Reality is most adults don't rely on physical books to engage us etc - we can order our books online. Adapt the library to suit your major user group! More space for kids/ young families to engage w educational material that should be our focus.

- Library issue see above comment.
- Library needs more books. Around the ground parking for ovals.
- Library open on Sunday would be handy.
- Leisureplex swimming pool has gone far too long without shade. An indoor pool/splash pad would be more suitable than an outdoor one. Insufficient shade at almost all playgrounds in Karratha. The town could do with another indoor kids' playground. More safe syringe disposal boxes. I do commend the towns fast removal of syringes when reported. The library and library staff are fantastic.
- Lights on initiative during Covid was awesome- can we please have more of that? It makes the space safer for everyone to exercise after work.
- Litter everywhere, especially after windy days. The town must look terrible to tourists. Still no international flights or direct flights over east.
- Local riff raff regularly hanging around and fighting at Cattrall Park during afternoon sport and exercise. Is there actually a recycling plant here? Rumour is there isn't so no point recycling. Love our parks here. Would love an enclosed off leash area that people can book/hire for their own dog/s. Would love flights direct to QLD and international please.

- Love the Leisureplex just wish the shade sails were fixed as a cancer patient on chemo I have to stay out of the sun, and I miss my pool exercise.
- Lower the rates.
- Maintenance of green spaces, while on the whole this has been well managed. The empty block in the quarter at a bare minimum should be greened. The probability of a hotel coming any time soon is minimal, it's a total eyesore and it diminishes the work that the City does next to it.
- Maintenance of outdoor facilities have been excellent. Could utilise red earth precinct for more weekend/night activities (open up top balcony for events and casual bar use) Could increase the size of Indoor Play centre or think of a second alternative for Dampier? Could consider more indoor play/recreation facilities for teens (12-17yo). Great upgrade to Leisureplex gym facilities, but poor management of aquatic facilities (still can't fix those shades and pool is way too hot during summer months - hardly cooling off at all)!
- Making sure the shade is always working at the pools very important considering the summer weather conditions we have here.
- More advertised cultural event would be good.
- More free things for pre-teens to do. Free water parks.
- More house waste collection such as green waste bins.
- More indoor courts.
- More maintenance inspections at the Wickham precinct and sporting facilities to keep them up to standard. Dampier foreshore is amazing. And the youth services overall are fantastic.
- More needs to be done for mental health.
- More police doing their jobs maybe.
- More recreational improvements required at Wickham.
- More rubbish bins at local ovals.
- More shade a cool area is required for the public to activate spaces. The REAP is the only cool space in town.
- More shade is required at parks. The pool is currently very unenjoyable and the risk of sunburn to the children due to the lack of shade is concerning. Parks and ovals are very well maintained and clean which is great.
- More toilets at parks in Wickham. Wickham football oval to be levelled out Shades over the basketball/netball courts would be great. Pool managers that don't treat patrons horribly.
- More trees.
- Move the smoker's area at the airport. It is currently positioned at the front of the carpark for arrivals - the first thing you experience when arriving in Karratha is cigarette smoke - disgusting!
- Movie seats need to be replaced. It's so uncomfortable.
- Need a bigger gym in Wickham. The gym gets crowded and is quite small.
- Need better facilities in Wickham. WRP needs space to set up fitness classes and practical space to make it easier for staff

and more user friendly, leave rooms set up and not have to share hall hire with community. Just one room that can be used purposefully. Offer more classes and more events for community in Wickham especially for older families / teen young adults.

- Need international and interstate flights from Airport. Indoor play centre needs an upgrade, very outdated! Wickham indoor cricket and tennis courts should be cheaper to use! Way to expensive!
- Need international flights at airport.
- Need shade cover over pool at Karratha leisure Plex to be fixed. Indoor play centre we are so grateful that is here and hope maybe one day can be expanded. Beaches to have shower facilities would be awesome.
- Need shade sails fixed at the Karratha Leisureplex aquatic centre, especially over summer.
- Need small dog fenced in off lead.
- Need to have a much bigger play centre. When it's too hot for outdoor play the indoor centre is too small for the kinder age kids when the big kids take over.
- Need to make the outdoor basketball courts at KLP indoor. There's over 10% of Karratha people basketball, and the season is the Summer.
- New seats in the theatre.
- No Dietary Options Provided at the airport (GF, DF ETC).
- No shade at Leisureplex is a joke.
- No shade at the Leisureplex over summer has been a problem. Understanding that is us an ongoing issue.
- No shade at the pools still.
- No shade sail over the pool.
- Not a lot of advertising happens for these places. I never know what's going on or what I could potentially doing.
- Not enough shade in outdoor spaces and community halls and buildings are overpriced for hiring and thus unsupportive of small businesses in the town.
- Not enough, if any public toilets available at parks, ovals in Wickham.
- Not having shade over the pool in summer is absolutely ridiculous. Club rooms for swim club and water polo are ineffective to view the sports. The pool has been almost unusable for families and patrons at times because of the sun and how hot the water has been.
- Nothing in Point Samson.
- Once again, I can only base my answers on what I use and I'd say Wickham is once again left behind. A cover over the Wickham basketball, tennis and indoor cricket like all other towns would allow the kids to play at any time and in any weather conditions. Also, Wickham boat beach could do with some facilities like all Karratha and Dampier beaches and boat ramps (toilets, covered BBQ and table areas).
- One of best shires in the Pilbara.
- Only rated poor on Leisureplex because of the time it's taken with the shade.

- Organising socialising events for new to town families/parents to get to know each other would be great- e.g. A morning at the play centre/pool (even better with a free coffee!) Waste facility is great. Even better with a map for newcomers of where to put things.
- Our family would really benefit from direct flights to QLD. The gym and crèche at the Leisureplex are run incredibly well. Would love extended crèche hours on Friday Afternoons and Sunday mornings. Would love to see the shade at the LP pool fixed asap.
- Outdated.
- Ovals are in great condition, put a gate in at Bulgarra oval near cricket nets to get balls that go over fence. Put a light on the pole to shine of cricket nets in winter. Expand the skate Park at Nickol, needs to be made twice as big to cater for small kids and teens, a lot of BMX and skateboarders use facility, seen many accidents with young kids- under 3 colliding with older kids.
- Park on stove court in Wickham has been fenced off for over 12 months and nothing has changed. Toilets at hub for public use are not somewhere you can send your kids when using court facilities, not safe.
- Parks and gardens are beautifully maintained Bad tech experience at REAP, staff skills and experience weren't satisfactory. REAP seats are quite uncomfortable.
- Parks in Karratha and Dampier are nice, but Wickham parks are not looked after to same level and don't have same level of amenities. There is nothing at Wickham beaches.
- Parks need more shade over play equipment.
- Playcentre, more toddler friendly play equipment the little space is good but when there's lots of people in the centre it gets crowded very quickly.
- Please fix the shade sails at the Leisureplex.
- Please fix shade sale for Karratha pool.
- Please fix the shade at the Leisureplex.
- Please fix the shades at the Leisureplex.
- Please get the shade sail at the Leisureplex fixed. We haven't been going due to concerns with the sun.
- Please focus on families, every park or kids area should have compulsory permanent shelter, water play and toilet included into planning. No metal benches out of shade. The reason people leave is there is nothing to do in the hottest times with kids. Build more indoor kid's things. You moved the indoor playcentre to a smaller area, where is the reasoning. You want to stay a city and not a ghost town focus on families. More community kid friendly events please. Free water parks like smaller towns like Onslow would definitely help. Also please help businesses like Aldi, spud shed, bunnings to move here. Help Wickham and Point Samson too, more community events please. And for goodness sakes don't let anything be built without having a team of local family's input. The hub in Wickham is barely usable for play programs. A dedicated safer facility for play program would be amazing especially as a lot of gym memberships rely on kids being looked after. Again, listen to the families, without them there would not be a city. Don't make pools shallower so you can't teach scuba diving and make shallower end deeper, so you need to buy platforms

to teach kids to swim. Put back a wading pool in Wickham please. PLEASE do not approve shade sails that cannot be fixed quickly like Leisureplex, please stop wasting money on shade that must be fixed by people not accessible or need to be removed during our yearly cyclone seasons.

- Please solve the issue with the Baynton West Park water leak near the cricket nets.
- Poor for Leisureplex because of the pool shade sails. More needs to be done to have it fixed asap. It is a huge deterrent for families.
- Poor quality facilities.
- Population is out growing the facilities, they need to keep up with growth, we need many more facilities for our teenagers of all races, backgrounds, our kids are bored.
- Previous comment as before, performance wise with the facilities. Could there be more, yeah, could they be better, yeah, I mean. Always room for improvement, but everything is going well is suppose, um, I could probably mention the price or cost everything being an issue, not sure if anything is related to one another but \$250 - \$300 for a sporting team, basketball/football/netball, for everyone, every family member included. If you've got a family of 2 or more it's expensive, rent and housing is expensive, food prices, fuel prices. Of the parents are working 8 - 12.5hrs plus to cover the price of whatever keeps rising and lives paycheque by paycheque, who's looking after and raising the kids/youth? I get everyone wants to make a dollar off everything, but it's costing us and the community in the long run. Could the price of everything be the reason why people come and go, people would rather work in Karratha for a few

years to build a life somewhere else to live and raise a family? The people that are happy to raise a family here have a network of family, friends and business benefits of sorts that are able to support raising a family here, e.g. A mining company covering a percentage of the household rent and utilities and what not but for the average person, not everyone works for such companies and has a network of benefits, so the town and communities suffer in the long run how many locals are there left or have they all moved down south and visit occasionally? I'm just ranting I guess, whatever the goal of this survey is, well I don't know what that is.

- Prioritise shade sails over the pool. Too slow.
- Promoting recycling projects would be a great idea for our town. More shades around the area, more trees (it is appreciated the new trees planted but it's always good to have more areas with local flora). Outdoor facilities for kids would be great. For example: climbing wall under a covered area.
- Public pools require shade.
- Put more of our tax money and rates money back into the community.
- Put more resources tidying up council managed areas. Mow them to help keep snakes away especially in Millars Well.
- Really need to fix the shade sails at the Leisureplex - understand it's going to cost a lot but pitter patter.
- REAP and Leisureplex are incredible buildings both aesthetically and use. My favourite facilities.

- REAP needs more for the community and shows relevant to the market.
- Recycling facilities? Does the recycle we put in our recycle bins get recycled?? If not, what's the point. If so, we need to educate people on what goes in there.
- Recycling needs to be collected weekly. Pool needs shade. With such an extreme UV rating in Karratha we would like to see shade returned as we have gone far too long with no shade. Karratha Leisureplex needs to improve cafe, more food option, access from pool, and extended opening hours. The grates around the pool at the Leisureplex are filthy need to be taken out and scrubbed. Library should open on a Sunday to provide a cool place for people to visit. An indoor climbing centre would provide an extra activity for young teens.
- Red earth art precinct seating is horrible. The seats need to be replaced with some better-quality seating that is comfortable and the arm rests are long enough for your arms.
- Red earth arts centre doesn't compare to cinemas in Perth.
- Red Earth Arts precinct needs to show movies more often. - This "City" needs a better skate park for kids. The one at Nickol park is rubbish compared to ones in smaller towns like Onslow. - Leisureplex pool needs more to entertain kids, water slides would be excellent, albeit expensive, but even the addition of a spring diving board (like Exmouth pool) would provide more enjoyment for children. - Karratha airport should seize the opportunity away from Port Hedland to bring in flights to Bali. The demand for this would be huge if the price of flights was reasonable.
- Red Earth Centre: LCPA showcase sound and lighting was horrid. Wickham: water Fountain or shades on basketball courts would help the children in the community. 40+ degrees while training and no shade or water Fountain is shocking yet all in Karratha! Train later then the club must pay for lighting.
- Red Earth events very poorly advertised. I missed many events due to simply not knowing about it.
- Replacement of shade sail at Leisureplex. Broken multiple times.
- Resolve the weeds you spread from one oval to another. Bring back Roebourne tourist centre. It was a poor decision to close it and another facility that has been taken from the town. The cities idea that it should be run from a cultural centre was always stupid and has clearly failed. You are killing Roebourne and have the ability to fix it but not the desire yet is quite happy to use it as a playground when you want to attend the races every year. Triple your budget and don't begin to pretend the Roebourne master plan is even close to enough.
- Roebourne Pool needs to be open longer hours.
- Roebourne pools need a upgrade on toilets n staff.
- Roebourne streets, verges and parks are poorly maintained. There are CoK facilities. The staff at the Roebourne pool require cultural awareness training.
- Rubbish flying around the tip area. Moment, you drive pass the fence line.
- Sam's island.
- Security at airport does not match the current risk and does not seem to be challenged.

- Shade at Karratha Leisureplex needs to be addressed sooner.
- Shade at the pool should be a priority in Karratha. The facility is nearly unusable in the middle of the day without the shade.
- Shade over the pool at the rec centre please.
- Shade sail for Karratha Leisureplex.
- Shade sail needs to be fixed as urgent priority at the pool.
- Shade sails are required over the basketball courts at Wickham.
- Shade sails at the Leisureplex - I haven't seen any works underway to rectify the issues. Expand the Indoor Play Centre - the area is too small for the number of visitors, particularly on the weekends in summer. Wider selection and more screening times of movies at Cinema. An art house genre and film festival would be great.
- Shrubbery opposite KFC needs to be removed to assist traffic entering main road.
- Smoking area at exit of airport next to short term parking very difficult to safely avoid with young children and regular airport traffic. My young children are frequently exposed to second hand smoke because the smoking area is next to the crosswalk. I have not experienced this at any other airport we use. Move the smoking area to a less busy area and away from the crosswalk.
- So much money spent on the airport and yet not a single international flight.
- Some cool things.
- Some facilities you're absolutely killing it with but then others seriously lack attention.
- Some of the pavilions are quite old and could use some work.
- Sporting facilities must remain a priority to attract and maintain families. Particularly indoors.
- Sports fields lawns are often hit or miss. Bulgarra oval a bit patchy and sometimes a bit overdue for a mow.
- Sports fields need a serious upgrade.
- Sports oval and facilities at Dampier need to be updated in line with others.
- Still waiting for Karratha Airport to fulfil the international expectation. It seems a little underwhelming considering the number of people who fly through.
- Stop charging to get rid of concrete your promoting dumping.
- Stop wasting our taxpayer's money no open sum land bigger than 700sqm.
- Support children's activities, mostly during holiday.
- Target the houses that look like the rubbish tip.
- Thank you for the tip to be free. Means illegal dumping doesn't get done.
- The air fares from Karratha to Perth and back.
- The airport food/goods prices are a joke it's way too expensive. The Leisureplex has become too small for the size of the city, the sporting clubs are having to run

on multiple days to accommodate the volume of people playing sports. The carpark is always overflowing and there is more indoor air conditioned needed.

- The airport has big cracks in the walls which is a bit scary to see and the shade sails at the Leisureplex are really needed but other than that everything seems good.
- The airport is too expensive.
- The airport screens hardly ever work. More facilities for community groups or small businesses to operate out of would help.
- The airport takes a long time to collect bags. The road leading out of the airport has been improved and looks great as a first impression of Karratha.
- The amount of time taken to rectify the pool shade at Leisureplex is ridiculous. Besides from the UV threat, the 50m pool temp is a hazard and bordering untrainable for those training for events etc.
- The City does a great job with these key facilities.
- The cost of airfares from Karratha to Perth is way overpriced.
- The cost of the Leisureplex to do classes is very expensive.
- The dance building facilities in town are so poor, the cost of rent for the buildings, drives up the cost of dance lessons for our girls. Now our girls are coming home with splinters because the wooden floor needs replacing at St Pauls and the dance school don't have funding to repair/replace. All this while we see new flash buildings for footy clubs.
- The football clubs in Karratha seem to have taken priority in getting new facilities. It would be great to see the surrounding towns get the same amount of help and work put into getting their club rooms to great standards. It would also be good to see the Roebourne town oval renewed, at one point it was the greenest oval in the Pilbara and now you wouldn't even believe concerts, football carnivals and more were held there.
- The gym at the Leisureplex needs to be upgraded. Recommend the strength and conditioning room be included in gym membership for overflow or move cardio equipment and increase gym space and equipment. Need more racks, updated glute hip machine, accessories.
- The indoor play centre needs more things or better safety features as their front safety gate is broken and the kids can just leave.
- The indoor play centre is filthy dirty, I won't take my child back there. The Leisureplex is an amazing facility. The staff are incredible, and I feel it's good value for money.
- The indoor play centre needs an upgrade. The same climbing frame for how many years? It's a bit boring. A new bowling or laser tag centre would be incredible up here for both youth and business activities.
- The Karratha Leisureplex is at capacity. There needs to be something more for expanding sporting groups.
- The Karratha swimming pool needs to have a cover for the children, we live in the Pilbara and have extreme weather exposure to the sun and the care is horrible for the community trying to use the pools safely.

- The kids water park at the leisure plex is always broken. The shades are broken. Get it sorted.
- The KLP pool really needs more areas for older children above 10 to swim and play. Also, no shade sails is an issue still.
- The lack of shade at leisure plex for months is not acceptable.
- The lack of shade at the Leisureplex for extended period is very poor. Also, recruitment of swim teachers! We have been unable to register for swim lessons for years.
- The lack of shade at the Leisureplex is a major issue. Seems to happen every year. Better solution required.
- The lack of shade at the Leisureplex has been such a deterrent for us using the KLP that we've not enrolled in swim lessons in term 1. It's been over a year without shade, and it's been a real shame that in this heat we can't use this facility in comfort.
- The lack of shade sail over the pool at the Leisureplex is an absolute joke. This should have been resolved before summer. I was told on signing up to the Leisureplex that requests for additional equipment in the gym would be considered, though told to use physio bands when I asked about a simple \$40 fitness pulley set for the Strength room. Have repeatedly asked for the chalk to be refilled which is supplied by the Leisureplex though rarely any there. The padding on the Roman chair back extension machine is completely worn out to the point nobody can use it, has been reported to the gym manager but again nothing done. Correct bench press benches in the Strength room also discussed and nothing done. Not sure why you'd advise the Admin and PT staff to tell gym users they can request new or changes to equipment when always met with can't spend the money on that.
- The lack of shade sails over summer has been an absolute failure. Dangerous and lack of for-site.
- The leisure plex- Very good facility, however it would be fantastic to have a sauna/spa area. Membership setups, there are 4 main training types. Aquatic Classes Conditioning room 24hr gym. I can only get one of each membership or all of them. If I only want to use the pool and gym I must sign up for a full membership, instead of only having to sign up to those 2 areas. Karratha airport- It would be nicer to have some more food options at the cafe/restaurant. Beaches- Any chance of building an artificial beach at back beach?
- The Leisureplex aquatic centre needs refurbishment. It was built some time ago and is due for some work, but it seems to get ignored. The ongoing shade structure problems are a real issue and should be redesigned and rectified asap.
- The Leisureplex is a great asset but needs the sunshades operational at all times, can't bring kids on the hotter days. Would be great if some bigger slides were available for the older kids to keep them entertained.
- The Leisureplex needs a revamp. There is nothing for anyone over the age of 5. What do our teens do there? Give us some water slides.
- The Leisureplex is quite disappointing considering the shade is always broken and when you look at the new splash park just opened in Kununurra, it puts the swimming facilities here to shame. I am aware Wickham has a slide but it's not

viable to travel out there just for a swim all the time.

- The Leisureplex issue with shade sails needs to be rectified with the utmost urgency. We are new to town and every family we've met has been frustrated with the time it has taken for repair and feel it's totally unacceptable.
- The Leisureplex need more group fitness classes on. Should be a class of say yoga every day. Not 2-3 times a week. Crèche should be open all day and on Sunday. The playcentre is expensive, the walls should be painted, and music should be playing.
- The Leisureplex needs shade repairing done or complete new idea for shade. It's been broken too long, not sun smart at all.
- The Leisureplex needs some maintenance. Shade cloth above the pool, toilets next to the classes room and speakers. Also, there should be a cafe offering some better food and coffee in there.
- The Leisureplex pool is a disgrace- no shade, even when it was working staff never had it up and declined to put it up. You will be sued in the future for doing baby swim lessons in that level of UV with no shade. Babies left with no hats, sunscreen or shade. Ground is also too hot due to artificial grass and no shade burning children's feet.
- The Leisureplex pool shades need to be fixed.
- The Leisureplex shade sails don't work, leaving people open to more chance of heat stroke and sunburn, the prices should reflect the standard. The public toilets? There isn't any and the ones at the shops are disgusting and the air cons are full of black mould, which is not good for anyone.

The play centre is boring and there is not much to do, and the prices are insane.

- The library contains very few books. There is not much reason to visit. The old library had so many more, this one seems. Pointless. The cinema should run continuous viewings. The lights need to be turned on late at Bulgarra park in summer as that's when it's cool enough to go. Water play needs to be incorporated at parks.
- The Leisureplex shade issue is an absolute disgrace. The pool water is way too high now to be in any way refreshing. The BBQs at the Leisureplex are also rubbish.
- The maintenance of shades over Karratha Leisureplex is high priority.
- The outdoor basketball courts at the Leisureplex need to be enclosed with aircon. Too hot for players to be playing in.
- The parks, playgrounds and sports fields are always regularly and very well maintained which is great.
- The parks/ovals are well maintained.
- The pools and surrounds need more shade.
- The reason for my selection of Average for the KLP is unfortunately due to the time regarding the shade sail issues being experienced. Having no adequate shade for 12 months now is extremely disappointing especially with young children attending swimming lessons.
- The Roebourne library is only open 2 half days a week. This is not providing a library service to this community that needs it.

- The shade at both Karratha Leisureplex pool and Wickham Sports Precinct pool need to be fixed with a matter of urgency.
- The shade at the Karratha Leisureplex has been out of order for an unacceptable length of time.
- The shade at the Leisureplex being repaired should of been a priority months ago, the pricing at the airport is stupidly high both the fees charged to the airlines but also the prices for food and drink inside.
- The shade at the leisure plex needs to be fixed asap.
- The shade at the Leisureplex has been broken for too long and needs to be fixed. Need to enclose the outdoor basketball courts to make more indoor courts. Crèche at the Leisureplex should be open longer on Saturdays in Sumer.
- The shade at the Leisureplex is a massive issue for many people and their children.
- The shade in the pool at the leisure plex is consistently damaged and not in use. Very inconvenient in the height of summer and 40+ degree days.
- The shade sail over the pool would be fantastic to get fixed. I'd like to suggest the indoor play centre look at scheduling time slots for different aged children. Younger kids in the morning and bigger kids in the afternoon or something.
- The shade sails at Leisureplex need to be fixed immediately. It's too hot to have them.
- The shading over the pool has taken too long, doesn't make me want to take me children as its too hot and not enough shade.
- The sports ovals are sometimes a bit Sandy.
- The swimming pool needs cover.
- The tip is great.
- The tourism centre could have more local arts and crafts, Pilbara keepsakes and interactive displays. The centre is not as exciting as others in WA.
- The town uses the building a park great.
- The upkeep of some ovals is disappointing.
- The wait times to go through security is an absolute joke as well as normal service.
- The Wickham gym needs to be extended.
- The Wickham oval looks uncared for and is in a sorry state leading into the AFL football season. Also, no club rooms for Wickham are a disgrace when the Kats had a killer club room and got replaced with a state-of-the-art club room. In Wickham we would have been happy with their old club room, Howe they get new, and we get nothing? It's very frustrating and a little embarrassing to be honest.
- The Wickham precinct gym is too small in size for the large amount of community members that utilise it.
- The WRP gym needs a dedicated space to run their classes - it's far too cramped. Wickham desperately need more basketball/netball courts and need the courts to be covered. Or an indoor facility that can be locked up. And improve the boat ramp at Boat Beach, Wickham. The playground in Wickham needs to have a

cover - and the slide is made of metal and burning hot in summer.

- The youth shed doesn't feel safe, the last time my kids went they had to be locked in and the police were called.
- There is a marked difference between Wickham and Karratha! It's all Rio money and Wickham gets left behind.
- There is inadequate affordable space available for community groups to operate from particularly performing arts related organisations.
- There is very little for teens and tourists to do.
- There is zero advertising of what is on at REAP, many excellent performances are poorly attended because of the lack of community liaison. This may have negative consequences on future shows visiting Karratha.
- There needs to be another indoor stadium to allow all indoor sports to grow, lesser sports like volleyball, badminton and gymnastics can't compete with basketball and netball and cannot grow their clubs with limited courts and time available.
- There needs to be more shade at the pool and other outdoor spaces.
- There seems to be an unbalanced approach between Roebourne, Wickham to Karratha.
- There was a raw sewage smell coming from Bulgarra oval the other morning. 13/14th of Feb.
- These things are well kept and extremely important for our community to continue to be able to access.
- They are all great.
- They should be more parks, instead of all these abandoned pieces of land collecting trash. Also, much stricter enforcement on unleashed dogs
- Tip head is hard to use.
- Tip is run really well and easy to use.
- Tip shop amazing.
- Tip shop is great.
- Too many planned activities at Baynton West oval e.g. Cricket on Friday nights. Should be recreational use only and lights on until 9 pm.
- Tourism and visitor centre is a real missed opportunity. This could be improved with so many wonderful and informative initiatives taking inspiration from other centres e.g. Exmouth.
- Unsure of Roebourne or Wickham facilities
- Upgrade the parking and facilities at Bulgarra oval.
- Upgrades ASAP for KLP. The community has outgrown the facility, and it needs to grow ASAP.
- Verges need work.
- Very disappointing about the pool shade. Poor management, planning, foresight! That's a #1 priority. It's one of the most important things at a pool and being outdoors with kids...that pool relies on that shade working because there are limited trees at the pool. Clearly a big mistake when the KLP was built. There should have been approved detailed plans before they went up.

- Very good.
- Waiting patiently for the shades to be repaired at Karratha Leisureplex.
- Waste management need to be accountable if they miss people's bins and return to collect them within 24hours. Place is too hot to leave a bin out for another 5 days.
- We are fortunate to have many high standard, well maintained facilities in the city.
- We are in desperate need of more community buildings and halls for Clubs and groups to operate out of.
- We need a bigger indoor play centre, playground that kids with disabilities can use and the leisure plex needs a lot of work and shade sorted.
- We need an international flight at least once a month or better prices to get to Perth... Ovals only support AFL or Cricket Most other sports a left behind.
- We need international flights Bali and Singapore (gateway to the world) maybe the East coast isn't too much ask.
- We need more public toilets at all the parks, so people as families can go and enjoy these parks. If there is trouble with the youth in these deal with that problem, add more maintenance don't just pull it down like Hyde Park.
- We need toilet blocks out at back beach the garden areas are nice but not as exciting to sit and chill I'd like more plants flowers and sitting and play areas for kids.
- Weeds including prickles are always present at Cattrall Park. An awful lot of the solar lights along the pathways routinely not working. The lights in Cattrall Park often and take months until they are repaired.
- Well-presented town, with good services. Really liking the effort to add lots of greenery- trees a day plants, alongside Dampier highway. Leisureplex is a good service. Beaches well maintained. Good services for little children.
- When are we going to see the "International" facilities at the airport put to good use?! Also, how about using some upper case on the "Karratha airport" signage?! It should be Karratha Airport.
- When are you going to fix the soccer pitch at Hampton oval? Contractors ruined it last year and it's still rough and dangerous.
- When is IPC indoor decorations or sprucing up be finished? Will Karratha gymnastic get some expansion??
- When is Wickham getting their oval and facilities looked at? The oval quality is hard and has holes and unsuitable for competition, yet no change occurs to upgrade it. There are also no club facilities. The facilities there are for public use and extremely separate from the ovals. There is no space for the clubs to do their own thing without pouring into Ramblas pocket! There has been promise of upgrade for the 8 years I've lived here with ZERO action. It's TIME!
- Where are the public toilets in Karratha? Apart from the shopping centre?
- Where is the shade at Leisureplex pools? Sort it out! Disgusting waiting so long. Skin cancer ridden, needing to use pool during daylight. What about the children?

- Why are you asking Karratha residents about Wickham, Roebourne etc? It gets trashed anyway!
- Why can't the council help with the upkeep of the oval as you drive into Roebourne? I understand it was handed over to another organisation, but the hand over must not have been good enough. Our Parkes and fields are maintained daily in Karratha surly the crew can go out there once a week. We could get it up to scratch and try have footy games on it Involve the WHOLE city.
- Why don't we have shade at the pool yet? REAP is going well- advertising what's on is working.
- Why is it taking so long to replace or repair the shade structures over the Leisureplex pools?? I understand the tender process for local government and also having to get repairs carried out under warranty, but this is verging on ridiculous. You have a duty of care for your patrons and are failing miserably. Lack of shade in some of the harshest sun in Australia is a huge health and safety concern. Surely a request could be made to the state government to assist with remedial repairs or even some of your huge corporate sponsors.
- Why is the town of Roebourne continuing to be ignored when it comes to City services? The streets look very sad, like no one cares. A satellite view of Roebourne shows a patch of dirt, when compared to Point Samson or Baynton West.
- Why on earth has the pool shade taken this long to fix. In the middle of summer. And I'm sick of the bs excuses. So ridiculous that it hasn't been fixed.
- Wickham and Karratha youth shed great for, mainly aboriginal youth.
- Wickham aquatic centre seems to be much more fun than the Karratha one, I find the Karratha aquatic centre to be a little boring and outdated for kids and families. The toilets also always smell or have needles or waste in them it would be good to do cleanups a bit more regularly to keep them safe for our children.
- Wickham base and youth shed are a wasted of recourses and instead of keeping kids off the engaged and out of causing trouble, it adds a safe space to encourage it without repercussions.
- Wickham facilities need updating. Shade on the courts and new pavilion.
- Wickham football oval is a disaster every year around this time. Every year there is promises to the football club that it will be improved and never is. This year it's the worst it's been. Nothing happens until someone complains.
- Wickham gym and aquatic centre needs to be extended. A dedicated Group Fitness Space and extended Play equipment in the aquatic area so patrons can utilize in the Winter months.
- Wickham gym is way too tiny for this large community of fit people. I am sick of waiting for machines or weights. This needs to be a priority.
- Wickham has been neglected facility wise from the city of Karratha with no investment and long-term projects taking too long even with RTIO funding.
- Wickham has no lights at night, tennis courts are expensive, no shade over the court's safety hazard, rocks everywhere surrounding, no toilets available at Saylor park.

- Wickham hub surroundings need a lot of attention. Oval also needs work. Streets of Wickham need a big clean up.
- Wickham is excelling.
- Wickham pool doesn't have any shallow areas for the toddlers, yes has a great splash pad but young children can't swim elsewhere. There is also broken amenities in the pool that aren't a priority that should be. Karratha pool needs to get their shades up, I'm not sure why is taking so long to fix such an important part of the pool, especially in this summer heat.
- Wickham pool needs a mirror in the female swim changing room. The facility is quite dated, and no mirror is terrible for women.
- Wickham sports field is an annual disgrace at this time of the year nothing changes till someone makes a complaint. Also Point Samson regular maintenance and foreshore area needs immediate attention. There is no accountability to the level of service that should happen.
- Wickham town oval (maintenance)- no sporting club rooms, no shade over basketball court, no toilet at most of the town's parks.
- Wickham town oval in a poor state and no club rooms for sporting clubs, there are no public toilet facilities in Wickham anywhere.
- Would be good to improve the size of the gym at the Leisureplex.
- Would be great the youth centre has brighter inside (also more colours).
- Would be great to have a cover over Karratha pool & some aquatic classes. No classes & membership more expensive.
- Would be great to have the shade sail issue at the Karratha Leisureplex fixed and have them operational again.
- Would be great to have tourism services in Roebourne again – it's the gateway to our region. The theatre seats are uncomfortable, and shows are on too late, but it is good that they show lots of different things. Library is excellent but would be better if it was bigger with more desk space or meeting rooms. More toilets would be good and better parking areas at facilities. We're lucky to have such nice parks but a dog park/s with fencing is much needed.
- Would be nice for the indoor play centre to have some more play equipment or different equipment. Leisureplex Pools would be nice to have sole water slides or even a playground within the grounds.
- Would like the shade at the pool to be sorted out. Maybe smaller sections rather than 1 large one.
- Would love ease of access / use for use of library rooms for our wonderful COK home schoolers during school hours.

The most important thing for the City to focus on in the next 12 months?

- Opening up the jump up.
- Affordable rates for Karratha residence.
- Youth crime.
- Support Tourism and encourage more Tour Operators within the area. A lot of untapped potential both on land (shuttle bus that provides a town/history/industry tour) plus something ocean orientated having 40+ island on our door step. Adorn the water tanks to something more appealing. See Onslow town water tanks for an example of eye catching!
- KLP Facility improvement and growth.
- Community engagement activities and gatherings. All age level and interests events.
- Activities and events for kids that are free or low cost.
- Cost of rental properties.
- Attracting local businesses or providing improved click and collect options to buy products that don't offer shipping to the Pilbara.
- Dreams Hill for the food vans, something aimed at the teenagers to do or events for them.
- Supporting small business, including mobile services.
- Community initiatives.
- Hospital.
- Shade and development of sports grounds.
- Email the survey to ratepayers not everyone has social media.
- Tourism and events.
- Children activities Roebourne, Wickham, Point Samson.
- Youth activities , international flights, mental health.
- More courts More ovals (better facilities other than Karratha Kats) More things for youth to do (not youth group led) More like indoor multi facility centre - rock climbing - timezone - trampolines - water slides - ten pin bowling.
- Boat ramp upgrades in wickham / samson, supporting events Nd community groups
- Leasuplex shade and more aircon basketball courts.
- Continue with planting in reserves, and clean up of litter and trolleys.
- Toilet facilities in the nickel area especially in the shopping centre area.
- To upgrade Car parks as the space and area is start getting too crowded.
- Spending money effectively and not always oiling the squeaky wheel.
- Improving facilities in Dampier example upgrade shopping facilities (IGA)
- Reducing barriers to development of more housing.

- Accommodation. Use Rooms. Share houses in the government and other departments. Think outside the restrictions (Box).
- Service worker accommodation.
- Traffic control, despite all the measures in place there are far too many accidents on the roads.
- Community infrastructure.
- Fun things to do.
- Helping small businesses stay in business. Some way to keep postage/freight costs down. Flight costs are still way to high.
- Continuous improvement in all areas. Innovation to build on our strengths.
- Upgrades to some of klps facilities.
- I reckon we should focus on the youth and helping them reach their goals because they are the future of our City.
- Activities for the youth.
- Cultural and community engagement.
- Real community consultation, via various avenues, where the community feel truly heard & understood. Where the City acts on the community's wishes/priorities and not what they think is best for us.
- Leisureplex expansion upgrade.
- I think protection of culturally significant sites and the education around them.
- Extra boat ramps for Dampier. Fish cleaning stations at boat ramps. Proper hockey field.
- Community engagement with the surrounding communities.
- More community family friendly events. Also an outdoor cinema would be amazing and slides ect going into the pool at the leisureplex.
- Senior citizens housing/accomodation.
- Community security. There is too much crime spiralling out of control. Much of this is due to bored teenagers.
- Building more shops.
- Updates for the Leisureplex as the most highly used facility in town
- Who cares the city does what it wants not what we want.
- Karratha Leisureplex.
- Business development, encouraging new business.
- Boat ramp facilities.
- Community engagement.
- Should get more clothes stores & stuff to do on the weekends.
- Thefts.
- Assist local sports to encourage participation especially children and underpriveleged. Contribute more to the needs of elderly.
- Clean walkways and lower prices at IGA.
- Planning for next 5 years and committing to executing the projects on time and on budget. Stop doing frivolous work and spend taxpayers money on useful projects

that benefit all.. No one benefits by planting and reticulation on a roundabout..

- More housing for service workers.
- I would like them to take back the Roebourne Oval its so sad to see it how it is our main oval.
- Getting rent and cost of living down
- Sustainability. Cleaning up streets. Preventing dumping.
- Community engagement.
- Public places.
- I think creating more community events.
- Making Karratha & surrounds a safe place to live by reducing drug, alcohol and domestic violence.
- Make home occupiers accountable for the state of there yards Home west house - some are disgraceful.
- Flights to the East Coast. Shade at the LP. Park in the Quarter (fenced if possible!!!!)
- Sustainability, cultural heritage and road/path maintenance.
- Teenagers of the City.
- Public toulets.
- Indigenous youth engagement.
- We need to attract more retail options to karratha like cotton on and ghanda clothing. Weekly recycling More shade around sports fields. New football clubs for the falcons and Dampier. Aircon needs to be turned down to lower temperature or on the lesuireplex courts

Cafe at lesiureplex needs to open longer hours and have more food options
Lesiureplex needs a second exit road perhaps at the soccer field end More swimming classes need to be made available Gymnastics needs its own facilities to free up extra court at lesiureplex More graffiti removal More movie options and box office to open during day Library to open on Sunday as well to provide a cool place in summer for people to go.

- Spend money on what we actually need such as road maintenance & spend less on things like statues, gardens ect.
- Maintain the good work, projects completed in a timely manner.
- Crime prevention.
- Waste removal from dumping grounds.
- Community activities and cultural activities. Tourism.
- Bulgarra Oval upgrades.
- More youth opportunities.
- Community involvement.
- Community safety. Karratha is a place that offers so much for individuals and families, however anti social behaviour and crime does have an impact. It would be a terrible shame if these behaviours over shadow what a great place it is.
- Illegal dumping on town perimeter.
- Allowing this town to be livable and affordable for people whilst the cost of living increases.
- Work on movie seats and mosquitoes.

- Youth projects/ programs Community halls/facilities Arts & entertainment.
- Lobbying state govt for new housing / land developments and Health Services including mental health and buy an MRI machine; transwa to have a specific Karratha town link run so caters for more people several times a day all around the suburbs like the cat buses in Perth.
- Community driven projects that allow the community to meet the city of karratha reps and for a city to become closer and more involved.
- Focusing on building more community spaces that reflect culture and looks at impacting new people that move to town that want to feel a deeper sense of community. I feel the dog/cat patrol has lately been tough as it is a hour+ wait for the ranger to get to a spot, making people feel unsafe in their own home/street. Keep focusing on maintaining the structure of the Karratha towns infrastructure.
- Tourism.
- Improve access to childcare with allowances for house sitting regulations or increase staff employed at child centres Significant investment in areas for outdoor activities and groups (trail running/mountain bike riding/orienteering). Large fitness based events - major marathon race, trail races and sport events that link in with major WA sport groups Add in a week-long local corporate sport competition like Broome Pentathlon. Get more large scale art/music events and acts back to Karratha Consider Adding green waste bins to suburban houses.
- Bunnings coming to town.
- In all the council has been very consistent with all your n this survey, the flight situation needs to be improved, must continue with subsidised flights for locals, more options to Sydney, Brisbane & Melbourne as well as Bali flights.
- Green initiatives.
- The use of our natural environment to activate tourism including trail building and heritage interaction. Trails need to be built in conjunction with our traditional owners and provide facilities and access to our natural environment. These trails should get recreational based, walking, running, riding.
- Housing.
- Improving affordable housing for those outside the mining industry.
- Affordable housing, open space revamp opposite the quarter and rubbish removal.
- Opportunity to have larger land releases out of town.
- Overall, I'm impressed with what the council does.
- Only been back in Karratha for a few months but maybe events at Red Arts?
- Cost of living, rental prices, more help for low income families.
- Things for all aged kids to do particularly in wickham and roebourne Sort out cost of flights out of karratha... They are mote wxpensive than majority of places.
- Shade everywhere and tracks & trails
- I would like to see the city focus on the outer skirts of Karratha in the swamp areas

to be a little bit more developed for The people and tourists that live in the area.

- Arts and culture events marketing.
- Mosquito and sandfly in Point Samson control.
- This question should be at the end Keep doing a Good Job mostly. The community feel to fenaclng has slowly dissipated. The Last set of questions council has no control of most of the outcomes State government has say in education, policeing, roads Like most events its always left to a few and its now showing.
- Get the caravan park proposed for dampier underway. This will be so great for the area.
- A public boat washdown facility more boat ramps more indoor activities for young kids during summer access to jumpups.
- Community and facilities for them, especially aged facilities.
- Some provisions or subsidies for every day people to build a home in Karratha on average 1 million to build a family home is a joke considering the value of the home will dramatically reduce in times of low iron ore prices then boom in a good economy with the price of rent and cost of living it will remain seen that Karratha has a transient population as people will come grab the money on offer buy the big companies and then leave . It will save council money as their won't be much need for aged care as nobody would retire here . But look out in the future when no oil/gas or iron ore to keep people here no big pay checks on offer and Karratha will die a slow death.
- Youth and areas to take your children. Fixing paths and roads.
- Financial stability.
- More affordable housing options for staff to live in to support small and medium businesses in the City. Bike and electric scooter paths and continue planting trees on Mass especially groups of Currujong trees like near the round about to the leisureplex with the carpet of Mulla Mulla when they bloom. Absolutely stunning combination.
- Affordability of residential and commercial rent.
- The hospital needs to provide adequate resources for the local population, to reduce trips to Perth eg: MRI scans etc. It is a terrible hassle.
- Fly control
- Creating sustainable gardens in the parks and road sides. You seem to be replacing gardens in roundabouts every year? Choose plants and products that are recyclable and stainable. Take control of the amount of liquor stores in town. We have an issue with alcohol and more access is being opened?
- Crime and theft. I know there isn't much you can do as a council, but working with Police to try and curb it. Stolen vehicles are becoming a problem, especially motorbikes.
- Community engagement and family focused events bringing the community together.
- Making it more local friendly, more events. Also helping to subsidise new housing costs and releasing estates with decent

size blocks. Everyone in Karratha has 2 cars plus a work car. Boat and/or Caravan. If we have decent block sizes we can have sheds and areas to park and store vehicles by placing in sheds. During cyclones this can help protect cyclone damage and potentially stop the annual interest price increases.

- More community events.
- Provide more even for teenagers.
- Events.
- Function and activity for our kids.
- Parks and amenitie.
- Increased approvals for housing developments and encourage business opportunities, particularly BCF or Anaconda, Bunnings.
- Bali flights from karratha.
- Infrastructure and future proofing the town. It's been done pretty good from what I can see already.
- Roebourne misses out regularly. When was the last time the City of Karratha actually came out to Roebourne to check how the contractors are maintaining the verges and the main road through the town. It's a disgrace, Roebourne was the first town here but because it's a black fella town, it gets ignored. As if we're all trash and not worth the time and effort. The history of the Pilbara started in Roebourne, and look at Wickham, what an ugly town. But hey, as long as Karratha looks great, who cares about us.
- Housing development.
- Keeping rentals more affordable to keep the population up.
- Flight pricing and cheap accomodatiptn for visitors, we are very isolated and we feel it, leaving behind loved ones that cannot afford the ridiculous prices to fly and stay here, it really has an affect on many workers and families here.
- Cutting. Back of plants & trees on Sharpe ave . The block on view or cars leaving the Coles carpark.
- More community events and including adults only ones. Bring back Brew and the moo.
- Try to encourage and build a bigger town centre, to entice more businesses.
- Affordable housing.
- More places to shop.
- Minimise rates.
- Toilets at the playgrounds in Wickham. South Park and Saylor park. Mirrors in the Wickham pool change room for women.
- Better youth mitigation.
- More sporting activities need to be provided for kids to handle the volume of children living in the City so everyone gets a chance to participate. This also includes swimming lesson availability because getting young kids in to start learning is impossible and learning to swim living in Karratha should be a non negotiable. Also availability of sports for kids younger than 5 years old. We should be enabling kids aged 3 and 4 to be getting involved in sports, particularly team sports, and in hours that support their attendance with

- suitable hours if they have started kindergarten.
- Cultural events.
 - Housing - not enough.
 - Tourism, small business support and cost of living.
 - Prioritise dreamers Hill. Make it easier for food vans to operate. Huge tourist draw that has been sorely lacking.
 - Support the food truck business better, find an area where they can all gather in the one place. It's a huge thing in so many cities, yet Karratha deliberately went out to stop it. Time for these micro businesses to be supported as well.
 - Tidy up the town.
 - Free splash park?
 - Keeping pets secured in yards stray hogs are everywhere
 - Looking after the smaller parks, I have spent many of hours fixing retic and putting water valve covers back because of the kids.
 - Ensuring recycling occurs, and our efforts to recycle are not wasted (i've heard it's currently almost all going to landfill).
 - Leaving town...cannot afford to retire in Karratha. No suitable accommodation for retirees.
 - Maintenance and cleaning at the leisureplex. Cleaning up the feral social housing houses that give Karratha a bad rep. Improve food and beverage option at Karratha airport - operator of Bag village seem competent.
 - Support for local and new businesses.
 - Would be good to see a community facility for minority groups or a strategic focuses on indigenous and multicultural engagement.
 - Continue to focus on liveability to attract and retain community members to build the community and population base. Ensure good financial management so that maintenance of the asset base is factored for well into the future so that you are not creating legacy issues for future administrations.
 - Id like to see a plan for back beach to be developed, similar to something that Dampier has. Also cleaning the streets on a regular basis, catching loose dogs, fines for irresponsible pet owners. Also more events to be run/festivals.
 - Reducing the amount of youth crime and law and order issues. At least help aiding and abetting the police and helping to reduce this issue
 - Sporting clubs.
 - Youth.
 - Career support for the youth, subsidies on Tafe courses apprenticeship opportunities both for adults and teens.
 - Keeping community events going.
 - Fining the roads and keeping the parks clean and safe.
 - Youth services and keeping kids off the street at night.
 - More interactive activities for children.

- Not sure but loving how good Karratha/Dampier looking with lovely trees etc.
- Litter, safety and housing for our doctors and nurses. Medical appointments still have 6 week waiting lists.
- Cultural events for all the communities, more business meetings for all the businesses to gather.
- Shared community spaces like the Dampier foreshore.
- Safety of the commercial building.
- Community events for families
- Activities for families.
- International flights and more domestic flights from Karratha, keep cheap flights.
- Dampier.
- Cost of living.
- Housing for the future.
- Outdoor grassed areas w shade. Dampier is magic! Library - focus on your major user groups - kids and young families!!! Adults can access and order catalogue online kids rely on physical books and tactile experiences please make more space for kids books, activities and games. There is currently such a small space allocated for such a large and important user group! I otherwise love the creative ideas that come out of the library you have some of the most beautiful staff there - big shout out to the ladies who facilitate Minecraft on a Friday. So friendly and approachable. An asset to the City. Pool shade please.
- Affordable Housing opportunities
Accessible health services
- The most important things tfor the city is to focus on is more community events/activities, government granted mental health services for young adults that are free to access. Jobs and support for young adults. Affordable living rentals for low income tenants.
- Improving lifestyle for families. Especially those with young kids.
- Parks and weed control.
- Attracting and assisting more retail and food venues to start up and thrive!
- I just wish karratha could go back to what it was before greedy people took over and ruined it. No one can retire here, the oldies are living in the salt flats.
- Shade sails up asap after cyclone prep.
- Cost of flights for local residents.
- More flights available from Karratha to other venues besides Perth and adding international flights Attracting more business to Karratha ie Bunnings, jb hifi, shoe shop etc
- Keep improving the infrastructure.
- Food kitchen, operated at night, security officer present.
- Air quality Dust Foul smell from water treatment facilities.
- Please please please fix the shade sails at the leisureplex! That alone would keep the whole town and especially our kids protected and happy!

- Getting back to providing the basic services to the rate payers of the city. Stop wasting money on a hotel. Maintain ALL suburbs equally.
- Access to sustainable and accessible mental health services including transport options.
- More local business and more community activities.
- Speed humps city centre.
- Keeping the streets clean, at least make it half decent for visitors. Bigger fines and enforce them for litter
- Create a horse track near the golf course. Will bring plenty of people to town to have a race season in town and not out of town.
- Shaded/protected parking.
- Ensuring Aboriginal community is consulted in regards to services and improvements needed in Roebourne Wickham and Karratha.
- Unmanaged department of community housing in this city is atrocious. Rubbish everywhere and run down housing and no consequences for disruptive behaviour. Its really a problem that needs to be addressed.
- More cleanup in Roebourne.
- Street litter, graffiti removal as these are the early signs of an acceptance of poor social behaviours.
- More safe things and places for the younger people.
- More community events/gigs/music. Better response to neighbourhood noise
- complaints, more cameras around town for security surveillance.
- Better beach facilities.
- Activities.
- Housing.
- Housing.
- Communication.
- Cost of living.
- Maintaining facilities high standards.
- Keep working on improvements.
- Community engagement, town cleanliness, making the community feel safe to walk, run, exercise and enjoy our town again
- Point Samson entry statement Point Samson beach front and green space.
- Community family festivals.
- Delivering a strategic community plan that addresses actual needs of community and assisting in building capacity of other organizations to deliver services/ events etc that the LG can then step back from.
- Most amenities have been above expectations but toilets need a little more love.
- Solar lighting on all major new paths around the city for everyone to be able to use them throughout the evening in a safe manner and this would encourage exercise of people and their pets in the cooler part of the day.
- Sustainability initiatives. Eg subsidies for cloth nappies, compost information etc.

- Community engagement and events; markets, music, dance, festivals.
- Undercover parking at shopping centre and NR TAFE.
- Better crime prevention & Control of dingoes at beaches develop Shaded (water) playground for children and shaded exercise areas for dogs.
- Community engagement.
- Balanced budget, keep rates under control, prepare for the influx of people. Spend less on cultural events and less on being in business. Too many failed ventures that are the shire's responsibility.
- Bike paths.
- Bulgarra oval
- Medical - competent medical professionals supported with imaging services (MRI) on a permanent basis.
- Youth crime.
- Crime, rubbish everywhere, better shops in the shopping centre (more exciting shops), better fast food options (grill'd nandos etc.)
- Maintaining current facilities and cracking down on unsociable behaviours.
- International travel flights and eastern state direct flights.
- Crime.
- Improve Youth activities and venues.
- More affordable living.
- CBD, housing + flights.
- We should have more plays and stage performances at Red Earth. More movies and activities for adults at Red Earth arts precinct.
- Housing options.
- Engaging more with Ngarluma as the Traditional owners on current and future projects that will affect our Lands, also more community initiatives that involves everyone living within the city of Karratha Placing Roebourne as priority with having more presence from the Local council and better services and community events
- Community engagement.
- Bulgarary, weeds in the main thoroughfares its annoying when the rounabouts are full of weeds.
- More recreation paths were they are needed I.e wotherspoon, millars well, Bathgate road, Broadhurst road. - playground at end of geyer court. - send out rates notices and contact rates payers before referring to debt collectors - save money so rates don't have to increase
- More help to local businesses in regards to staff housing, or more affordable housing for services workers (beauty therapists, hairdressers, etc)
- Community Events.
- Continue with community events and bringing entertainment to our town including live music, performances etc
- Developments & approval process needs to be transparent to the public.
- Hospital equipment, MRI machine and operators. Age care facilities.

- Things to do in summer.
- Karratha backbeach needing bbqs better shade and showers as families love to go there.
- Activities and events for youth.
- Family events.
- Cleanliness.
- Make Karratha more liveable for those who are low-income earners. Not everyone is a high income earner up here.
- Youth activities, please consider a dedicated mountain bike jump park for older youth - similar to Goat Farm, and night events for older youth, movies, teen scavenger hunt, parkour workshop, teen mechanics workshop, etc.
- Cost of living pressures.
- Finally making the airport an actual international airport with 1 or 2 routes overseas. Intra site flights would also be good. Work on providing some new indoor options and activities for families to do.
- Less public drinking. Especially at Catrall Park. Scary when kids have to walk home and there are numerous people are drunk with music blasting
- More street lighting.
- Be mindful of the cost of living increase in virtually everything.
- Accommodation for none mining workers we need more affordable accommodation as we don't all earn big money.
- Community engagement. As someone who is new to the community, I am somewhat struggling to find resources and groups to link in with and get to know people in the area. I think this is really important with the increase of new people coming through over the next 12 months.
- Stop wasting money on Cossack art awards , Either dredge back Beach boat ramp or put a road and ramp into the nickol river mouth where there is a natural low tide entrance to the ocean.
- Financial management . Self audit. Start looking at ways we can pay less rates, not more. CoK appears to be constantly expanding, its not necessary. Subsidising big things like a hotel the privately owned pavilion at Millars etc , is not good value - less of these types of spending would be nice . Cost cutting would be nice.
- LISTEN TO FAMILIES. Please please focus on families, every park or kids area should have compulsory permanent shelter, water play and toilet included into planing. No metal benches out of shade. The reason people leave is there is nothing to do in the hottest times with kids. Build more indoor kids things. You moved the indoor playcentre to a smaller area, where is the reasoning. You want to stay a city and not a ghost town focus on families. More community kid friendly events please. Free water parks like smaller towns like Onslow would definitely help. Also please please help businesses like aldi, spud shed, bunnings to move here. Help Wickham and Point Samson too, more community events please. And for goodness sakes don't let anything be built without having a team of local families input. A dedicated safer facility for playprogram would be amazing especially as alot of gym memberships rely on kids being looked after. Please please fix the leisureplex shade.

- Improved amenities eastern corridor including activations, The quarter building, wall, windows and floor space cleanliness - the Lo cafe interior and exterior space is very dirty.
- Advertisements of more community and social events , a focus on cleaning up the town.
- More events for community.
- Mosquito control.
- More community events otherwise I think the City of Karratha always seem to be improving something to show the community they care.
- Creating leisure facilities for our youth (teenagers) outside of Sports & the Youth Shed (eg. A Timezone, ten pin bowling alley, Bounce or trampoline centre, roller or ice skating rink, indoor rock climbing, mini golf/putt putt, etc).
- Pensioners housing and affordability.
- Long term community infrastructure (ie boat ramps, parks), remove focus on tourism for at least a few years and stay out in investing in housing unless for employees.
- Please fix and reinstate the shade sail at leisureplex. Encourage more breakfast and lunch hospo businesses to start up by offering cheaper rents at the quarter.
- Free community events.
- Medical services and affordable housing is my main concern about residing in this town.
- Clean up the anti social behaviour and crime in town.
- Community connection.
- More community events, aged care and youth involvement in interagency events (young helping the elderly).
- Ensuring housing, facilities and services keep up with demand if the population grows as expected.
- Engaging with the community needs.
- Upgrade to airport. No international flights have landed in Karratha. Why all flights need to go past Perth? Put more public toilets around all park. Employ more indigenous people.
- Activities for youth and reducing cost of living.
- Street cleaning.
- Streetscape and litter - State government liaison re more at home care for seniors - take the pressure off the hospital.
- Mosquito control.
- More tree planting along the top and bottom roads, perhaps some boab trees can be put in please. Also, an initial start to installing a network of security cameras over the town would be good.
- Cost of living including housing.
- Cost of living Housing initiatives for more broader areas such as education support officers. Affordable rental markets.
- Community events, activities to do, addressing shade issues at pool.
- I think our main focus is on our youth and support the low income housing.

- Housing.
- Community services.
- More public toilets.
- More restaurant.
- Retail and health services. It's embarrassing that a City does not have a shoe shop. Access to health care as to be a priority - I'm about to leave town because of lack of services!
- Shade structures all around town, especially at the leisureplex, reop and shops.
- More entertainment or facilities for parents with young kids during the week.
- Footpaths and blocking motor bikes.
- Airport and flights to other destinations.
- Supporting small businesses and housing.
- Improving and sustainability of existing buildings and services.
- New tourism opportunities. More 24hour overnight parking for visitors. We lose so many due to cost and lack of options.
- Diversion of Abor. Youth to council or station work rather than than crime.
- Housing, for the city to grow.
- More accommodation that will be Affordable for business.
- More shopping complex at the nickol baynton area.
- Personally would like to see more focus and more being done about the severe lack of daycare availability in Karratha.
- Cleaning up the streets and sustainability.
- Housing.
- After putting in multiple complaints about people making their own dirt roads across the bottom of streets in Wickham (Rosewood to Jacaranda) and from Rosewood to the Wickham Youth Center and nothing being done is shows that cok does not care for Wickham and we are only here for numbers to Keep the City status. All the money gets spent on Dampier and cok. How about taking care of Wickham. No trees on the main drag, all the trees at the Wickham Shopping Centre have been cut down and nobody seems to know who did it. Dirt tracks are being made, no police, no medical centre, no care.
- Community events.
- Housing. Underage hoons. Crime
- Everything.
- Lighting around Wickham.
- Combat rising costs and still deliver on what's promised.
- Community engagement and sport.
- To do better than last year in all areas as that is a goal to aim for
- More family facilities / activities.
- Reduction of home insurance premiums.
- Bins.

- More focus on under privileged families struggling.
- Getting people to clean up the trash in their front yards, repairing the old footpaths in Nickol, cleaning up the nature strips and verges of litter. Some streets look like a tip.
- Would love to see some waterslides, diving boards and playground at the leisureplex swimming pool. Be allowed more than 3 Food vendors at dreamers hill at a time.
- I know the state government has a big role to play but affordable housing/accommodation.
- Address youth issues Get more unemployed working for the dole especially with litter collection & illegal dumping.
- Health services, policing, security, antisocial behaviour.
- Tidy up the town, lots of rubbish around, lots of large unused land that is on eyesore - put more parks etc in there to tidy it up and look nicer.
- Crime prevention, we all need to work together on this, rebates for security items.
- Getting medical or dentist appointments in this town is ridiculous, i had to fly to Perth to see a dentist cause it was a 6 week wait to get in for an emergency appointment.
- There is a lot of rubbish around and broken glass on the footpaths.
- Airport is a major factor. There are always delays due to the breakdowns. More community events. Food vans and where they can operate to supply for the public. Housing. Cost of living within Karratha.
- Underage kids roaming! Things for children 12-17 to do.
- International flights for local community
- Affordable housing.
- Creating more programs for kindy age children. Also looking at the parks to put more inclusive facilities for children with needs.
- Community events.
- Wickham!
- Supporting local sports groups, not just the loudest though.
- Cost of living / rental price gouging.
- Banning electric motorized bikes/scooters
- Activities indoors for summer and better beach access/open spaces near golf club to enjoy.
- Family fun activities.
- Retaining locals, service workers and long time residents. Supporting local business startups with training through KDCCI. More community events and performers at REAP, use the amphitheater more often. Create a space for weekly/fortnightly local events where local performers can come down and enjoy music/performances and use of carpark space outside REAP to have food vans and local crafters. Local youth service set up with Salvation army to prevent youth being out late at night. Soup kitchen support to feed the homeless. Grants and local support to women's refuge and men's shed.
- Keep up doing what they do best.

- Better everyday entertainment for kids and young families.
- Community events, street cleanups and more indoor spaces for activities - play, family etc.
- Keeping ego out of projects ie. Mammoth clubhouse buildings, the KATS clubhouse looks great but seriously for that amount of money in a town our size for a building that wasn't even the city's or a priority! Fail.
- Proper planning approvals fit for purpose, stop building high density like we are Perth.
- Fix the leisure plex pools and a inclusion playground that kids with disabilities can play at.
- To go and look at past projects that have been on the agenda and haven't moved men shed arts and craft center.
- Continue with tidying up the town litter, graffiti. Look at sustainability initiatives.
- There are many challenges for the city of Karratha; one priority is affordable housing sustainable development, access to different services and economic growth, providing accessible opportunities for everyone.
- Keeps verges mowed more regularly along Dampier highway and side streets.
- Leisureplex - The shade sail is greatly missed. I hope all efforts are being made to have it returned to service(apparently the footings are all good?) Would be good for waterslides for young and older kids at the leisureplex. Water splash pads for dampier foreshore and point samson beach park would be good.
- More community engagement activities.
- Jobs fairs, toddler and baby activities and care.
- Shade at the leisure plexus pool, shaded playgrounds and develop a waterpark/splash pad like broome and Kununurra.
- Hospital,roads,more help for people such as a sobering up shelter in Karratha MRI SCANNER AT THE HOSPITAL.
- More community and cultural events.
- More CCTV is needed in public areas, particularly in the city centre, to assist in curbing crime and anti-social behaviour. Install more cameras and give access to local police to assist them.
- Fixing ageing equipment at facilities and supply more bins around public area, finish connecting the bloody footpaths.
- Eastern corridor improvements, make more liveable. More incentives for small businesses to move to town.
- Fiscal responsibility. Self-audit on how you can spend smarter , reduce costs and spending, where local business can do jobs for cheaper vs council, support small business.
- Fiscal responsibility- doing an audit of what the towns spending money on and seeing where we can save some money. Reducing / freezing rates. 2. Review the public health plan 2022-27
- Other tiwn except Karratha.
- Antisocial behaviour.

- Community engagement and graffiti clean up.
- Providing more carnivals, concert events for the community. Sports event, cultural event for the community.
- Community things for mum and bubs.
- Cheap housing.
- Having more fundraisers.
- Lighting and rubbish.
- Maybe more shades at the newer awesome parks like KATS oval and Baynton West? An upgrade of playground at Nickol west park. Such a huge space with so much space for a great play ground and its one of the oldest ones in town! A separate facility for the clubs like gymnastics that have to set up and pack up each day. A multi use facility with other clubs or groups? I have gymnasts that would love to go further with their skills but unfortunately, without a sprung floor and crash pit will never be able too
- CBD development and streetscaping as a whole.
- Providing more facilities for the town. Helping the town out with the cost of living crisis not everyone up here works for rio.
- Roebourne, Roebourne Town always misses out on everything especially any upgrades or improvements. COK needs to help this community more!
- Rubbish on the sides of the roads and in bushes.
- Need more activities for younger children during summer - free shaded water play area like Exmouth or a facility that holds affordable programs or activities.
- Community events.
- Shade parks. More indoor activity. Less rubbish on streets. Safe footpaths without motor bikes
- The shade sail at the Leisureplex. Also deep cleaning the water in the pools.
- Getting east coast flights back, aswell as getting flights to Bali.
- Fixing the leisureplex shades, adding more things to the play centre, lowering prices
- Community events.
- Community events Cost effective gym access (currently expensive with \$100 sign up fee).
- Roebourne: More gardening (trees, flowers,ECT,, Side curves needs fixing, speed bumps, pedestrian for school children, mor facility in Roebourne upgrade swimming pool, new youth centre, roads needs fixing, (especially near the school) Upgrade the school oval, Upgrade skate park footpath to school needs fixing Recreational facilities (parks) needs upgrade Public toilet upgrade Walk trails needs upgrade More fresh water taps around Roebourne (Tourist seek water) Water fountain needs upgrade. Mount welcome look out (more upgrade).
- Keep up the excellent work alround.
- Affordable community housing for medium itinerant people to stay longer in Karratha.
- More Speed Bumps... Slow Down Signs. Thanks.

- Crime.
- I would like to see an event for parents, not so much kid based. But something the parents would like to do for a night out.
- Continuing to build a solid community environment.
- Youth programs for Roebourne on weekends maybe give money to a better organisation to help the youth of Roebourne for youth stop at 25 not 8 need more youth support for our Future Leaders
- Creating spaces for youth.
- Make a giant outdoor covered water play area the same but larger to that in Exmouth. We love taking our kids to the parks though the equipment is all too hot by around 10am in summer, where the park in Exmouth can be used all day and cools kids down. This would be an incredible amenity for all the families of town. Make it huge so can handle the crowds. Use solar energy to power the pumps and timers for the sprinklers and water recycling like Exmouth. Could be a world class facility
- Retail shops.
- More affordable housing and try to keep rents low not everyone works for Woodside or Rio.
- For police - Poor driving behaviours and enforcing correct scooter use. For City - continue improving community safety like the well designed foot paths. Street lighting.
- It seems to be pretty good atm!
- Keeping the main highways looking inviting as you drive into town.
- Maintaining standards.
- Housing.
- Abandoned homes and rentals that are left in dire conditions should be brought to the attention of landlords and made to clean up especially overflowing bins a rubbish left behind.
- Road upgrades, cycleways should be red asphalt everywhere.
- Vandalism, theft and youth crime especially at night time.
- Better promotion of community events.
- Community engagement with youth to minimise crime and disruption.
- Delong Karratha Family orientated.
- More family based events.
- Leisureplex shade. More community events for kids.
- Crime of our youth.
- Dog park.
- I think they are doing a great job.
- Burrup Jump up park (Murri juga).
- Keep this town growing, you're doing a great job!
- Shade over the pool in the leisureplex.
- KLP shade structure. Revamp of the playcentre.
- The towns growth and ability to maintain the clean and well keep parks , town scapes and streets.

- Equality of services across the whole COK not just Karratha.
- The youth problem, stop pandering to the local indigenous community and remember everyone has to live in this poor excuse for a so called city.
- Footpaths, street rubbish and greening the community.
- Not the gardens! Better off helping locals develop their land. The events and Christmas have been great last year. More pressure on WA government IN PATS. Getting local healthcare is shocking and I think the council should be advocating for its residents for better regional healthcare.
- Tourism.
- Ability to recycle soft plastic. Subsidies for small businesses so we don't see empty shops everywhere. A foreshore restaurant or something engaging along a foreshore would be nice. Parking shelters (preferably at shopping centre but not sure if that's city or privately owned).
- Don't let fifo run over the town.
- Greater access to daycare services and international flights.
- Provide a new SES and Bushfire station. The existing facilities are old and not fit for purpose.
- Housing.
- Fogo bins.
- The burrup.
- Wickham.
- Gymnastics centre to free up an extra court at lesiureplex. Extra road access to lesiureplex at town end.
- Housing more affordable housing. Things for people to do. Bowling, mini golf, rock climbing, axe throwing, escape room etc.
- Lower rates for home owners.
- More indoor activities for all ages.
- Mental health.
- Real Accessibility and inclusion for all ages.
- Continuing to support local businesses. New business to open up more options around town. Help BUNNINGS come to town.
- Community events
- State housing complaints, noisy neighbours, crime and anti-social behaviour.
- Affordable housing.
- Extra facilities for entertainment for families ie indoor bowling, water slides at pools ect.
- How to reduce nuisance in the residential area where majority of the populations are shift workers. Management of family who doesn't have moral consideration towards neighbours should be dealt accordingly by council since council agreed to put them there at the first place.
- More community events.
- Keep pathways clean of debris, especially broken bottles.

- Removing shit from front yards i.e. Vehicles and the like that will obviously never run again...that are eyesores for the rest of the street and dangerous buildings owned by the state government.
- Shade for leisure Plex - investing in something that can withstand the high winds and extreme weather so we can enjoy the amazing facilities at the Leisureplex.
- Community issues.
- Affordable housing for people.
- More planning in the EAST - Undercover Courts, Wickham Gym Extension - new Amenities building for sporting groups and running programs.
- Reducing rates.
- Perhaps looking at providing covered car parking around town, utilise the roof area for solar panels. And on my kids wish list is an improved skate park and splash pad in Dampier.
- Cover for the leisureplex pool.
- Roebourne NWCH entrance.
- The CITY of Karratha has no soul, no history, no local representation and no connection to local Aboriginal cultural traditions and practices and probably not one 50D identified position. CoK has a reputation of being all about Karratha and new non-indigenous people who have no intention of being inclusion to anyone outside of their culture. Roebourne is the oldest town in the Pilbara and has been forgotten. WHY can't Roebourne have a town oval? WHY is the only support that Roebourne ever gets from COK is footpaths and upgrades to the Police youth hub yet look at Karratha. Not everyone lives in Karratha and works for mining companies. The local people are living under the poverty line and don't have a seat at the table at their local council.
- Street clean up, there is always bottles, glass etc on the roads.
- Ensuring amenities at the pools in Wickham and Karratha are fixed with priority.
- Maintenance of existing facilities and parks/ovals, development of the town infrastructure, community events.
- Planning for the next 5 years after the boom has subsided.
- Creating a foreshore it's as if we don't even live on a bay but we can allow for the airport to grow but nothing for the people of this town. Ive been here for nearly 30 years and Ive seen more pubs and bars pop up than anything else. Its a disgusting culture you push with VERY minimal health services. I can't even see a cardiologist here its disgraceful.
- Securing a vonsrct for international flights.
- Disability inclusion. Accessible playgrounds and change rooms in particular.
- More family friendly events and cultural shows for naidoc.
- Doctors and medical services, a month to see a doctor is insane. Also blood tests - Western Diagnostic is never open and the hospital is overrun.
- Recycling.

- Delambre rd foot path Litter clean up Nickol Support small businesses More events.
- Making damaged facilities accessible again ie at the leisure plex. Continue to WELL advertise community events so things arent missed by the public. Utilise the back beach / sea ripple ocean accesses more.
- Promoting the good things you do. Everyone is quick to complain, find a way to get the good news stories out.
- Community engagement programmes.
- Community events and children sports.
- Housing and child care.
- The wasted dollars of ratepayers money and how the hell do justify my rates going up tenfold every year . Im in a 3x1 in baynton and pay the same as my neighbors in 4x2 apparently Ill get the same rent as them . It is pathetic and it needs sorting asap as I live in my house not rent it.
- Expansion such as houses and shops.
- To focus on more things in this town for little kids to do - Age 2-6. So many sports and activities for 6 + but nothing for the younger ages to do, the pool and play Centre get kind of boring after the 100th visit even for a little kid.
- Security cctv at public parks with a view to connecting that cctv to police stations
- Airport arrival and departure screens not working and PA for announcements is dreadful.
- Amazing.
- Streetscapes. Badly Ave looks great, but what about the view across the salt lakes?
- Ongoing facility and recreational areas maintenance, and less on money making schemes or new infrastructure and recreational areas without allocating a properly funded, managed and resourced ongoing maintenance program.
- Tidying up overgrown verges and vegetation around town.
- Completing masterplan KPI's now overdue for Eastern Corridor towns - Roebourne in particular.
- Beaches and foreshore.
- More sustainable and affordable housing projects. E.g. Getting Rio/woodside/Yarra to commit to investing in a certain amount of NRAS properties each.
- Community events and advertising them in all platforms.
- Public toilets not enough.
- More facilities for families and kids in summer, not big enough shades over playgrounds and a below average playcentre makes it very difficult in Summer.
- Community. Keep us united, as there are many fifos here, who don't give a damn about this place.
- Accommodation for non mining staff. Dampier needs a face lift, maybe some street scaping like in Karratha.
- There is absolutely nothing to do here , if you don't boat or play sports your stuck at home ... Yay we have the REAF centre i've been to a movie once , worst chairs ever ,

was in exceptional pain by the end of the film , so glad my kids don't live here any more as there is not enough indoor our of the heat and away from the flies and sun for my grannies to do here . There is also nothing for those of us who don't play sports don't fish and don't drink .

- Before travelling to Karratha/ Dampier I had little idea about the archipelago. I would love to see more tourism information out there to bring people in. Boat and cultural tours would be an excellent addition to get travellers in.
- Please can you look at providing more water fountains available. We have an ever growing community of runners and mountain bike riders and having some more drinking stations located around would be ideal. Put a survey to the community about where they would like some more drinking stations.
- The eastern corridor of the City, especially Point Samson.
- Vacant land clean up, should be included in verge collection as people throw green waste over their back fences to help street appeal.
- Employment, sports infrastructure and offering more activities and swimming lessons for kids.
- Community events, more shopping centre.
- Please install enclosed dog park - specifically for small dogs only. Please put more focus on ranges actually doing something to stop people letting their dogs roam around the streets with no collars every single day terrorizing other dogs being walked on leads.
- Medical Services available.

- Basic local government services.
- Keeping everything clean.
- Assisting small business to get off the ground to ensure the community has appropriate services available to them now and into the future.
- Mosquito fogging, ditches trimmed.
- More community events.
- Accomodation and Housing construction.
- Safety and crime, reducing antisocial behaviour and opportunistic thefts. The police do a wonderful job, but it's a shame to not feel safe in the city I like living in otherwise. I wouldn't ever risk walking outside at night/early morning for fear i'll be assaulted. I am saddened that my children have to be exposed to drunken arguments/ people under the influence of drugs in the middle of the day while trying to play at the park or go to the shops. It's not right that we have to be normalised to people walking in your driveway and checking if the car doors are locked and saying to ourselves "oh, they're just looking for loose change."
- A turf cricket pitch.
- Continue to clean up street scapes. Too many people with Junk and sea containers on their verge.
- Community events and new facilities.
- Marina.
- Activities for teenagers Entertainment facilities for them to hangout in aircin and play .socialise.
- Unsure, as I only moved here recently.

- Financial management.
- Please get the shade fixed at the leisureplex, ask local companies to assist /donate or hold community fund-raisers, essentially whatever it takes to get it achieved.
- 1.Hold more public and multicultural entertainment activities 2.The library can provide separate soundproofed rooms. 3.leisureplex can provide cheaper membership.
- More activities for community.
- Additional flights out of Karratha, either interstate or international.
- Housing.
- Surf club development.
- Community Events.
- No comment.
- Business development.
- Manage fifo population.
- Under cover parking at shopping centres, due to the heat in the Pilbara this would be very good to have.
- Keep improving public spaces and providing the community with activities to utilise said spaces.
- Out door activities.. Encouraging people to get out and active.
- Policing.
- Family friendly community events.
- Retaining locals and cost of living.
- Litter bins on highways, mosquito control.
- The Cities Finances, Tourism, Enhancing the City and surrounding towns presentation. Pockets of Council Land revitalised with Lighting, Landscapes, Information Boards & Sculptures.
- I would like to see some enclosed dog parks - it is awesome being able to use the ovals but sporting groups regularly use them and it can make it very difficult to give a pet adequate exercise depending on how much of the oval they are taking up - the heat makes walking them on leads along footpaths a poor option.
- Making it more affordable and providing more community events.
- Maintenance of existing facilities so they keep performing well.
- Every thing.
- Cracking down on roaming dogs, their owners specifically.
- Shade over the pools at the leisure plex(Karratha) is desperately needed.
- Boat ramps.
- Cat control.
- Community connection and affordable housing.
- A fairer system for charging rates.
- As a long-term resident, I have definitely noticed a change in the culture of the City of Karratha team (for the better) since Virginia became the CEO and since Daniel became mayor. I hope this positive shift continues and there becomes more of a

focus on supporting the community, especially community services.

- Sustainability practices. Community engagement events.
- Looking into more community events both family and adult friendly. Improving footpath and bike track connectivity across the suburbs.
- Continuing the effort to address the housing crisis.
- Dampier.
- Looking to tidying up litter at areas such as Marie pool. Making reasonable priced airfares for non- residents possible to allow visiting of family members and tourists. \$800+ one way is not acceptable when you can often travel around other parts of the country for far less. Expansion of the residential fare scheme to include family members of residents may be a way of solving part of this issue.
- Improve the beaches at Dampier.
- Road repairs (around shopping centre) & maybe pedestrian crossings for school areas for kids.
- Waste management.
- Secondary education standards.
- Lobby state government to support public services. Teachers, nurses and police. Or provide incentives for them to come here. Housing availability is becoming a big issue for GROH. Access to General Practitioners is almost non existent. Attract more Doctors.
- More activities for the community Focus on sustainability.
- Wickham gym expansion, public toilets at parks/playgrounds. Verge/streetscape to be more appealing.
- Shade, cooling spaces, and increased tree cover. There should be a proactive effort for the City to increase shade cover in spaces where people would like to sit outside and congregate especially around the quarter.
- Encourage more retail into the CBD.
- More volunteer opportunities.
- Men's mental health.
- Karratha gymnastics and dance schools to have there own building so not have to set u and pack down every day.
- An indoor climbing wall.
- Maintenance and upgrades of already standing public buildings eg shopping centre, library.
- Extend cycle ways. Solar panel station. Roebourne oval redevelopment.
- Entertainment family events.
- Housing, flights, CBD activation.
- Unsealed roads and BBQ's at the beaches and toilets.
- The Karratha Shopping Centre visual appeal (externally).
- Circular economy.
- Comunity projects.
- Keeping up the good work.
- Small business.

- Expanding the gym or building a new one down Nickol, Tambrey way to support the towns expansion.
- Maybe focus on the hazardous Multiple Roundabouts in Karratha that hinder the flow of traffic Some of the Blind Spot in Karratha certainly need to be revisited and amended as it just too harzardous to drivers. The Town planning leaves a little bit to be desired, Instead of making or designing Small town plot for sale with no room for your car or Boats on your property , bigger property's eqates to more people wanting to move to regional areas and creat Growth , you have all that space in and around Karratha yet you waste it all. The traffic light in karratha need to be assessed for Flow control , some are just too fast for traffic , someone will get seriously hurt soon How about some attention be given to the Highway Intersection that have Very little or NO lighting at all for entry to and from karratha , you only need to go and inspect the multiple Skid marks from all the vehicles to recognise there is a problem , The 24hr on the highway has a great intersection , with fast flowing and smooth control for traffic Why isnt the main entry point also not given Priority to address the issues? The Cok shire has an Overload of Ovals around karratha for multiple sports , yet most if not all have No amenties or have been neglected , time to revisit and redesign for better appearance , Eg: karratha Sport and recreation club could do with a makeover with more space for car parking and Indoors Sports , the Lighting around some of these venues is non existent at the moment? The Indoors sports has been left high and dry due to the lack of venues that can cater to high volume Sports , Darts and Eightball lack suitable venues that are just too cramped in design? , maybe help the karrath sport and recreation club to better cater for indoor sports as well , they allready have

the Ovals to caters for outdoors sports , Why not include more space for indoor sports? So much more to say but that will cover some of the most important issues affecting Karratha and surrounding towns. Thank you.

- Family events.
- Promote more tourist attraction activities.
- Houses riddled with waste out the front & abandoned cars also out the front - on both sides of Nickol Road up to the Enderby Rd intersection - we live near Nickol Road / Bayview Rd and it's disgusting to drive past as an entrance - the motorbikes everyone complain about come out from the side gate of #2 Nickol road. Smashed glass all over the road... #9 Nickol has some serious rubbish out the front at the moment.
- Improve street lighting.
- Animal control, street clean up (many corporation houses litter constantly and rubbish litters the streets).
- Nothing specific.
- Liesureplex shade sails.
- More community events- music festivals, music at the REAP.
- Housing availability Overhaul business development grants system to better serve SME capability development Activate unoccupied commercial and community leases across town.
- Housing.
- Getting the basics right, supporting local business and investing in sustainability initiatives.

- Continuing to make Karratha the major city of the north-west, especially on a state/national level.
- Crimes.
- Not sure.
- Providing more opportunities for community events that appeal to a wide variety of demographics. Also looking at decreasing council rates please and thank you.
- Keep up the good work city!
- Street cleans.
- Revisiting the public health plan and letting the public know where glyphosate is being sprayed so people can avoid those parks.
- Flights options for Karratha to cities other than Perth
- Leisureplex and cinema.
- Unsure, just relocated.
- Youth programs, events, shaded and cool areas. Increase green spaces and shade. Young adult activities need prioritisation. Plenty for young children but limited opportunities for young adults to connect and socialise making it difficult to attract young skilled professionals to the region. Service worker support. We desperately need a reasonably priced grocery shop in Nickol/ Baynton. Paying \$27 for a bag of grapes or \$14 for 1 pomegranate is unacceptable. Fix the drainage issues, 5mm of rain and our backyards flood. IGA floods after min rain. Town planning and drainage requires attention! Why do all the shower drains in Nickol smell?
- Indoor playgrounds for kids.
- International airport, more national routes.
- Coastal walking paths. Shades in the shopping centre car parks for parents and kids.
- Bringing business in other than mining.
- Please build things for children and families to do together.. Such a mini golf course, bowling alley, arcade, indoor rock climbing etc somewhere to escape the heat and also do an activity.
- Spending money on things that benefit the most people.
- More sports ovals and hireable spaces for bookings.
- This is a great town and community for raising young families so I think focus more on that and engage the families with more activities and by doing up the spaces for our kids. Add more shade to parks, keep on top of the cleaning of them, modernise facilities at our aquatic centre and maybe add more planning for child friendly activities like a bowling or arcade facility - something the whole family can have fun at.
- Stuff for our youth to do, bowling, arcades. Home-maker centre, bunnings, so we can have more competitive pricing, the price profile furniture shops up here are so high just because they can. Not everyone gets paid the big \$.
- Community family events.
- Communication with the public like Port Hedland does. If you arent on Facebook you miss emergencies, alerts and events.

- Youth crime and littering. Especially on the roads leading away from Ampol.
- Crime.
- Parks and green spaces Activities and community engagement for children/teenagers.
- Child care costs!
- Child care.
- Accessibility.
- The basics, community consultation, make Point Samson a priority, allocate money in the budget for Point Samson improvements and hurry up and build a sporting facility for sporting groups in Wickham. Listen to the people and be accountable to get the job done and finish the process.
- Safety of everyone.
- Intersection at dreamers hill.
- Wickham needs more focus. Needs a beach upgrade similar to what Karratha and Dampier get Wickham also needs a boat ramp upgrade and an amenities building upgrade.
- Making ALL bottle shops in west Australia implement the BDR! ALL BOTTLE SHOPS!
- Shade sails at the KLP.
- Liveability & Housing strategy. Housing strategy must take into account residents that have already purchased residential property at peak costs - increase in the supply of housing will affect these properties resulting in possible bankruptcy and/or mortgage stress.
- Correct usage of revenue raised from rates . Wstop increasing rates when we are one of the richest shires in Australia. We pay equivalent to Dalkeith in rates.
- Affordable housing or at least reasonably priced land and better building suppliers to encourage new builds and renovations = BUNNINGS!
- Boat ramp facilities.
- Business Development & Support for smaller businesses.
- Cleaning up the streets.
- Roads and garden up keep.
- Community.
- More community events, better care for the town and roads, crime focus, overhaul of the really out of date shopping centre and car park. More day care initiatives to attract staff.
- Shade structure repairs at the Leisureplex.
- Leisureplex shade and community safety Housing Activities in community.
- Staff parking at the airport vexes me for those that work there, other than CoK.
- Get the kids off the street. Strengthen the community spirit with community events. They need to be advertised way better. Half of the time people don't know about it until it happens. Get the food vans back on dreamers hill instead of spreading them out. People were coming together and had a chat during they were waiting for their meals which is good for mental health. There was never a safety risk to have them there. Now it is hard to keep track which van is where positioned. If the pace isn't

big enough, create one (old hospital?) Like a open food court type thing. Bring events like the red dog festival back. Do it in wintertime. It helps the community spirit and brings down criminal actions. Get better medical services into town. People still have to fly for dialysis to Perth, being separated from their loved ones. Same with basic cancer treatments. The hospital has nurses with licenses to help with a water birth. The hospital has water tubs. But you can't give birth in them. Ridiculous. Help cossack to be developed better under heritage law. There is so much potential and would draw more tourists into that area. We need a Bunnings.

- PLEASE provide water and fixed water bowls for dogs to drink in dog parks. Please build a shallow pool for dogs to swim in at Tambrey Park.
- Indoor activities for both adults and children. I.e. Bowling, mini golf, rock climbing, axe throwing ect.
- The City of Karratha do a good job maintaining the town but it needs some additions to give children over the age of 11 things to do instead of them being stuck in their bedrooms playing video games. Better skate parks, more movies and things like a bowling alley, trampoline park would go a step towards Karratha being able to actually call itself a "city".
- More updates on community events/ whats happening around town.
- Beaches.
- Shades for parking - shopping centre.
- Creating a space for kids/families to do in the heat, muktifunctional centre such as bowling etc.
- Increase community events and improve advertising for each event.
- Making people accountable for the state of there properties.
- The community.
- Improvement of road designs to minimise hazards. For example, the intersection between the Dampier Hwy and O'Keefe Road is hazardous because of numerous reasons, from sight issues when multiple cars are present and attempting to turn in or out at the same time, to traffic flow on the highway halting the ability to exit or enter O'Keefe at all for decent periods of time during high peak times such as 8am, 2:30pm, and 5pm. Another example is the terrible intersection between the IGA carpark/Liberty fuel station and Dreamers Hill. This intersection is quite dangerous and i've witnessed several near misses, it needs be amended somehow. Also, the risks associated with this intersection have caused Dreamers Hill food trading policy to change, allowing only a maximum of 4 traders per time slot to trade on this location. My thoughts are, the entrance to Dreamers Hill should be replanned/relocated to enable safer access to both of these areas, and then it may be possible for traders to share the space more fruitfully, as it is the most preferred and popular trading location.
- Direct flights to East Coast (Brisbane) and direct international flights to either Bali or Singapore.
- Filleting stations at boat ramps.
- Reducing dumping, stopping all the new mountain bike tracks from being created, and creating drop off points for kitchen waste.
- Community Events.

- More food outlets and businesses e.g bunnings/bcf - affordable prices and better options.
- Foreshore facilities, filleting stations, wash down bays etc.
- Fence the play grounds in dampier to avoid kids going into car parks and water. Also sort out the issues at the Leisureplex.
- Public housing cleanups and holding occupants accountable for the condition of things that don't belong to them, others property and there surrounding neighbours. Be part of the community, not the problem everyone else has to solve.
- Getting the roads Re done so they're smoother.
- Community events.
- Maintenance of sporting fields, community events, illegal dumping.
- Housing.
- There needs to be more services for young adults/teens.
- Cost of living.
- Better flight options. More affordable flights! Especially for families.
- More local stuff in wickham for younger children.
- Providing indoor activities for kids of all ages. We have nothing than a play centre (younger kids) and pools when the weather is hot and humid. A complex that facilitates bowling, arcade games, indoor trampoline, mini golf etc like in a-lot of places would be amazing. You have a lot of children here and not alot to do. Make Karratha a place where families want to live not just stay a few years and leave because of lack of things to do.
- Street scapes - houses rubbish tip front yards.
- Affordable housing. Supporting first time home buyers who want to make Karratha home.
- Shade in all places possible.
- Updating the shopping centre and helping small businesses afford the rent if they were to succeed. This town needs more shops that relate to the number of people living here, rather than everyone buying online.
- Litter clean up from public areas and pathways Entertainment for community who live here Like markets, games, archade, anything.
- Spending money wisely. Helping wickham more.
- Long term security of resident fare flights.
- Do not spend rate payers money on decisions that do not benefit the greater population. Fix the dodgy car parks in town and Dampier. Also, does Dampier exist as there were no specific questions about the town.
- Good movies at REAP, regularly.
- Reduction of kapok weeds across all areas of the City, and an education program for residents on the weed and how to safely control it on their own properties.
- No idea. The shade at the leisureplex.

- Community events and family focused activities.
- Community engagement events.
- Lowering rates as cost of living is rising and becoming unaffordable to live here.
- Community Safety.
- Reduction of rates fees.
- Cheaper everything.
- Parks & gardens/trees.
- Give Wickham some attention please.
- Trails and recreational spaces eg more pump tracks, significantly better skate parks, public water park/ splash pads. Shaded!! Don't rely on clubs and volunteers to build facilities. Take them in and professionally manage them. Flights to Singapore. Cost of living Lifestyle blocks of land Health services. GP, specialists and MRI scanner.
- Fortescue boat ramp needs upgrading badly. Dampier boat ramp could do with fresh water for boat rinsing and fish cleaning stations.
- Affordable freight options or more larger businesses to help bring prices down. I.e: Bunnings or BCF. It is almost impossible to afford to live in Karratha with the small businesses charging whatever they like because they don't have any competition.
- Increasing tourism.
- Community events for 18+ as well as family friendly.
- Reducing rates inline with the cost of living. More street lights on footpaths in Tambrey estate.
- Be an actual leader in environmental concerns.
- Affordable housing that does not have rules that exclude people that are service workers that work for companies like Kennards, Coates for example. They earn shit money and are not eligible for subsidised housing.
- Housing.
- Finances - we in a good position but that's fragile. Look at cleaning glass etc from streets - we may all behave better if our city is cared for at a higher level.
- Cheaper living.
- Financial management.
- Karratha Pool.
- Growing small commercial properties.
- Housing supply/affordability has, and perhaps always will be, a huge priority. Land-lease, vs purchase must be an option and City needs to exert sustained pressure on State Govt, if that's what it takes. Further 'consultation' is not what's needed - action is what we want.
- Bring Dampier pathways back up to the presentable standard they used to be and start eradicating the goats head burs that are out of control in Dampier.
- Community events.
- Increase retail shopping variety to try to reduce online shopping. Encourage commercial leases to be more user friendly

for small business. Both will offer a better range of bricks n mortar businesses, increase variety for consumers, increase employment and increase economic prosperity. Keep our wealth in our region.

- Shade for the leisureplex, toilets and BBQ for some of the smaller but well used parks (Brolga parkway, Tambrey oval).
- Safety- make people feel more protected.
- Affordable living. Karratha is supposed to be city, yet the cost of living up here is what you would expect from a very remote town with limited resources.
- Wickham Gym facility Wickham Yacht club facility.
- Public events.
- A bigger gym in Wickham.
- Less re-doing the gardens in the roundabouts and more planting of trees along the roads. We need a set of traffic lights at the Leisureplex / Karratha High School / TAFE intersection urgently.
- Provision of Pediatrics services in town. More access to Neurodiverse specialists for assessment and management/support.
- We need more gps in town, more mental health services and more affordable housing for the support industry (people not on high wages).
- Affordable housing, a very high % of people leave town due to the cost of living up here, unfortunately it is not very often a long term goal to call Karratha home because it is so unaffordable. Rent is increased every 6 months and there is no cap on what they increase is. It is ridiculous. There should be a cap on the

max amount of rent you can be charged. We will be leaving town at the end of the year due to this very reason. We dont get housing allowances and therefore cant afford to stay.

- Maintaining public facilities- parks, swimming pools, libraries.
- Keeping roads clear and clean in wickham. Rocks scattered over road causing safety hazards for people walking.
- Keeping businesses.
- Just keep it up.
- Efficiency.
- Activities.
- Cost of living.
- Getting the pool shade back up at the Leisureplex.
- Lighting.
- Rent increases and the airport.
- Community events, Youth initiatives.
- More cultural significance.
- Keeping rates down.
- Improvements to visitor/tourist facilities. Historic museum featuring indigenous culture/mining/town establishments plus art gallery shop/space specifically to promote the local art and products, especially the indigenous art. The current tourist centre is a below par facility.
- Continued focus on not just maintaining our currant infrastructure but also saving

for a major project or two to make the region even more livable.

- Information on events.
 - To focus on creating safer spaces within the community (Youth Shed, The Base) for kids to feel comfortable going there and not threatened.
 - Shade for leisure centre pool Workshops and social was to support traditional custodians. To learn more about the area and how to respect their country.
 - Building.
 - Retaining staff.
 - Community engagement and activities for children.
 - Bring back more community events.
 - I think that would be to look into suicide prevention for our young people. We need facilities that they can utilise without fear of being judged and to maybe do so without the knowledge of their peers. This is a huge problem in our town,
 - Community events and working to avoid anti-social behaviour.
 - Shade for Leisureplex pool needs to be changed so that we are not at the mercy of a small handful of companies that can repair it.
 - Have more event planned that include bands and music. We seem to not have a lot of music here unless you go to a pub.
 - Community Engagement.
 - More activities such as a tenpin bowling, bounce, or kid friendly activities. Perhaps
- inflatable bouncy obstacles at hearsons Cove bimonthly. Thursday or Saturday/Sunday markets.
 - Infrastructure.
 - City Centre.
 - Street security cameras.
 - Bulgarra requires more love and attention.
 - Transition from Peter Long to new Mayor. Additional housing developments if possible.
 - Community engagement, development to keep families in the area, and attract tourism.
 - Provision and maintenance of public toilets.
 - Youth crime.
 - For me the bin collection. Poor service but i appreciate their effort to get all the rubbish but make sure we dont need to pay to get another bin if the bin collectors fault. Make sure they handle with care.
 - Developing Dampier. The town has so much potential and could be a major tourist destination. Foreshore development, caravan park, finish the village and get some tenants in there. Sporting precinct with a gym.
 - Fixing the shad at the pool.
 - Community events and staffing / recruitment.
 - More Community events.
 - We need more food vans on Dreamer's Hill.

- Review the public health plan 2022-2027.
- Less levels of reviews and approvals internally so more successful progression towards the most liveable regional city. There are too many handbrakes in review processes currently.
- Getting the shade back at the Leisureplex and more shade at playgrounds.
- Community crime.
- Footpath development/walking paths.
- Maintenance of the current facilities and community experience so that all residents in this transient town feel a sense of community and can easily access all available local resources.
- Affordability, something more for children to do when the weather is too hot.
- Updating Bulgara sporting oval to a better/modern complex/building.
- More infrastructure for cafe/dining.
- More community activities and events.
- Would be great to see affordable art and ceramic workshops through the year rather than just around Cossack Art Awards time.
- The ovals and sporting facilities at Bulgarra need alot of love, upgrades and maintenance. New practice cricket nets, upgraded lighting for night sports, need some form of cover for the cricket pitch when football season is on because that pitch is so hard to be tackled on and is slippery under foot when wearing cleats/sprigs. The whole Bulgarra sporting area needs a revamp! More potable water fountains too.
- Consider developing/opening/ operating a child care center.
- Have left a couple of online reports and nothing gets done. City not interested in the older suburbs.
- To make karratha an inviting environment for other to come and live for years.
- Connecting Karratha to the east coast of Australia and the rest of the world with Flights to Melbourne and Singapore.
- Assist with development of the 'jump up' concreting project to open up the cultural areas of the Burrup to people who do not have high lift 4wds.
- Leisureplex aquatic centre shade.
- Mosquito control and getting the shade sails fixed at the Karratha pool.
- Affordable housing and cost of living.
- Cleaning up the footpaths and verges to give the city an always "tidy & clean appearance.
- Repairing the shade at the Leisureplex and more community events/ concerts/ festivals.
- Local sports facilities and beach amenities.
- Bulgarra oval realignment and the rec club getting a makeover. Maybe decking out the front of rec club that looks out to the playground.
- Community events, a enclosed dog park.
- Community engagement and events.
- Cycle and shared use infrastructure during new road development and maintenance.

- Facilities in Wickham. Lots of focus in Karratha, not much attention in Wickham. Ovals could be better, netball/basketball court shade would be great. Pool managers could be friendlier and not abuse patrons when they don't believe ages of children. People see certain pool managers car and drive to Roebourne or the beach so they can actually enjoy their time in the water.
- Upgrading the Bulgarra oval, and utilising the vacant space around it. So much space with all sports trying to use 1 part of it.. Expand it Sheds between cricket nets and water tanks so T-Ball, softball & cricket can utilise these.
- More or larger sporting facility, the city is growing, that means sports are growing. Associations are pushed by WA to grow and increase member numbers, & yet we can't facilitate this as we cannot cater for the numbers.
- Redevelopment/overhaul of Bulgarra oval to the same level as Millars well. More in depth care of ovals and curating. More slashing of suburbs bush land and nature strip's.
- Youth engagement.
- Financial Management.
- Youth activities.
- International flights from Karratha.
- Crime watch and keeping kids in schools.
- Shaded areas at bus stops.
- Community events and Community safety. A family friendly town feel.
- Shade for Wickham shops car park.
- Health care, in particular mental health care.
- Housing. In particular encouraging more companies to have employees living in Karratha instead of FIFO.
- Dampier amalgamation, ensuring ditches are maintained and building approvals are caught up.
- Financial stability.
- Community events.
- Updating the gym at the leisureplex.
- 1#Lowering council rates. 2# Cracking down on youth crime and hoodlums on motorbikes in the middle of the night. 3#Signing off on a Bunnings and other major retail chains to move to town.
- Keeping roads and pathways clean in Wickham and perhaps stopping verge driving by installing bollards at the bottom of the streets in the middle section of town. It can be dangerous for pedestrians and also makes the pavements dirty and slippery with dust and gravel. No one needs to be taking a short cut in such a small town!
- Keep going KTWOWN! More shadow areas and collect recycling bin every week.
- Bushes and trees on corners, there have been a few close calls where I have not been able to see oncoming cars because there is a bush or tree blocking my view. Also the use of glyphosate, can we please stop this? Let nature do its thing, why spray where people and animals are walking when the weeds will grow back anyways.

- Adding reticulation along the trees the line the highway so that ratepayers arent forking out millions a year for manual watering. Also fixing and maintaining the Leisureplex to a higher standard.
- Support local businesses. (financial).
- Youth crime.
- Helping to provide more or better best services to the public for shopping.
- Provide better offer to travel from Karratha to other city than Perth and eventually overseas. Decrease the cost of flights.
- Community events and engagement.
- Building & planning.
- Plant more trees.
- More tourism initiatives. More wet areas or some kind of aquatic centre including water slides etc. Make a reason for people to pull in during there long drives plus great for the locals to play on. Also this town should be a renewable powerhouse yet you're letting horizon restrict renewables. Ridiculous we should be embracing them and making the grid much smarter. If a whole state can do it (SA) so can we.
- Housing.
- Support for small and local businesses. I.e advertising initiatives and incentives (other than grants which are already available) support for young families/new mothers along with more child friendly activities and events youth crime affordability for people who arent mine workers.
- Lowering rates.
- Educating the residents of Karratha on sustainability and recycling would be great. Outdoor activities for our children and more spaces with shade areas to enjoy and have more of outdoor experiences.
- Karratha airport for an international tarmac Encourage more restaurants and Cafe bars. Make it more feasible for retail businesses to rent facilities at a capped rate. Pay attention to the rear carpark of the shopping centre needs re-sealing.
- More footpaths! Would love to see one down balmoral road. Also better traffic management / round about near IGA / Dreamers Hill intersection. Being back Moonrise cinema! Keep planting more trees!
- More cultural activities and dust minimisation.
- Building a cycle path from karratha to dampier as riding on the road is very dangerous.
- Housing availability.
- Fixing shade sail at the Leisureplex to protect children from UV skin damage. Providing shade for newly constructed pavements and beach frontage for Karratha.
- No increase in Rates for residential properties.
- More housing.
- Rubbish , broken glass on the paths in the suburbs. Cleaning up the Gullys. Focusing more on the suburbs. Car park at the shops always a mess , full of rubbish.
- Continuing to provide good accessible family friendly community events.

- Cost of living in Karratha power, water, rates, insurances it is so expensive and even with government rebates. Food and going out to dinner with a family of 6 we just eat in. To have a meal is one thing with water but if you want to have a wine or beer with dinner x 2 its worth a meal too some. Over 30 dollars to have two beers. We budget our financial experiences and its still expensive. A lot of families save up here and then go away for holidays and visit family to have experiences with each other that is more cost effective in the long run. If things were more affordable we would do more things in and around Karratha as we love living here.
- Community engagement and supporting community efforts to engage people in positive, social behaviours.
- Littering.
- Supporting local businesses Community Development/Engagement More facilities/shops that are usable for the residents.
- Planning for sport, cultural, and community/civic facilities.
- Community engagement and cleaning up of footpaths.
- Keeping the parks and streets clean for our children. Continue with community events. The gardens and grass are looking great keep using whoever you use.
- Street Theft, Loitering and crime.
- More activities/events for the local.
- Illegal dumping of drug paraphernalia used needles etc.
- Roebourne and Community surroundings issues.
- A foreshore splash pad. A small waterpark at the leisureplex. Something for older kids like a bounce franchise that has clip and climb and playground for small kids all in the one place. Otherwise I think the city does a great job.
- Bringing service to all not just indigenous events!
- Maybe get more bus runs, like make them run everyday also more activities for kids around the city even get more shops too more clothes shops.
- Building opportunities for the older youth i.e. From age 12/13 +. There is nothing available for these age groups indoor. When the weather is too hot to be outside they have nothing to do amongst their friends.
- I would like to see a bowling ally with pizza and a time zone. I believe these would keep kids more entertained and families can do this together.
- Not sure of 1 thing, as is doing a good job!
- Recreational spaces.
- Do everything they can to prevent another ridiculous housing boom with insane rental prices.
- Community events.
- Please bring in some more activities to keep the teenagers off the street.
- X 2 dog parks to be established!
- Maintaining a clean shire precinct. So much rubbish and illegal dumping though

our shire. Its actually very embarrassing for the shire. Just have to be honest.

- Mental health support and flights to other locations.
- Rubbish in out local bush areas.
- Education and health services.
- Aboriginal youth crime.
- Safety after dark.
- Indoor youth activities Place for teens to have fun.
- To be honest Ive only been in Karratha less than 6 months and so far Ive been really happy with what Karratha has to offer! Replace the IGA with another Coles.
- More shade over the playgrounds More community based activities for children 3-8 Offering donations and support to non for profit school readiness programs.
- Get the police station back in Dampier.
- Reducing cost of Airfares of visitors to Karratha, more direct flights to other destinations.
- Do the basics well.
- International flights from karratha to another country.
- Maintaining and improving community facilities like KLP.
- Dog and cat control.
- Karratha needs a Bunnings, a proper foreshore and beach area near the town and cheaper airfares as they are still so expensive.
- Affordable flights.
- Bunnings. Make Karratha a sustainable and competitive city . It should be hard to incentivise city based like Bunnings to provide their services locally. Bring the prices down for locals not everyone works at Rio or Woodside.
- Keeping roads verges tidy Slashing streets verges to avoid snakes Clean up gullies.
- Community wellbeing. Too many mental and emotional struggles that can be helped locally but everyone is too shy about it or passes the buck. Creating community. Not just a sense of community.
- As we are growing community and people and families are moving to live in Karratha. It would be nice to have an international flight that would connect us to the world and bring Karratha to be a tourist destination as well. A direct flight to Singapore will be the best way for this to open up our Beautiful city to the world.
- International airport or more domestic flight options.
- Get the youth off the street with cool activities. Put shades over playgrounds. We are one of the hottest places on earth and there are no shades over the playgrounds. They can be made cyclone proof. Support the community to create a save atmosphere for everyone. The community was always coming together for a chat on dreamers hill for example when all the food vans where there. Now you don't give the opportunity anymore because of " safety" reason they have to spread out over the whole town and it is hard to keep track where everyone is. Not ONCE was their an accident. But the city said so. We need a Bunnings.

- Repaint the horrible artwork on the water towers as it does not fit the landscapes here in Karratha.
- Youth.
- More community events.
- Unsure, as we haven't been here very long.
- Sorting out the inflation of housing in the city. The real estate agents are the only ones hyping the price rises. Current construction projects all have community/social impact plans in place to make sure it isn't like the last boom.
- Verges and cleanliness.
- Transparency.
- Maintain what you are doing. Karratha is awesome and the COK is doing an amazing job.
- Repairing damaged footpaths and cleaning up broken glass.
- Housing and rentals are way too high! Keeping people in town!
- Flights to more locations.
- Collaboration and cultural consultation, inclusive partnerships and participation from communities, families and businesses.
- Dog control.
- Ratepayers not businesses.
- Crime prevention.
- Start an airline and provide reasonable priced flights to Perth for residents with smaller economical planes e.g. Bombardier CRJ900. 2h flight should not cost more than \$200 one way at any given time. In a normal world where airlines like Qantas don't control the competition and skies 2h one way flights cost less than \$200.
- It seems you keep losing our money in very bad ideas.
- Tourism.
- Cheaper flights.
- Not overspending.
- International flights out of Karratha airport, direct to Asia i.e. Singapore or Philippines
- Make the airport more versatile. Interstate and international flights are seriously needed.
- Affordable housing for non-mining sector. Smaller events such as markets. Re-Grass City Park and clean up quarter. Reinvigorate CBD.
- Crime prevention. Bullying in schools. More indoor activities where families can spend time together.
- Karratha needs a Bunnings! Please do all you can to get this business up here!
- Fix up the housing crisis for families that are struggling. I have noticed many houses empty, a long waitlist for government housing putting stress on families which affects crowding in homes and has a bad impact on the street where there is overcrowding.
- Make sure your contractors are held accountable, check their work. Specially footpath maintenance in Bulgaria. Poor work performance, known staff must check the work and don't accept poor performances.

- Fix the Shade at the leisure plex, not 12 months of redtape and reports, just fix it
Playgrounds should have better shade structures so they can be used all day throughout summer not just midday and dawn/dusk.
- To really listen to the community.
- Splash Park at the foreshore.
- Making the cost of living affordable for the average person.
- Rental prices it is ridiculous how much u have to pay to live here.
- Dont spend money on crap.
- I pay rates and other people tell me about this survey, I dont use Facebook or other social media and you have my email and mobil number so use those and I will feel apart of this community not alienated. Keep up the maintenance of Karratha and surrounding areas and not put a preference on one area.
- More things to do! It's so boring here! 10 years i've been here. Bowling Alley. More restaurants. Dampier foreshore. Water park.
- The department of community housing within Karratha does not fit in with the community standards bringing down the neighbourhood around them. The houses are in a state of disrepair, rubbish strewn around a lot of them and the disruptive behaviour is unacceptable. When is something actually going to be done about this?
- Affordable housing for critical workers
Attract and retain quality healthcare and childcare staff
Broader range of services available at health campus - beautiful building but still have to fly to Perth for specialist consults
Maintain Dampier Bowls facility, part of the community
Make progress with Dampier sporting club facilities at Windy Ridge.
- Public transport.
- Boat ramp, tidal access.
- More shopping infrastructure for a growing town eg ALDI, bunnings, camping stores etc.
- Plant more trees around the city. From planting programs previously they ahve made the city heaps better - keep it up!
- More flight destinations from Karratha.
- Maintain existing infrastructure, attract and retain qualified staff and maintain its excellent public service.
- More Doctors in town. Access to an MRI facility.
- Crime. Break ins. Theft. Overall security for people. The pool shade. Advertising events better.
- Build another state high school, as KSHS is over populated and the bullying is out of control.
- Aboriginal engagement, both at a business level and non business level.
- Keep up the good work.
- Lowering the prices of flights.
- Continuing to improve livability and economic development in the city to ride out the highs and lows of the resource sector and encourage more long term commitment to the region.

- Providing shade for community areas, lowering the cost of living as its almost impossible living standards here these days.
- Realistic rental prices for those not employed by Rio Tinto or Woodside - not everyone can afford high rents which is why people leave. Also air fares and flights need to be better priced and regular flights and the need to fly to towns without having to go Perth first as the airport name has international included into it but its only domestic to Perth and return.
- Shaded areas around town to relax and make it easier to renovate a old house 6 - 12 weeks is unacceptable very difficult and not easy to find help.
- Public facilities like toilets.
- Direct flights to anywhere other than Perth.
- Accessibility of playgrounds for people with disabilities and mobility restrictions.
- More public events and activities.
- Building shade over basketball courts in Wickham, that way the Karratha people can come to us for once and not Wickham people go to Karratha all the time.
- Fish cleaning station in Dampier and Karratha back beach boat ramps.
- Regular local transport bus service.
- Can we beat Port Hedland in getting the Bali flights up and running from the Pilbara.
- Upkeep of verges in all areas not just the town centre.
- Availability and affordability of medical and allied health services
- Lowering our rates. They are ridiculously high. Clean up around the town. All council owned verges are over grown and a disgrace. Allow more solar for sustainability.
- Shade over the pool.
- Crime.
- Reducing rent for people to be able to live, get a decent kids area in the pool like Hedland had. And feckin shade in the car park at the shops.
- More things for the community to do. Something to be done about little kids running amok.
- Is more foot paths and fix the park at the end of Geyer court not fair on my daughter.
- More housing.
- Community engagement, youth engagement, trying to get the youth involved to stop the crime rate going up. Cultural significance is big in the city of Karratha, coming together with the local aboriginal and non aboriginal corporations / communities is vital.
- More business such as bunnings, more shopping choices and support in getting items shipped to karratha for low cost.
- Community engagement.
- Getting Bunnings here.
- Karratha Gymnastics needs their own space. They are unable to grow in the current space and other clubs want additional use of the facility.

- Clear communication and transparency.
- Making the airport work for the community. Making flights to capital cities around Australia assessable and reasonable prices.
- Supporting small local businesses.
- Community engagement with the surrounding communities Roebourne, Wickham, point Samson and Dampier.
- Flights to places other any Perth Singapore would be great so we can go anywhere in the world.
- Ensuring enough local events are held for the community.
- Crime and public safety.
- Giving Roebourne the same respect and services that Wickham and Karratha are provided.
- Better beach rest areas. Open a new track / road 2wd accesible after Withnell Bay,
- More jobs.
- Supporting local business
- Opening the airport up to locals for cost effective flights, normalise local flights instead of charter flights at a big cost.
- Drug abuse and crime in town.
- Rental assistance.
- Investment in ongoing maintenance and beautification.
- Community engagement.
- Cheaper Flights. Public water park that doesnt have to be paid for like Broome has. Dual bin collections over wet season. Verge cleanups other than green waste like 1 general waste pick up before cyclone season. Upgrade on the indoor play centre equipment. More public toilets other than the shops which are only open in school hours.
- Shade sail for the pools and increasing housing projects, making housing more affordable for people not working in mining.
- Cost of living- reduce rates| insurance Crime! Residents safety!
- Affordable Housing, Mental health accommodation options and sober up shelter for men in karratha around Domestic Violence and a more frequent bus service between Wickham, Roebourne and Karratha instead of just twice a week.
- Make Dreamers Hill free.
- Clean up cofk & RTIO controlled open areas in Dampier,
- Skatepark, international flights, waterslides at the Leisrueplexplex.
- Business support so limited in so many industrys Community events - disappointing to see so many events not happening.
- Offer more ways for the public to interact with Council online.
- Shade at the pool damper foreshore.
- Community events and engagement.
- Providing more mental health care for all ages.

- Expanding indoor sporting facilities.
- Housing create initiatives that encourage people to build and buy houses. Support local sport groups and help them grow.
- Housing and health facilities. We dont work in mining yet our rent is \$1200 per week - if it goes much higher it will be unaffordable to live here and we will be forced to move elsewhere in the state where it is a bit cheaper. There must be some way that the cofk can get the state government to put in some more infrastructure in some new land and maybe get some pre-fab houses up here to ease the pressure. Better yet work on the big industry to let out more of their houses that are just sitting vacant. Health facilities need to be improved - they do a great job at the health campus but it would be great to get a MRI machine and maybe dialysis. Its a 4 week wait at the moment to see a GP so maybe more incentives to attract and retain medical professionals is needed. More shaded areas ie outside Los cafe etc especially once the tree has been removed. More diversity in investors - stop letting the same people own everything in town. More local investment not people who live in Perth.
- Developing airport facilities and expanding routes in and out of Karratha. Broome, Sydney and Brisbane must be a priority.
- More community events for children, more music artists, allow dreamers hill to run how it did several years ago with food vans.
- Listen to what the community is telling them.
- Housing.
- To continue to facilitate community connection and engagement with events such as markets, outdoor events for families and singles. This will attract people to move from other cities such as Perth if they see life, options and activities. As well as fostering the community relationships already in Karratha.
- I think addressing the increasing cost of living in Karratha is essential. Big business are making millions/billions of dollars and people who call Karratha home find it just becomes more and more expensive to live there during boom, this time we are also experiencing ridiculously high cost of living everyone in Australia.
- More infrastructure. Build another indoor sports stadium or kick netball and basketball out.
- Repairing and upgrading the Leisureplex.
- Removing excessively verbose pompous councillors who are obviously has specific personal agendas.
- Tourism.as Karratha is a gateway to the Kimberleys and the south West.
- While it's nice karratha having nice new walking paths on both sides of the roads, beautiful parks, good sporting facilities etc it would be nice to have a little bit of that in Wickham (We also pay rates).
- Crime.
- Better control of dogs in the suburbs. Many familys either dont go for walks or deliberately have to avoid places.
- Putting pressure on some elements of our community and their visitors to toe the line and adopt acceptable living and social standards with regard the pigsties they live in and subject the rest of us to the disgraceful views every time we walk, drive or cycle past.

- Support for small businesses within the Karratha area and surroundings, I have been trying to access support to locate a building for a very important small business with in Karratha, cost to access a facility is too expensive which means charging families more for a needed service in Karratha that is not being provided.
- More work needed on dealing with dog owners very poor ranger communication.
- E V scooters.
- Keeping rates down.
- Youth and crime. We need to work on getting them together and wanting to do better by doing some jobs and helping out their community not stealing from them.
- Using rate payers money towards more activities for Karratha's youth such as free water parks similar to what the city provide in Darwin.
- Reducing rates and cost of living it is getting ridiculous and not everyone works for Rio or Woodside.
- Weed spraying , especially along the footpaths and verges. Toilets in public and shopping centre.
- Fix the shade at the Leisureplex.
- Cat control. Dog faeces on Hersons Cove Beach.
- Help with bringing the cost of living down. Food is ridiculously expensive! If you dont fly in regional fares, its costs more to fly return to Perth than over seas! Add more variety to the consumer. Do something about the amount of rubbish on the roads.
- Sporting complex and implementation of better systems and processes.
- Housing and childcare.
- Indigenous crime, some sort of program to help them to learn respect for their neighbors.
- Some where for our youth to hang out ,bowling alley or a hang out place to eat and meet up, no where for our youth to go and nothing for them to do, more activities for our children. Another High school.
- Sustainability and business development with a high traffic of people coming to town for various projects we need to ensure we are not setting town up to fail once everyone leaves. The airport also needs some attention, constant delays and baggage handling being so slow, surely we can do better.
- Regional connectivity to improve liveability.
- If you want to support the whole community, think about key pillars: - HOUSING: Reduce the cost of housing - develop a strategy with industry partners to provide overall support to the community, creating an affordable housing market; -SMALL BUSINESS: Small businesses are a critical component of a flourishing community. But small businesses are struggling against the cost of housing, with businesses who work in the resource sector, or FIFO businesses. Stop increasing the number of workers across the cofk teams. Instead. Create a strategy to support local businesses. Instead of the 'take your business online grant', look at ways to use these funds to empower and engage more small businesses. The cofk has the ability to support the small business through giving them work. What's the point of a website if

there's no work, or we can't afford workers, or there is no housing? -GIVE BACK: The cofk is in a strong financial position - use this to support the small business community, Don't create a budget that workers in the resource sector will benefit from. Create a budget which supports everyone NOT working in the resource sector. Instead of increasing taxes and taking opportunities away from local contractors. Develop a budget that supports and builds the capacity of local contractors, and therefore the whole community.

- Pride in the local streets , cleaning of verges, weed removal.
- More daycare... And affordable places to rent for small businesses, the plaza is too \$\$ More notice about markets so the small businesses can plan 12m in advance their attendance.
- Wickahm Point samson.
- Housing.
- Affordability to live in Karratha.
- Lesureplex.
- Better advertising for community engagement activities.
- Social issues - homelessness, domestic violence and substance abuse.
- Local staff retention for small to Medium business. Affordable housing.
- Stop building houses in natural bush zones between blocks in bulgarra they make it a better, quieter and safer place to live without all the in fill going on.
- Access to Health facilities More pressure and media attention on state government responsibilities to fix issues local council aren't able to. Flight costing should be capped at a reasonable price. Alot of our states revenue is paid from karratha tax dollars- our resources here should be as important as perth regions. Grief and trauma specific support services should be available. With High suicide rates our community would benefit in local support groups specific to this type of loss of a loved one. Men's support groups for mental health. Incentives for building homes here for families whom want to live here long term- not just investors. More training courses at the tafe, hair dressing courses that could be trained at the school with a salon providing discounted rates to the community whilst students are learning. Housing prices way to high for average wage. Support for local business.
- Making Wickham a more libvable town.
- Stop trying to be the developer and try and encourage external partys to invest in the community. Think beyond mining royalties where your money will come from.
- Security checkpoint at airport is so slow, seats at Red earth are horrific. Leisure plex is not big enough outside courts always grubby not enough bins?
- Supporting businesses and organisations already in place performing important functions in the community.
- Raining in unnecessary expenses and focus on crime and community events that involve youths to get them more engaged with community to help prevent crime.
- Measures to attract people to the town to live and work, as well as to stay. Maintenance of the capped price resident

airfares. Investment in events to support people to want to stay here (e.g., festivals).

- International flights out of Karratha to make travel easier and affordable.
- Rates.
- Rubbish in the street.
- Improving facilities.
- Nickol shopping area.
- Improving the shopping centre in town - entice a wider variety of shops. Make use of the vacant space outside Los cafe. Extend the nice park area or build a local art/histories museum or a water playground or put more cafes there.
- Public engagement Maintenance of infrastructure Promotion of new businesses.
- Bringing Buisnesses into Karratha.. More stores, cafes, places for people to come together within the community.
- Investing in bringing the cost of living down! How can any ordinary person not working for woodside or Rio survive in this town! Councillors voting for the city to not build houses because it would bring their rent they could charge down!
- Ensuring affordable housing for the local community!! That doesn't discriminate against having pets, being a single income household or single parent.
- Places for families or small groups to get out of the heat day or night eg bowling alley.
- Putting plans in place to ensure resource companies keep and add permanent

residential employment plus contribute to housing stock available to the public.

- The exit from IGA onto dreamers hill is a danger, can't see what's coming off the round about.
- Youth/Teenage activities and facilities. More families are staying for longer and the teenagers have little to do. A multipurpose facility offering bowling, rock wall climbing, laser tag for this age group, roller skating, trampoline etc. More movies during the school holidays also, as they are very limited especially during the long Dec/Jan holidays when its too hot to be outside.
- Financial management minimising rate increases.
- Shade sail at the leisureplex. Community events.
- Shade sail at the pool.
- Taking a look at statistics, it's evident that Karratha is facing some significant crime challenges. To make real progress in the next 12 months, prioritising public safety is crucial. Firstly, addressing crimes against individuals is paramount. Assaults, sexual offenses, and robberies are alarmingly high. Increasing police presence, enhancing community safety programs, and promoting safety awareness among residents are essential steps to take. Similarly, property crimes like burglaries and thefts need immediate attention. Implementing stronger security measures, fostering neighborhood watch programs, and leveraging technology to deter criminals are vital strategies to consider. However, it's also essential to address the root causes of crime, such as economic hardship and social issues. Providing job opportunities, supporting social services, and promoting community cohesion can

help address these underlying factors. In essence, to ensure Karratha's residents feel safe and secure, it's imperative to tackle both the immediate challenges of crime and the broader issues contributing to it.

- More Doctors.
- More things for children to do.
- Back beach boatramp needs to be a deep a water port and there needs to be bigger parking bays and under cover parking at major business areas.
- Building approvals and checking compliance.
- Sustainable growth.
- I would love to see more sustainability focus and initiatives to involve and educate the community.
- More flight options.
- Activities for the kids, additional slides for the leisureplex. Mosquito control.
- Cost of living in Karratha, anti social behavior, youth programs, Grow and maintenance sporting n public facilities.
- Ensuring that all amenities are maintained to a high standard, and keeping our city looking presentable so that it is a nice place to live.
- Engagement with residents to understand local issues, particularly around youth crime.
- Crime in youth & getting them off the streets to somewhere safe and welcoming
- Path maintenance.
- Stop wasting money on round about gardens and put the money into useful projects.
- Fenced dog parks where dogs can be off lead and not have to worry about sports or sports training.
- Providing more family friendly indoor activities.
- Youth and community engagement and improving appropriate services for them. Getting Aboriginal and Torres Strait Islander young people on the cok YAG to understand what they need and want in the community, as they are the people using a lot of the youth community spaces and services (e.g., the Youth Shed, the Base, skate parks etc).
- Affordable housing.
- Promoting and supporting local business. Reduce running costs and developing a sustainable future that doesn't rely predominantly on gas and mining.
- Crime Crime Crime.
- More shaded family friendly areas, parks, beach front areas near back beach or sea ripple.
- More street cameras around to prevent crime, assaults. Make the town safer.
- Making it more affordable for small business to operate and families to live in Karratha.
- Not opening up the jumpup for tourists. Cant we keep one thing for locals.
- International flights to Singapore. Money spent in Dampier.

- Crime, community safety, library contents expansion, airport cafe and shop opening hours.
- Stop this Town being taken over by non working people who just do drugs and alcohol and throw their rubbish everywhere.
- The same thing it should of been doing for 20 years, arcade centre bowling laser tags etc something for people to do thats different. The indoor golf centre is a great idea and something much needed more things like this.
- Residents making illegal shortcut tracks between gazetted roads within the township of Wickham including the area around the Precinct.
- Sustainable housing.
- Supporting small business.
- Focus on Mental health in the community, the stigma around mental health and reaching out for help needs improving. Everyone is against the facility being built but I think more information about what the facility is needed. When people think mental health they think crazy people who need locking up or people on drugs. Mental Health is far more we need to raise awareness about suicide prevention in our community and facilities to help people. Waiting 2 weeks for a doctors appointment is too late for some people.
- Shade sale for the Karratha pool.
- Gymnastics centre.
- Parks, planting trees and gardens on streets and verges. Updating leisureplex with needed gym equipment. Removing domestic cats from streets. Gain international flights. Lower land prices. Support food trucks and events for more tourism. Learn from other towns such as Broome and Darwin / Northern Qld. Out tourism is a disgrace. The tourist centre is terrible, old and run down.
- A indoor climbing wall.
- Support for residents struggling with cost of living pressures and to help sporting groups and community groups expand.
- Keep having events.
- KARRATHA need's to focus more on a Hub were all the resources are in one building this Idea can help the rate mental health and suicide alcohol and drug abuse there is nothing in Karratha & Roebourne for young and old people of the community. KARRATHA as a City doesn't not get out and involve police, mental health services, No help to support Suicide in the community and reach out and access.
- Making the place look less like a dump making the streets look nicer. Stopping the rubbish being dumped in the bush and cleaning up what the residents of cheditha have been dumping in the bush. More places to take kids indoors during the hot months.
- Making this a more tourist friendly town and helping it grow from that.
- Planting more trees for shade.
- General cleanliness of the district.
- Listening to the needs of the community, especially the rate payers of the city.
- Better mental health facilities that are for all ages young to old!

- Wickham basketball facility upgrade. The sooner the better please.
- Services and activities for tweens and teens.
- Family friendly suitable (some indoor) activities and facilities.
- Community activities and sustainability
- Crime. Cleanliness of public toilets.
- Crime prevention.
- More activities of children during school holidays.
- Crime. Maybe look at installing more street lights so people feel safer.
- Cost of flights is ridiculous still.
- To keep making it a safe place to live.
- The trees and footpaths look fantastic on the main roads, but we need more in the suburbs.
- Affordable housing.
- More community events in towns other than Karratha & Dampier. A small doctor clinic in Wickham (perhaps you could work with Rio on this?)
- More places to eat.
- It would be good to have more various genres of live music acts during the cooler months. Think the beach side markets meets the eats markets but with a band or two playing.
- A roundabout at Rosemary Road and Dampier Highway Other flights beside Perth Shade sails over pool.
- Rubbish on the streets , road conditions, youth crime , street cleanliness , jump up access.
- International flights from the airport. Fix the liesureplex. Spend the millions the city has in the bank for the benefit of the ratepayers.
- Communication.
- Road safety. Trying to help tackle the motorbike issue. Its becoming dangerous and making footpaths unsafe to walk (Millars Well area).
- Playing their part to lower the cost of flights. Increasing tourism aids in diversified streams of income to the town and will help stop/minimise the "boom/fifo" cycle that repeats time and time again. Whilst cash flow is high, add a shire run caravan park near the golf course! Make it large and appealing! Look at the money shire of Ashburton gain from Onslow!
- Liveable spaces (indoor community facilities), shade and water play park (outdoor). Hospital improvements, increase capacity to reduce wait times, GP support so we can see one when needed.
- Clean up streets and footpaths.
- Why does every town up and down the coast have a marina Build a new yacht club and marina in Dampier take over the running off it as well.
- Fixing The Leisureplex Shade.
- The airport.
- Housing availability and long term sustainability.

- Airport Terminal upgrade! Please open the second security check-in line/scanner during g busy periods. Try to attract better retail shops?
- More cultural events and upgrades to beach facility.
- Crime management and keeping costs at venues down.
- Mosquito spraying.
- International and interstate travel in and out of Karratha Airport.
- Fiscal responsibility. Upgrades of critical infrastructure such as airport Future proofing of the region via looking beyond the heavy industry - think tourism Sustainability initiatives.
- Affordable housing Entertainment.
- Repairs to the Karratha Leisureplex.
- More things to do for families and older children.
- More events in the winter months that are family friendly.
- Improvement of Wickham rec precinct facilities.
- Getting rid of glyphosate spraying in public areas.
- Flights, both pricing and access to other cities and regional towns. The region has some much to offer but only has access to Perth. Make it appealing to airlines to fly Broome, Busselton and interstate.
- Airport (Domestic flights east & international) Dreamers Hill Recycling Community events.
- Make flights cheaper for residents.
- Keeping youth off the street making sure all kids have access to food and safe shelter. Making sure all our streets have footpaths on both side of the street. That the streets are sufficiently lit of a nighttime.
- Tourist attractions caravan parks Sams Island.
- Community Events.
- Affordable rental accomodation, free water park for the kids, more community events, cheaper flights to Perth, encouragement for more retailers to come here, more doctors, more dentists. Revive late night shopping on thursdays.
- Youth - Cost of living.
- Leisureplex shade cover to be pushed forward for repair. Increasing and improving the functionality of the airport.
- Residential rates need to be affordable.
- Local business support.
- Sustainability - community education. Public safety and community engagement. We need more fun, family events/ places that dont promote families drinking.
- Crime prevention and not wasting tax payers money on more round about art. Listening to the public more rather than making sole decisions not benefiting the town.
- Small business support and growth.
- A footpath between honeymoon carpark and Johns creek harbour in Point Samson to keep droves of tourists and Holliday makers off the road.

- Do something related to housing rent prices.. Good people leaving town because of this and not because of things above.
- More family friendly events with actual things for kids and families, Australia Day was a joke.
- Faster easier building residential permits...dampier foreshore.
- Community engagement, programs for the youth, more opportunity for this to be facilitated indoors. Fix shade sail at leisureplex, logically a high increase in skin cancer risk with it being out.
- Path along both sides of damper hwy with safer pedestrian crossing points at peak areas iga high school.
- More clubs events for teens to help lower crime. More services for parents who are struggling with their teens.
- Sustainability.
- Crime control and health providers are the most priority in this city.
- Streetscapes - more trees planted. More footpaths. More activities engage/entertain youth & teens. Music festival & more arts & crafts.
- People safety.
- More shade at certain parks and toilets.
- Ive lived here most of my life and have watched Karratha grow, Im all for supporting local but why is that our only choice? Why cant we have what other cities have? Better chains, or even a bus service that runs at night.
- Shade sails over the pools.
- Bring a sense of community and getting the communities input in up and coming changes to the community.
- Housing scarcity and rental inflation.
- Flight to Syd or bne More activities for kids in holidays.
- More shade.
- International flights Community buildings & facilities Roads.
- Youth crime, animal control, parks need serious attention as does all the dead and dying plants around the health campus and town. Just makes the place look unkept and uncared for.
- More community events, concerts etc
- Fix shade sails over the pools at Karratha Leisureplex.
- More community activities and engagement. If we want to be most liveable regional city then we need something for people to do. Bowling alley, better community spaces.
- Petty crime and antisocial behaviours.
- Housing, childcare and sustainability.
- Making Karratha airport and flights more accessible for everyone. Business rent more affordable and more fairness in rent access for people.
- Get rid of FIFO.
- Maintain a balanced budget. Encourage tourists - no over charging of related facilities. Reduce crime.

- Slow down, stop developing or building new stuff and focus on the maintenance and upkeep of what we do have.
- Better advertising for arts events to improve attendance. Currently hard to find out about events. Better engagement would improve quality and frequency of such arts events. Really poor arts options currently.
- What about a public transport to assist for public commuters here in Karratha esp those who are unable to have car or to drive yet? Hope they may also include it as it will be a great help, I am seeing people walking from their home to work, some are using their bikes as their means to get to work under the heat of the sun.
- Community enhancement & positive youth engagement.
- Provide the gymnastics association their own venue, to expand their training and capabilities to help support the children of Karratha.
- Airfare costs for both people in the Karratha to travel and for people to travel to the area.
- Business and affordable retail opportunities.
- Community engagement "team" building.
- Karratha to Bali flights.
- To maintain what's already being done well but to look at more sustainable and cost effect measures to increase the longevity of Karratha into the future. For example what does the long term tourism plan look like for Karratha? How do we ensure travellers are stopping in Karratha, spending money here and taking in what we have to offer for years to come? Can we do this better? Can we offer something unique for travellers at a low cost that is hard to resist?
- Plant more trees along footpaths and parks. They are really great!
- Come and improve Dampier regularly, not as needed.
- Extended or new location for community groups focusing on arts, performance space and a designated space for gymnastics where people can come together and create and be part of their community.
- Im a small business owner and would like more support for insurance, power, rent, personnel retention initiatives.
- Community based activities that are different. Not same old same old. Bringing the community closer together.
- Attracting more doctors to the City as well as accessible housing for lower wage industries including childcare services.
- Housing.
- A free splash pad and a better indoor play centre.
- Better supports activities and things to do for young people!
- International flts interstate ft.
- Leave Bulgarra as it is.
- Stuff for kids to do.
- Child care.

- Engaging with local sports and sport facilities to help keep youth engaged and off the streets.
- Pool shade sails! Replacement or a temporary solution.
- Lower rates.
- Tourism accommodation and affordability of travel into and out of Karratha.
- Shade for play grounds and Open water playground with shade (a free one that isnt in the leisureplex that has a GATE) we are one of the hottest towns there is- its definitely needed Upgraded indoor shopping center that Karratha shopping center is very outdated- could build a new one where old hospital was Clean up of glass on walkways and roads Shade for shopping center car park A botanical gardens (can have nicer Indoor plants under large shaded Trees to make it a nicer area. Keep the greenery up Shade is key to making this a nicer place to live!!
- Growth of the town.
- Affordable housing options for support services and enticing employees to the region to provide essential services (I am referring to healthcare and education).
- Karratha international flights.
- Leave Bulgarra as it is.
- Regain the title of city of the north, Port Hedland is far surpassing Karratha in many aspects of community offerings. Karratha is being left behind, look at more concerts, live events, promote the region and attract more visitors.
- Community activities & events, outdoor spaces & amenities.
- Keeping facilities in good condition and accessible for youth and well being.
- Making Karratha a place where people want to stay and age in place. Looking at a way to engage community to participate and belong here will keep them calling Karratha home.
- Wickham!
- Business support and development.
- Airport and flights to other destinations other than Perth.
- Public toilets.
- Spending our rates wisely.
- Community activities.
- Indoor play centre.
- Bringing big businesses to town. Eg- Aldi, Bunnings, a furniture shop. Renovating the shopping centre, encouraging businesses for growth. Karratha is becoming bigger and the demand for supply is high. So many resources are having to be brought online due to not being available in Karratha. Lower rent of available sites for shops to encourage business's to open. Wickham needs more space at the precinct. More storage available for things such a reformer Pilates. There is a high demand in Wickham and it is being neglected.
- Building more houses and accommodation for low/middle income earners.
- The community.
- Lowering rates, get drugs out of the town.
- Air flights!

- Shade sails at leisureplex. (A water slide would go off like a frog in a sock) Sharps disposal bins at wireless hill More indoor play options.
- Rubbish.
- Community events and roadside rubbish.
- Cost of living, paying 170 dollars every water bill for service fee is ridiculous so sort out water Corp with that.
- Stop wasting money in useless stuff and make people feel safe with arresting delinquents.
- Only been here for 5 months so i am eager to see what KCC can do for the community, events ect. Up to now i am pretty impressed.
- Doing best they can do.
- Mental Health projects.
- More for kids aged 13-17, better skate park and basketball facilities, Karratha has the oldest skate park and infrastructure than all Pilbara towns, plenty of play grounds for small kids but nothing for teenagers, more parking around CBD , more domestic flights and at reasonable prices.
- Community events.
- Business Development.
- More for teenagers to do from variety of backgrounds, housing initiatives as when not working for Rio or Woodside it is too expensive to save and reinvest in town as rent is too high.
- Supporting community initiatives and support groups with either free venues or subsidised costs. Dumping of rubbish out bush.
- Airport. More flights across the country and getting international flights.
- Community engagement events.
- Cheaper housing, more rentals - so many people are homeless or forced out of the town.
- Cleaning up rubbish around the town Recycling in Warambie.
- Crime.
- Roads need more attention.
- Affordable housing initiatives & cost of living assistance. Not everyone is on Rio Tinto or Woodside money.
- Road. Lots of roads arent even or bump and cracked.
- Street cameras.
- More community involved activities and helping new businesses as they appear in town.
- Illegal dumping of rubbish, unsavoury behaviours.
- Shade at pools.
- Blocking known moter bike access routes in the suburbs. Numerous abandoned cars in the cbd area need to be removed. Back beach ramp needs dredging asap. Investigate how 400 000 was wasted on a restaurant in the quarter.
- More gyms.
- Supporting small business.

- Have a deal with Qantas to reduce the flight tickets to Perth. We cant afford \$600,00.
- Cost of housing with people spruiking boom talk, access to gps.
- Rental property.
- Rent is ridiculously high and should be looked at how it can be lowered. You cannot live in karratha without you or your partner working in or around the mining industry.
- Fixing up 6718, no short cuts, fixing up the water, it's that bloody hot, Royalties for Region dollars come from 6718's native title fights,why isn't it being spent in Roebourne.
- Burglaries and Drugs.
- Preparing the City for the next boom to take advantage of the positives and mitigate the negatives to ensure everyone benefits in the massive investment taking place here.
- Affordable living, family friendly activities, more films showing at more times and weekends.
- Dampier foreshore expansion.
- Housing assistance for services Assistance for small businesses.
- Karratha Airport.
- Improve street and footpath cleanup.
- Youth Spaces.
- Helping in some way to keep the rents at a reasonable level. Those that dont have housing included in their wages package are really struggling and leaving town.
- Focusing more community infrastructure improvements and facilities for the Roebourne and Wickham communities.
- We really need a Bunnings so we as locals will have the choices and ability to improve our homes which inturn will create a positive vibe among the community. Why Bunnings? Because of the huge options!
- Safety and unruly behaviour.
- Expansion of indoor sporting facilities for public and schools.
- Fixing the Leisureplex.
- Cultural based community events or free family events.
- To help improve health systems. To help reduce crime rate. More affordable housing for small business employees is essential to retain staff and young people in this town who are sick of living with mum and dad but cant afford to move out of home.
- Housing and flights affordability.
- Increase in Rental Property and subsidised accommodation for community workers.
- More community activities - such a markets & festivals.
- Community resources.
- Fixing shade at the Leisureplex and putting on more community events.
- Pressure the government to do something about crazy home insurance costs in the area. Cheaper Flights (\$600 return to

Perth with 'local' discount is still not affordable).

- Maintain the high standard of the community spaces.
- Housing.
- If you take away the tip being free you will be making a huge mistake. Also need a footpath to gap Ridge and the lia for cyclist/scooters not new plants in the round about.
- Mental health support.
- Leisureplex shade.
- Designated dog parks, a recycling facility & supporting local community small business.
- Finding and using alternative weed management to stop spraying chemicals along the path where children walk to the high schools.
- Install sophisticated cofk owned air pollution monitoring stations.
- Youth crime. Dampier foreshore / mariner - floating jettys and the ability to launch a boat at all tides.
- Cleaner toilets, safety of shelter at the pools and stay dogs that are dangerous.
- Karratha needs to have another reason to exist other than mining, we have some of the best coastline in Australia that tourists and locals would love, boating opportunities are world class but are such poor quality they drive away visitors! Beaches such as Settlers Beach, Point Samson beaches, Dampier beaches are excellent, Imagine a Cruise ship anchored at Dampier, the Mermaid overflowing with passengers. Island tours, fishing and diving tours, the employment and investment results would be phenomenal.
- Making sure the focus is on the needs of the whole community should always be a priority.
- Being transparent with expenditure. Reducing rates, stop being greedy, people are doing it tough.
- Youth Crime!
- Security.
- Fish filleting facilities.
- Shade - Not just standard picnic tables or the odd shade sale here and there. We need interesting, versatile spaces that can be used all year.
- First Nations support.
- Shade over the pool please. Preferably over the 50m.
- Fix the Shade for the leisureplex pool, outside basketball courts need to be enclosed & gymnastics needs its own space to free up courts.
- To have more indoor activities for kids specially when its summer.
- ASAP shade at the KLP or provide another pool or community activity for kids to keep out of the heat!
- Maintain public toilets, especially for children and parents. More shade in town centre near Los and better use of vacant land. Better publicity about community events.

- More events to bring the community together.
- Better cycle paths.
- Housing availability for people outside the mining industry Get shade over the pool asap.
- I would be happy if there were more events.
- More events, cultural in particular. More free events!! More family events. More businesses particularly eating out!
- The events in town.
- Building more homes in Karratha to reduce rent prices so that more people move here and reduce the cost of living.
- More events and activities for children, especially in the heat. Indoor options. Leisureplex pool is always hot. Shade sail not up or water play area never running. More shade needed and or grassed areas to attend leisure centre pool area.
- Housing.
- The town needs an indoor entertainment place, ten pin bowling, mini golf, trampolines for kids, teens & young adults, even adults.
- Fair flight prices / international terminal.
- Expanding/improving the Leisureplex, the town has outgrown this facility.
- Empty promises and high rates with low return for LOCAL. Residence and their families . Seems to show high support for renting and FIFO but the long term residence miss out . Leisureplex expansion hasnt happened . Outgrown indoor play centre and forgotten about the kids 8-14 years in which the youth shed is not a safe space . The hydralite addition would have been welcome. And additional shade at Bayton west playground to help protect children.
- Help with homes west housings cleaning there frontage / bins More trees to be planted at sea ripple park all around it for shade.
- More entertainment, youth programs, city events.
- Flights to other cities/countries to avoid commuting through Perth.
- More money put towards everything that benefits the public.
- More family friendly things and maybe offering household bin replacements for broken or damaged bins for free as the bin drivers often just drop them etc.
- Supporting small business to develop their on line presence. Work on more inclusive events for all abilities.
- Keeping Karratha an affordable place to live.
- Flights to East Coast and/or Bali.
- Supporting the community services sector. Subsidized rents or more grants to support services to the community. Upgrade gym at Leisureplex. Upgrades to Life and Soul will see a reduction in members.
- Good performance.
- Bring back Dreamers hill with all food vans together, and free car boat advertising. Was great going to the hill to choose

which food you felt like. Meet up with friends. You have ruined a good thing.

- Creating more activities for young people to do. E.g indoor mini golf.
- Dumping rubbish in the bush.
- Interstate airport options indoor play centre upgrade wickham recreation (indoor cricket nets and tennis courts, cheaper to use even at night!)
- Verges and gullies weeds control. You would fine a rate payer if they let their yards get half as bad as the gullies and drains in town they are a fire hazard and horrible to look at.
- Access to Harding dam and associated water ways for locals.
- Rubbish pick ups and education on waste and rubbish.
- Increasing the capacity of the LP (and fixing the shade sails). Building accomodation or supporting those organisation/ families that are looking to build. Getting international flights to Singapore.
- More relevant music/theater acts.
- Just cleaning up verges for those who take pride in the community.
- More footpaths, greater access to child care.
- Encouraging new small business.
- Leisureplex facilities.
- Fixing the youth crime issue.
- Crime.
- Doing your job well.
- Fix the destinations at the Airport. Karratha is a great place, we need to travel to see family on the east coast. Karratha to Brisbane flights should be an immediate priority and not because of Bechtel and Perdaman requiring flights. Fix your mess!
- Hire local people not staff from Perth and pay for travel. Lower gym memberships as the leisureplex.
- Interstate flights, we desperately need connectivity out of this City to increase, both for private travel and for freight. Nexus is still so expensive and travel to Perth to need to go anyway outside of Karratha shouldn't be an issue we are still facing. & Action, be doing things and share the news that you are doing things. Be proactive in messaging and explaining the 'why' behind things, be transparent with the community.
- The cost of flights to and from Karratha are absurd. The cok needs to be less greedy in what they charge airlines. The youth crime and anti social behaviour needs to be put to a stop to.
- Hotel and accommodation options.
- Activities for community Illegal litter dumping.
- Consistent bin collection, Shade at the leisureplex.
- Maintaining and upgrading the leisureplex. Maintain good townplanning.
- Maintain facilities, and a diverse range of activities that target different people.
- Rock throwers in highway but more a Police thing.

- Continue as they are. Doing a great job!!
- Meet the housing demand in the town.
- Continued events and advertising to keep the community active and working together to improve and have fun.
- Lowering the cost of living or providing better financial assistance.
- Young youth activities 10-16, more shade over major playgrounds, vegetation control along foot paths and verges.
- Health promotion initiatives.
- Upgrade karratha airport to international status.
- Community safety.
- Health care, gp and psychologists. More routes for the airport Bali interstate
- Get more activities for young adults (not only young families)
- Protecting the environment and saving what we've got. Don't let the big businesses destroy the Pilbara.
- Bring international flights to Karratha airport!
- Listen to smaller communities needs outside of Karratha and Dampier.
- Bus stops for school students.
- Listening to community concerns and local business roadblocks. If we don't have our local businesses we don't have community.
- An international flight to and from Karratha Airport.
- Investing into the community rather than reaping profits like a business.
- Shade at leisureplex, more movie times, maintaining rubbish clean up.
- Around residential areas shire to keep area around the streets clean and making sure the grass is cut back regularly and toilets haven't been kept clean enough. Illegal dumping of rubbish around the town is shocking considering the tip is free. People are still not keeping their pups locked up in the back yard securely as when walking my dog ive seen stray dogs wondering around without collars, maybe the owners should be fined or black listed from ever owning a dog or cat as pets should not be treated this way. Also more activities for our youth they seem to get bored and maybe punishment for the parents who have their 5-10 year olds wondering the streets late at night very sad to see.
- Stray dogs that are roaming streets, same ones most of the time. Makes it difficult to work your dog on a lead when these big dogs come running. Certain houses that can bring down the whole street due to inappropriate behaviour and not taking ownership of mess that has been left
- I would say the most important would be to focus on bringing flights direct from Brisbane and Bali would be fantastic!
- Affordable housing and cheaper blocks to build on.
- Even though the council has role in promoting public health, it should do it with respect for individual rights & inclusiveness when navigating complex public health and voices of 23000 population should take into account.
- More facilities for more families, free splash pads in parks, more shade in parks

and stop using glyphosate, this is killing our environment and making our people sick. There are plenty of other options that I'm sure our community would get behind. It is banned in other countries when will we do the same.

- Shade repairs at the pool and plant even more trees.
 - More things to do for teens.
 - Environmental spaces. A free water park would be most welcome. Transitioning out of glyphosate and into chemical free options for weed management. Providing transparency for financial decisions the city is making. Developing more shaded areas at playgrounds.
 - POOL SHADE.
 - Beach facilities, playgrounds
 - Cctv cameras to help stop the crime rate.
 - Focus on the health care system, specifically mental health. We need to do better. There is not enough support for us in Karratha and no one seems to care. People are dying because of this and its wrong.
 - Community engagement.
 - Continue to manage finance so that good planning and execution can happen.
 - More places for children. - ten pin bowling - fip out (ninja style centre) - free water play for the community.
 - Remain within your scope of your abilities and focus on emptying our kerbside rubbish. Private health matters regarding vaccination are not within your expertise or even rights to make recommendations. You
- are a council, serve your rate payers and keep your nose out of people's personal medical choices. The Australian Government failed its people in the Covid processes, the COK certainly have no business within this remit. Stay out!
 - Karratha needs to focus on finishing all construction we have going on and then keep it quiet for for a while before starting anything new.
 - Airport amenities (Cafe/Bar staffing), Qantas Club Lounge facilities and flight range and affordability. Interstate / international gateway would be fantastic! Public swimming pool and gym in Dampier (perhaps affiliated with Dampier Primary School).
 - Installing lights in parks and dark areas.
 - Community security, many people do not feel safe to walk through some areas of town especially at night and in the early morning. Anti-social behaviours, such as fighting and abuse are common place in some areas.
 - Taking pride in some buildings, in particular the Quarter building which is looking very un-tidy. This includes the carpark and the bottom ground cafe area.
 - Better information/advertising on all events happening.
 - Shade at Karratha and Wickham pools asap. Shade at Wickham basketball courts asap. Wickham Wildcats have the largest basketball cohort they have ever had this season. Not to mention the netball, other basketball and miscellaneous sports and events that take place on a Wickham basketball courts. They need shade asap.
 - As My comment above regarding better facilities in Wickham. Also as a wrp

member that we pay a membership for, finally when the pool is open longer hours to the public, great - but nearly every day majority of the pool is reserved for swim club. Can they not alternate use roebourne factory or karratha??? One lap lane and a small leisure area is ridiculous nearly every night of the week. It's not really open for the public longer hours - it's open to facilitate swim club!

- We need more things for teenagers.
- Opening 2 lanes again at Karratha Airport security checks.
- Community events, business support.
- Community events, helping local businesses.
- Youth and community engagement.
- Childcare Services and facilities to support local families.
- Community Events.
- Continuous effort in having karratha kept beautiful.
- Better community space for groups, helping small businesses to thrive, housing options for all.
- Eradicating the weed trees on verges and in gullies to stop them spreading everywhere! Not wasting money on replacing perfectly good plants in roundabouts. Reducing rates by being more mindful of how money is spent.
- Wickham sports precinct.
- Rates money used local road upgrades & the amount of community grants- number grants could be extended- slightly.
- Getting the community together more.
- Street cameras / shaded parking for the shopping centre ? Water park on shore fronts for families to enjoy.
- Liveability.
- Getting more available doctors so we don't have to wait a month to get in.
- Events.
- Boat ramp redevelopment at back beach Karratha. Dredging/ clean up. Install fish cleaning stations at all boat ramps. Offal waste like other towns have.
- Mosquito spraying.
- Cost of living.
- Create more affordable housing. Bring in another vet clinic, more health professionals so we do not have to wait months and months.
- Giving back to ALL! Local sporting. And giving our police some sort of support to continue apprehending the ever increasing amount of offenders.
- Drunk locals causing constant trouble and stealing from hard working people.
- Mental health care.
- Continued safety for all residents with keeping crime down. Incorporating community activities for the whole family.
- Mental health. Harsher punishment for reoffenders. Patrol cars to avoid crimes.
- It would be nice to see increased community ventures in the outlying towns - not always within the city. What about

Christmas lights not only in the main centre of town, but at the dampier foreshore, point Samson, Wickham and roebourne.

- Mental health.
- Crime prevention - cameras Developing large retail space - Bunnings / BCF etc Investing in international flights.
- Youth/tourist activities. Something outdoor they can do. Cultural learnings in regional outback. How to find water, food, best kind of shelter, how to keep cool in warmer weather. These are more like survival skills aswell. This kind of valuable knowledge should be embraced by community & visitors.
- More youth services/ facilities.
- More affordable housing and green spaces.
- Housing support for lower income people and not homes west relocate some people back to roebourne.
- Street and verge cleaning due to amount of sharps/needles littered around. Urgent Fixing of shade sail to leisureplex as we chose not to use pool all summer with it not being present. Possibly installing giant fans to outdoor courts for summer games as unbearably hot sometimes.
- Identifying land along the foreshore near the golf club that could be designated for an entertainment precinct, like a beach club with food, drinks and an infinity pool perhaps, to take advantage of the ocean views and breeze. Would be an iconic place in town.
- Shade sails for the leisureplex and continual improvement. The new

footpath from Baynton to the leisureplex and high school is brilliant.

- More businesses to keep the town alive and fresh.
- Housing affordability to service workers, single income families and small business owners. Also filling the shopping centre empty shops making renting in the shopping centre affordable. Not allowing real estates to increase rent as often. Looking at indoor play options for kids 8-14.
- - The bike paths and footpaths - the area surrounding these paths there is so much dumped rubbish - more events - things for people to do here we live on the beach and there is no boat cruises, fishing charters, whale watching etc etc this would boost tourism significantly - splash park or water park? - indoor pool, the UV rays are deadly here and outdoor swimming is not safe especially for those with pale skin.
- Health care services.
- I would like to see a Covered tidal pool somewhere.or a Jetty to jup of and fish off.also the dirt rd behind the sports field by the storage sheds at the leisureplex needs to be sealed.the amount of dust you end up sucking in after watching kids soccer is crazy..other then that keep up the good work.
- Shade at leisureplex pool
- In Wickham. Illegal dumping of rubbish.
- Access to the quarter carpark. Elevator is locked to the public. Only access for prams & wheelchairs is on the car ramp which is extremely dangerous, steep and blind corners. Please allow access to the elevator before someone is hurt.

- Youth crime and more events/activities for teenagers.
- Waste facilities for organic and general waste. Controlling of illegal dumping of litter in outskirts of town.
- Staff accommodation and housing.
- Housing, for low paid workers.
- Yep, do better.
- More facilities for our teenagers, Lobbying for another High School, extending Leisureplex, enclosing outdoor courts from the sun.
- Better Health Care services.
- I think they need to get a water park or splash park for Leisureplex and Dampier foreshore. The amount of people due to the heat would use these amenities is insane. You could park an ice cream truck down there every afternoon as well as a coffee van for parents and care givers. Money for locals supports locals.
- More adult activities in town.
- Improving the roads near IGA.
- International and more regional flights.
- Supporting mental health and finding a way to provide the community with better medical and mental health support. How many people can our community lose before something is done. We are so isolated here and the lack of medical and mental health support does nothing to support anyone.
- More focus of teen activities. Nothing for teens just little kids. Mental health support.
- I think they're doing a great job across the board! If anything, increasing things to do for families. It would be amazing if Karratha could attract more families and take out was best free lagoon and water park. QLD and NSW do them really well. See website as an example: <https://www.queensland.com/au/en/things-to-do/adventure/sports-and-recreation/free-swimming-pools-queensland>. Leisureplex has a good little water park for young kids but I'm thinking a water park that included waterslides, the big bucket etc to appeal to older kids and adults young at heart! Something like this would be a huge draw card.
- Shade over the basketball / netball / tennis courts. The costs for lights for kids to be available to use these facilities when it is not over 40 degrees.
- Rates, Crime.
- Community Groups. Keep the people happy and to enjoy their community group with events. Help with Fundraising and hall esp Karratha Scouts. Thanks!
- Housing approvals and development.
- Affordable housing for locals and support for the seniors in town.
- Flight options from and to Karratha. Businesses being able to be sustainable in Karratha - lowering rent for shop fronts.
- Keep providing lots of community events for families.
- Helping to bring in new retail businesses to the area. The community needs better variety.
- Clean up the Point Samson foreshore, fences that are falling apart, weeds,

looking very untidy and rough. Needs fixed up before tourist season. Seems like more money is spent refurbishing the karratha roundabouts and plants at the karratha roundabouts, than on the whole of point samson foreshore. This used to be a beautiful spot/beach and it is very disappointing where the city's priorities are.

- 1. Support local businesses 2. Get more cycleways 3. Develop more community open spaces.
- Trees, Trees, Trees Better gym equipment and private leasing of buildings for small business.
- A community function space - nowhere indoors that holds numbers like the function area at the leisureplex anymore.
- Crime although not directly related.
- More indoor air conditioned activities for kids.
- Growing and supporting the small businesses Especially in the child care sector.
- Connecting the community with the events.
- Shade for the Wickham Basketball, netball and tennis courts. I have lived in this (45 degrees plus, during summer) area for 25 years and there is still no shade over the Wickham courts.
- Improving health services in the Karratha Health Campus. Lowering rates. Crime rates.
- Local University.

- Bring back more food trucks to dreamers, or starting a new dreamers. We used to have so many options now we have 3 at most.
- Cleaner Beaches General Liveability
- Roads.
- Cutting back trees, wandering animals on the roads, security for the youth centres
- Community.
- Shade in the local pool. Tidy up house west housing. Maintain the verge ,, the grass n weeds are a disgrace.
- Shades over the courts in wickham. Its terrible for the kids who have to train at 4pm.
- Cheaper flights and flights to Bali from Karratha. Direct flights to the eastern states. Bring the rates down. Indigenous youth crime. Bring Bunnings to town. Improve the shopping centre, more shops, best and less, big w etc clean them up. The shops are disgusting. Bigger blocks of land for sale. Acre blocks we want room to put our caravan and boat as well as having a pool etc.
- Break in and building something for the children like a bowling alley time zone or something that they'd wanna get up everyday and go to on the holidays or after school.
- Mental health services are lacking.
- Make it a liveable place to live financially and socially. Stop trying to be a big city status with funding going in the wrong direction and support the locals that keep the town ticking.

- Repairing / replacing the shade over the pools at the karratha leisureplex.
- Crime. How can we reduce it? We have cameras all over our house and people do not care, they are still trespassing.
- Plan more community events, bring in new businesses or more shopping places like Bunnings.
- Shade for our courts in Wickham! Our kids are suffering for something we should of had a long time ago. My kids do netball and basketball and it is hit with no shade.
- Mental Health Awareness more help available for the community and every single person in Karratha and surrounding areas.
- No significant rate increases.
- Local business investment and maintenance of sporting facilities
- Mental health resources and more children / family friendly facilities other than leisureplex or indoor play centre.
- Facilities in wickham, court shade.
- Mental health services, adequate/affordable community facilities particularly for performing arts.
- Community events and cultural activities to include all cultures and backgrounds
- Providing Wickham Junior Sporting Clubs (netball and basketball) with under cover courts. Having 23 basketball teams training during summer in the sun is unacceptable for our youth. Junior Netball had their grading day scheduled and advertised for Sunday 11th Feb, Wickham had 45 degree heat! The club pushed back starting time but still had to have our youth playing in scorching heat and sun.
- Overfishing.
- Reduce the air fare.
- Need some more roofs for the parking car area outdoor. Karratha is too sunny to harm the car.
- Waterpark in roebourne or front beach in samson.
- Sustainability of the community. Helping to bring the necessary health initiatives to the city ie cancer support.
- Clean shopping centre.
- Improving the Leisureplex and not always supporting what the state government pushing ie, the overwhelming evidence of how bad the MRNA COVID vax actually was for people and cities are still supporting it saying make sure your up to date with your COVID shots.
- Upgrade and extend the leisureplex - all areas.
- Outdoor accessibility (trails, parks, walking paths, etc).
- Events.
- The hand over from Rio for Dampier so our clubs can run better.
- Sustainability.
- Lesuireplex shade sail.
- More youth services - actual qualified youth workers not just activity providers. Would be nice to also see more youth services co located at the youth shed and

not just the city and headspace. More for youth.

- Lowering rates.
- Community events.
- NICKOL skate Park upgrade for all ages and abilities, keep karratha looking beautiful too!
- International or domestic flights direct from Karratha. More mental health support or services. More sports grounds / basketball courts, indoor courts for futsal and other indoor sports.
- Road safety, signage and maintenance.
- Affordable Flights- both domestic linking us to the East & International flights. Childcare more options & affordable Summer entertainment for children avoiding the heat.
- Continually support in keeping our town safe and tidy. Our youngest in town are the next generation so helping to support them to be proud of our small town will hopefully keep the crime down and this place looking tidy and respectful.
- Better high schooling to keep families in town.
- Providing more cultural community events.
- Mental Health Support.
- More indoor attractions for families to enjoy and take children to. Somewhere to escape the heat, indoor mini golf, arcade games, bowling etc.
- Looking after the people that reside here EG i pay over \$300 a WEEK in rates for my property in LIA and get nothing in return.

The running costs of Business up here is unbelievable then local government wants there cut too.... More Focus on the Crime in this town and where these Criminals are Housed over the last few years crime would have cost me about \$20.000. I for one are seriously thinking of shut up selling up and leaving this place because of it.

- Community events for families Water play playgrounds.
- Better mental health care!! Having a permanent psych here instead of fifo, someone who actually cares about mental health!
- Sustainability for families and teenagers to remain in Karratha.
- Get us an international airport as promised by Dan. Lower costs for flights. Improve road safety strategies!
- Keeping the cost of flights down and Mayor Dan delivering on his promise of an international flight out of Karratha.
- An inquiry into public housing and how the inhabitants treat these properties as drug dens and harbouring stolen motorcycles etc. Get kids off the streets after dark.
- I believe the City must prepare for future growth. Without adequate facilities, our town may struggle to accommodate growth effectively. While the Leisureplex is excellent, we may require another facility of similar size to accommodate different user groups and accommodate the increasing population in our community. This is crucial if we want residents to truly enjoy living here.
- Crime & disruptive behaviour. Eg throwing rocks at cars, terrorising people in

shopping centres, fighting & yelling in public places etc.

- Local family financial support for those providing services to keep the town sustainable for young families to live, who are not backed by resources themselves.
- Cultural and heritage events.
- Rubbish clean up . Activity places , such as an Indoor bowling etc. Need a Bunnings up here ! BCF!
- Stuff for kids to do.
- Bringing Bunnings and Spud Shed up here.
- Please review the public health plan many of us didnt even know the survey was a thing.
- In the towns outside of Karratha providing better/easier ways for activities/sports to occur.
- More mental health care. More items for teenagers and their family.
- Cost of living, More for kids and families to do - ten pin bowling and arcade centre, Lower rates.
- Wickham investment - money is there but no movement on projects, Karratha is the only focus.
- Developments so rentals are t so hard to find.
- Community Engagement when it comes to public health recommendations Ensuring support of local business in unsteady economic times.
- Shade over all parks Consider adding a water park splash pad that can be used in

the heat of summer or upgrade the leisureplex splash pad so its more than just a walk thru Events catered to large numbers of children so it doesnt take the whole event to line up for one activity like face painting Add water drinking fountains to all parks in town.

- Focus on getting the town to grow and increase the availability and variety of land to purchase and develop for housing. There is very few real options and the government want the earth for a postage stamp.
- Public safety and anti social behaviour.
- Health system. Give decent drs incentive to come. We shouldnt need to wait over 4 weeks for an appt to get in with the 2 or 3 good drs in town because the rest are crap. Specialist drs; lets give them something to come more regularly. Rates; the cost of living is high enough as it is with interest rate rises. Please do not put our rates up. There are a lot of people struggling; my family included. The shopping centre. What a derelict place that is. Im starting to feel like you need to install a sanitation station at the carpark. Give the outside a paint job/facelift and the inside needs something too.
- Helping small businesses. This town is going to get out of control again. Yet we don't have enough housing and small businesses don't have enough support to deal with what's coming. We are going to repeat history if we are not careful.
- I believe they are tracking pretty well at the moment. Ditch slashing potentially needs to be done.
- Promoting the outcome and the work you do. Does not sounds like you do a lot for the residential community of Karratha.

- We do need a mental health facility - but not at the proposed Gregory Way location.
- Making Karratha more accessible for locals to fly in and out.
- Reducing crime.
- To have a mayor know what is important in the town and to know what passes across their desk and sees everyone important in the community.
- Reduce the cost of hiring facilities and memberships. Reduce fees and allow small business to afford shop fronts or to hire out spaces etc.
- Removing the amount of rubbish along the road sides.
- Delivering on sustainability. Reduce the cost of living.
- Roads and visitors.
- Affordable housing.
- Mental illness and facilities.
- Cost of airfares.
- No more money for private businesses! This is a local government, not a bank!
- Let the locals control their own health issues and get rid of the Coal health plan to tell the residents what to do.
- Improve the experience for visitors.
- Security patrols, illegal dumping, more cool stuff for kids ages 11-17.
- More support for mental health diagnosis, treatment, more professionals working in the mental health sector. Preventative action for people with suicidal tendencies. Suicide is a major issue in the COK and needs to be addressed. Also support for the family and friends that have been impacted through suicide. Crack down on youth crime especially in the shopping centre. Crackdown on people not wearing helmets on electric scooters.
- Hospital facilities and wait times.
- Housing, jobs, community services, community events, more residential street verge footpaths.
- Karratha Airport.
- Family events Mental health facility.
- Upgrade the Community halls and offer the local community groups a good and affordable places to use.
- Safe Bicycle and scooter lanes for the kids from school to Karratha town, better library that opens longer in the weekends inclusive of Sundays, supplying a third bin for green waste, needing more shops in the shopping centre, needing more activities and places for teenagers to go to.
- Development initiatives to create a sustainable living for new families and to entice these new families to stay in the area to grow the town. We currently are suffering a low population that is residential and not FIFO, as a small business owner this is causing a lot of stress as the sustainability of a small business is directly related to the population in the area.
- Crime with surveillance More youth based programs and things for them to do Indigenous elder input for the youth.
- Social events.

- Affordable housing options for small business owners.
 - Getting gymnastics their own facility.
 - As a rate payer I was pretty angry at the state of the roundabouts and median strips along Dampier Highway and also the median strips along the bottom road starting to get overgrown with weeds and the like. But, I have noticed that these have been really cleaned up over the last year. So thank you for that. Please keep that going as every time the rates go up its always nice to see our town looking nice. I actually don't have too much to moan about to be honest. I would like a Bunnings though. Been a bit of a teaser for a few years now! Any chance of that happening? And a bowling alley. Anyway, thanks and keep up the good work.
 - The city has come a long way with improving public areas such as parks and outdoor areas. There is still room for improvement. Seeing the footpath is a huge step and love that initiative. Too see more community events hosted by the council and advertised really well to attract people.
 - Youth crime and high schools.
 - Safety and crime.
 - Review the public health plan that was pushed through in a time where emotions were running high, and there was little to no feedback around a survey existing. Becoming more prudent around expenditure to stop wasting the rates of hard working property owners. Reduce rates to a more realistic level by reducing wasteful unnecessary expenditure and focus on providing what rate payers need not pushing for housing plans and flooding the market with public housing. Review policies around Dreamers Hill.
- Restore it to its former glory as a positive feature of our city. If the current location is inadequate, develop it (cover the drain and expand, provide power/water/grey water drainage), or relocate it and develop a nice space on the old hospital site to accommodate it, given all required services (power, water, sewer) are already there somewhere.
- Crime prevention initiatives.
 - Support local businesses.
 - Glyphosate removal from weed killing activities. Promote further business investment; ie; Bowling alley, bunnings etc.
 - Affordable Housing.
 - Decent management of ovals for cricket season too not just focused towards footy. Look into getting at least one Turf wicket for the area so our cricketers can better prepare for country week cricket in Perth.
 - Helping with financial issues housing rates etc we are struggling to live. Born and raised locals and cannot afford the rates and mortgage etc.
 - We think that the City of Karratha is amazing and could guide the way for councils across Australia.
 - Fixing the shade at the pool, thinking of ways to better accommodate for children during the peak heat periods.
 - Review Public Plan do not promote the Covid shot - too many adverse reactions - my mother had a severe stroke from astrazeneca and my friends have all had miscarriages the only ones who did had the vaccinations.

- Business development and acquisition of land for commercial use.
- Making the town liveable for families with young children. There are no weekend activities or FUN things to do other than sports, odd movie, same old play-centre and pools without shade.
- Covered carparking in public places!
- More events and big names for live music! Like the Amy shark concert.
- Keeping, paths, parks and cycle ways free of glass and litter. More initiatives to help small businesses.
- Cover the carparks at the airport, shops, etc! Broome get more cyclones than us and their carparks are covered. Bring back some more direct flights to the east coast and maybe some international destinations that don't cost a fortune Try to entice some live music acts to come play gigs in Karratha Access to better shops- Bunnings, etc
- More books in the library More events for young adults More cultural events.
- Fixing the shade above the pool.
- Engaging youth to keep them from committing crime.
- More shade at parks, cheaper entry to wickham and roebourne aquatic centre.
- Creating safe fenced dog parks.
- Shade at KLP.
- If we don't bring in new businesses, increased access to outdoor leisure activities and make this town a more fun place to be, we are going to lose tourist

dollars and any prospective new residents. Ideas: put a road to the top of the leisureplex lookout so people can take disabled/elderly up there, knock down the rocks at the jump up, Christmas festival of trees with prizes for best baked goods, more popular artists/singers at the reap, community Easter hunt (waves of 30 kids Looking for painted stones instead of chocolate), trunk or treat event for safe trick-or-treating, water playground, dedicated dog parks, host rodeo, get businesses like Bunnings/spotlight to invest here.

- Doing a great job. Keep it up.
- Small business, support local, provide more events for families to get involved in activities. Assist or allow market areas for local music and market stalls there are a lot of people in the community not on Rio or Woodside wages.. Asssit and help promote these businesses
- Family activities and events.
- Making it affordable to live here would be a high focus.
- Something new for families/ children to do indoors in town during the Summer months (E.g. Ten pin bowling, indoor rock climbing).
- Supplying a household verge rubbish pickup twice a year like other cities. Painting the other tank a lot better than the first one.
- Kids sports.
- Higher standards of cleanliness at the leisureplex cafe and indoor play centre. Shade at the leisureplex pool. Continue the already great improvements of the streetscapes around Karratha. Best parks in WA!

- Tourism.
- Tourism and crime control.
- More indoor activities for teens/families. Bunnings, potato shed. More housing to lower rent prices. More footpaths around suburban streets. More variety of local shops. More accessible tracks to beaches for the community that don't have a 4wd. More clubs/events for family involvement
- Community.
- Building a Bunnings and a Bowling Alley.
- Shade for the car park at the shops. Put solar panels on top of the shade.
- We live in a city where it is 30plus degrees all year round. Would love to see all parks with sufficient shade and also play equipment not made out of rubber that attracts the heat and kids are unable to play on.
- Clear, honest communication and explanations for delays - understanding where their responsibilities are and being more forthcoming with help when the required information or allowances are outside their jurisdiction.
- Youth activities and engagement, building and developing current facilities eg. Leisureplex, play centre, parks & foreshores.
- Cheaper land to build on to allow more housing Marina.
- Hmm well, what is it that the city wants vs what is it that the people that live in the city want? If I was asking from both sides help and support and transparency great leaders on a team allow team members to take ownership and responsibility for the

team it doesn't feel like we're a team/community when some of us have certain benefits that allow others to enjoy those benefits some have more than others based off a networking system within the community but for those without they struggle. I'd say youth engagement, how much would it cost to feed and cloth everyone that attend local schools everyday? What about after school programs, like an example, an obstacle course or an Easter egg hunt or something that doesn't involve making money off of the citizens of Karratha, which I get that it's a part of business but the more money you make off of the people, the more time the people have to spend working to make up for that cost, so people will choose not to go to events to save money, people miss out, the community miss out and so on. Parents and families will stay in Karratha longer if the kids are happy if the parents are happy but the kids a miserable then the parents will look to go elsewhere, holidays, ect. As a single parent, if my son is happy, I'd gladly slave to a system, but if my son is unhappy, I'd do what ever I can so that he doesn't feel unhappy. And the relatable matter is, we all have family and friends, we all have something or someone, and if we all connect to that emotion of family, friends and unity then the strongest in the community giving back to the vulnerable in our community creates a great sense of belonging for all gives the citizens of Karratha ownership and responsibility. But if everyone is looking to make money off of the community then only those that can afford it will go and only certain money making events will exist.

- Review the Public Health Plan 2022-2027
- Enclosed dog offlead and agility facility Educating community on how council governs and operates.

- Family friendly activities.
- Housing in Karratha.
- Community engagement for children 10-17. Community safety, a mental health facility as there are lots of mentally unwell people gathering at the city Centro making patrons feel unsafe.
- Listen to the voices of all not the elite few and do something like a proper retirement village to help the older generation who want to remain here with their families.
- Crime, public health care plan.
- The health plan needs to stand for every individual's right to bodily autonomy & freedom. Please review and revise.
- Facilities upgrade, new community building, permanent space for dance schools and regular sports.
- Community engagement and activities.
- Working to reduce cost of housing.
- CBD activation.
- Crime and More community events.
- Maintaining existing facilities and lighting. Please don't redo the roundabouts again.
- Airport.
- Lowering the prices of flights as not all people in town work for mining, even the Regional Discounts are still high priced. The store inside of the airport has expensive prices for average services, though the airport itself is a beautiful facility. It would be great to see the City of Karratha do more events for NAIDOC week to bring the town together as well.
- More facilities in Dampier. Get the new hub shops up and running.
- More community events showing its rich & wonderful culture, also allowing other towns notice by advertising these events. They would love to be involved in this ever growing beautiful place. It is a beautiful multicultural town that should be celebrated.
- Leisureplex upgrade.
- Reducing costs for residents, drop rates.
- Kids sporting venues, with all sports as the focus! Only a few select clubs seem to be supported by COK - but there are many sports in Karratha that all need COK support to keep progressing & developing for their members with upgraded club rooms & facilities to keep the sport progressing & growing.
- Retaining good staff across its services and facilities.
- Housing development.
- Shade on the Leisureplex pools. Leucaena weed trees spreading - an initiative to remove from public and private spaces.
- Local Governance Reform: Streamlining bureaucratic processes and reducing regulatory burdens to empower local communities and enhance decision-making efficiency. Focus on Core Services: Ensuring that essential services such as waste management, utilities, and public amenities are efficiently delivered to residents while avoiding unnecessary expansion of government services.
- Housing.
- Karrath airport.

- Crime prevention. Engaging community in plans for progressing step up step down mental health facility.
- Sustainability initiative.
- More family advents.
- Maintaining good service and facilities.
- Creating safe and stimulating spaces for families. Both those privileged and also for those who are not so fortunate.
- Asking the community what they actually want, rather than just assuming - maybe different surveys for specific areas instead of just one for all areas would help with this.
- Improving leisure plex, keeping scooters out of shopping centre, improving roads, bringing more shops to karratha such as a shoe shop and another department store like kmart, so reduce costs of rent.
- Get the shade sails fixed at the leisureplex! It is not a great place to be in the middle of the day at the moment.
- Brin b back ballet at Hearsons and more unique event that only the Pilbara can provide.
- Beach amenities particularly Hearsons, cultural events, footpaths
- Activities for children. Crime prevention.
- Equitable spending on businesses Upgrade of Leisureplex.
- More shopping outlets.
- Appearance off all towns and not just Karratha
- Community engagement.
- Focusing on the main negative objectives from this survey.
- Getting some big name acts here for a festival.
- More cultural events and financial help and help for all people.
- Youth engagement activities for teens
- Clean streets provide more bins and manage graffiti. Streetscape in town centre near where food trucks are.
- Cost of living.
- Housing affordability, international airport, finishing the footpaths down Dampier hwy, and maybe you could ask Bunnings and BCF to come up here? Can you control the wind? Then we could enjoy the beautiful Dampier archipelago a lot more. More boating adventures.
- Shopping variety, allowing bigger businesses to come to the city, and to keep prices lower.
- Enviroment and sustainability. Economic diversity.
- Regional flight prices and overseas flights.
- Police presence, specifically on the highway targeting speeding.
- Working on improving facilities for residents to use.
- Sustainability and safety.
- Keeping our community safe. Crime is still a big problem. More cycleways on the main roads to the LIA.

- More family friendly and safe.
- Continue high standards of public parks, toilets and recreation facilities.
- Build proper activities for kids.
- The kids. Especially over the summer period. Need more things to do. More access to beaches.
- Karratha Leisureplex.
- High school education Shade at the Karratha pool.
- Shade for wickham multipurpose courts- one of the biggest sporting groups in the region! Fixing shades at pools both Wickham and Karratha are broken!
- Maintains that sense of community by providing opportunities for residents to be engaged in community sport and recreate outdoors.
- Interstate and international flights from Karratha airport.
- Having enough staff maintaining and looking after all the facilities so small issues don't become bigger issues. A bit more focus on the other towns in the city not just Karratha.
- More public toilets, larger gym spaces in both Wickham and Roebourne and more exciting free or cheap community activities.
- Tourism.
- Wickham oval update and facilities.
- Parks, outdoor spaces.
- Community events, town tidiness
- Road and patheays
- Subsidised housing, Karratha airport.
- Commit to a community consultation in Point Samson on how to spend the allotted \$80,000 for this budget and the money from the RIO partnership.
- Replacing street lights.
- Full fenced dog parks. Give owners confidence off-lead and give the general public confidence knowing that dogs can't escape from their designated park. Dogs are very common in remote setting and giving them a secure place to socialise will enhance alot of people's and their pets lives.
- Continue to bring quality events to the City and keep the community engaged
- Small local businesses instead of the big mining
- Community engagement and support
- Listening to the what the community need
- Upgrade boat ramp.
- Community engagement Maintenance & renewal of infrastructure Sustainability Introduce stricter laws relating to cat control.
- Community events and social engagement, bringing people together. Not saying it's bad, in fact it's very good, keep the focus on bridging the divide and making karratha our town. Us and united, the town as a whole should be proud, we are doing well in most circumstances.
- Would like to see the town more community minded.

- Not letting the little towns have their say. Dampier and Karratha get everything,
- International flights.
- Making sure households are accountable for the presentation of their home. The appearance and tidiness of the homes affects the whole neighbourhood.
- Opening up the Burrup Murujuga National Park. Opening up the Bike track More road sweeping and verge floodway clean ups.
- Sporting club rooms in Wickham.
- Financial stress on people in the community, rates are pathetic so many charges for services that are of poor quality. Another, gym and pool memberships are outrageous. The City Of Karratha should encourage a healthy community and allow affordable access to these facilities. The Public boat ramp in Dampier needs a make over, completely redone. Floating ramp as the boat clubs, better parking facilities and vehicle management plans. Lastly, enough Virgin / Qantas and the regional resident fairs. Try and improve and make travel something for everyone. What ever happen to flights to Bali from Hedland/Karratha seriously another \$600 on top of each holiday before you even start, just to go to Perth when we have facilities here (KAR and Hedland) use them. Many thanks, looking forward to see where this can take us!
- Shade over the Wickham basketball courts
Constant rubbish cleanup outer cbd
Constant verge cleanups
- Parks and rec facilities
- More community events for children, they are always a great hit and great for families.
- Wickham clubrooms for Footy and Cricket.
- Expanding community facilities and green spaces. Most sporting groups are almost maxed out.
- Engagement and events for young adults 18-28 working and living in the town as it is isolating.
- Some attention needs to be paid to Wickham and Point Samson areas. The Wickham Ovals are in very poor condition.
- Stop lying to Point Samson residents and start spending some of the money (rates we pay) on Point Samson instead of poor old dampier which is always getting new things and improvements.
- Community safety and development of facilities in Dampier such as sports club and caravan park.
- Point Samson as a whole town, start investing money with some improvements. Never see anything in the budget for Point Samson. Also hurry up and progress something further forward with a sporting complex building/club rooms in Wickham. Sitting at a table and chairs under a tree in the open just isn't fair. The city goes round and round in circles nothing progresses, staff then leave and all info gets lost and then we are all back at the very start again.
- Tourism development Reduces council rates, it doesn't have to be a lot but a small reduction would be a massive relief.
- More events.

- Affordable housing particularly for young people.
- More affordable housing.
- Community safety.
- More community engagement with younger kids. Have activities for days when it's too hot
- Youth programs.
- Fixing the shade at leisure plex Having more events or activities for all ages Lower Crime in the town.
- Walking and riding paths and off road trails. Better public toilets. More events/sporting events hosted locally.
- Continue to build the city into a thriving metropolis that will bring in more tourism. The facilities and hospitality are good, but the area lacks spaces and places to encourage tourism, not just for work. Using the historical sites and local natural features should be expanded and developed to build interest in the area. We are enjoying living in Karratha and we are so looking forward to exploring the Pilbara, Coral Bay and Kimberly region whilst we are living here.
- Crime.
- Leisureplex shade please.
- Family events, parks, outdoor attractions.
- Surrounding towns landscaping improvements.
- Getting regional airfares extended to become permanent as current agreement with airlines expires 2025. More transparencies with spending. Red earth

arts precinct no outside cinema we were promised this as rate payers. Building is a poor design canteen too small and library needs to be moved out to accommodate any substantial function. Pathetic really. Sone get me started on the tank mural. Whoever approved that needs to pay for it himself

- Street litter clean up.
- Development of more housing to support industry and families in the area.
- Indoor activities for familys and kids to do. Spending most of our time indoors sucks , especially when it's too hot to enjoy the beautiful beaches in summer. You want more families. You know what to do and lowering rent.
- Family friendly spaces, especially in summer.
- Small business affordability, leasing (retail). Housing.
- More activities and events for families, youth engagement & facilities catering for young families during hotter months
- Timely operations at the airport. Fixing the shade over the pool at the Leisureplex. Making other suburbs as friendly and liveable as Baynton West.
- Youth engagement for all the diverse youth needs.
- More activities for children after 530pm week nights, fixing paths in the city that connect to road are very poor and dangerous especially little ones in scooters have had many accidents especially near Coles servo and ses/telstra paths.

- Deal with the crime. We are all sick to death of unauthorised minors on motorcycles (stolen) with no licence, no helmet and are untouchable.
- Housing and life style village for over 55years of age.
- Kids activities.
- Under shade parking at the shopping centre.
- Community and cultural events.
- More activities for older kids
- I think cok does a great job. Maybe more visibility on the areas I don't know about? Generally I am pleased with the quality of services provided.
- More activities for kids and youth.
- Family events and push for more affordable and accessible daycare or play services.
- Water front access. Beaches and parks. Open up the jump up. Either finish it or leave it but have it accessible. Also more trees for shade. Along walkways and meeting places.
- Youth and teen engaging events.
- Finishing the footpath to kshs. Clearing up of broken glass in the car parks.
- Housing issues for workers.
- Child care, vacation care for kids during school holidays and parents that work full-time
- International flights.
- Keeping the main shopping areas clean, more areas for food trucks.
- More than redoing the roundabouts.
- Kids activities, Leisureplex and indoor centre.
- We really need some central toilets, preferably with shower amenities for our homeless.
- Crime.
- More for children to do in the heat, indoor stuff, water play.
- Advertising community events.
- The focus should be the Leisureplex with 6months NO SHADE that should be high priority in this town families being affect by high temp and high humidity and no shade at the pool area!!!
- Please support small and emerging businesses, rentals are tough due to market value and they bring vibrancy to town as well as supporting our own local economy.
- Build a dog park.
- Road infrastructure.
- Mosquito control (communicate!! Include, what can we do as a community to report areas with increase mosquito activity to assist).
- An indoor ice rink or trampoline centre would be amazing for kids and the young at heart.
- Improving the facilities at the leisureplex. Fixing shade, encosing the outside courts and extending creche hours for summer.

- Things for the older brackets aged 50+ it's very lonely.
- Increase availability of affordable housing.
- Activities for locals to take part in
- A waterpark that is free and accessible for everyone.
- Karratha has turned into a beautiful town so much more to do thank you.
- Crime, being someone to drive the streets (a van that pick up these youths and takes them SOMEWHERE)..
- Being a bit more greener and environmentally friendly.
- Make the rest of the town look as good as the city centre.
- Safety, park and gardens, more activities for young kids.
- Under cover parking in all towns , maintaining shopping centres , welcoming entrances and loads of service signage and building partnerships with the towns community committees in Wickham Point Samson and Wickham Parks natural shade and seating.
- Affordable housing.
- Sustainability & footpatha.
- Fixing the shade at the pool. It's terrible that we don't have sufficient shade.
- Small business sustainability support
- Look at providing more affordable pet friendly housing for residents, I want this town to be sustainable long term.
- More park spaces with BBQ facilities would be great particularly near Back Beach
- Tourism, parks, foreshore, cleaning, budget, social events.
- Fileiting labels and wash down at local boat ramps.
- Growth of airport No more roundabout gardens or gardens along roads, use more water only to get stolen or destroyed in the next cyclone.
- Waste management and cleanup.
- Stop making the roundabouts. They're pretty it's a waste of money.
- Crime prevention.
- Making sure distribution of effort is placed equally across the city of Karratha areas and not just the big money areas.
- Getting international flights to/from Karratha Also a Karratha/Busselton flight
- Reducing red tape to respond quickly to community needs.
- Streetscapes and litter.
- Youth crime.
- Tracks and trails.
- Just keep doing the things you are doing, and more of the same. I have been very impressed with the community spirit. This is a place were everyone works together and are equal, no matter what race. This community is a fantastic example to the rest of Australia. Keep up the good work.
- Permanent movie cinema.

- More family entertainment ie. Bowling alley, indoor go cart track or gaming arcade.
- Upgrade mains water pipe so we can get cool water in summer. The Goldfields went through this in the 90's. East Coast and international flights, and plan to make KLP outdoor courts indoor.
- Point Samson.
- Affordable housing for families.
- We really love the community events being offered. Please keep up the great work.
- House rent.
- The pay has risen but the eligibility for government housing is still the same as 5 years ago even longer. Pretty struggle to be a small business employee when the business doesn't provide accommodation.
- Repairs & upgrades to the pool areas at the leisureplex Sort out sharpe ave parking, garden beds & intersection between the village & shopping centre Better movie selection at the cinema A water park like the one at town beach, Broome, in Dampier.
- Shadesails at the leisureplex and to have the shopping centre car parks monitored more at night time to move on groups of people that gather.
- Having everyone access any of the facilities, especially for kids to be able to grow and help them become accountable as they get older and to be able to have a lot more places slowly, as they do in Perth, where possible.
- Tourism And the expansion of sporting facilities.
- I would like more cycle ways and hiking paths.
- Repainting the water towers :-P But seriously I think the city is doing an amazing job. Support local events like always I think should be top priority
- Smooth running of amenities.
- Youth.
- Housing sustainability.
- Recreation for teens and young adults Affordable housing for young couples
- More family run events and more ranger patrol of dogs especially around Nickol. The shade at the leisureplex consistently breaks and during summer with families is not very good.
- Affordable housing. Better access to healthcare.
- Kids in the community.
- None that I can think of ., Im new to Karratha, But want to say thank you for having me. Karratha, all is well.
- Water park and international airport.
- Community engagement.
- Crime and keep up the good work. Keep Karratha clean.
- Communities event, cultural theme.
- Community development.
- Housing for seniors.
- Safe place,and more quality's service.

- Keep planting trees and maintaining the parks.
- Indoor activities.
- Improving liability for families with teenagers. They need more options to keep them busy...also housing needs to increase. Especially for service workers.
- More activities during the weekend Cost to living.
- Improved Cultural events.
- Land management revegetation & tourism.
- Housing and local support.
- Putting less money into trivial things such as re planting the roundabouts. More money into advertising community events, planning community events.
- Affordable living.
- Cost of flights and the cost of living, and get a proper mural on that bloody tank, wasted opportunity to promote the area!! It only shows wasted money.
- More activities for seniors but not on weekends.
- More indoor activities venues.
- Bring cultural performances to town, support for SME businesses in town, increased visibility of strategic plan for economic development.
- Clean the rubbish dirty needles and yards.
- Feral dig and cat removal and illegal home business that have no respect for the neighbours.
- Fully Enclosed and segregated dog parks..
- Stop empire building and maintain the balance between in house works and local business contracts.
- Get some shade up in the leisureplex.
- Crime prevention, broken glass bottles on roads, litter blowing from homewest houses down the street. Maybe the City needs to have meetings with Homeswest and the Police.
- Focus on the community needs.
- Public transport initiatives.
- Permanent shade over the pool.
- Getting the shade back at the pools and getting the beach volleyball going again would be amazing. More family friendly activities.
- Crime rate.
- Supporting community service to support vulnerable persons including making bigger efforts to focus on housing and cost of living.
- Need of more family friendly events that cater for the shift work family's also. Need an arcade or bowling alley for everyone to enjoy. Roads need to be worked on.
- Youth engagement.
- Services in the outer towns need to be improved. The removal of long parking for caravans in the Main Street scape of Roebourne is going to hinder caravan travelers stopping and learning about the history of the first town in the north west. Replacing with minimal angle parking is defeating the purpose of getting travelers

to stop in the town. Karratha is not the only town within this region.

- Greening the city & increasing cool spaces (car parking, streetscape, recreational, tourism etc)
- Im not sure, I have recently moved to Karratha so Im still finding out.
- Crime and safety. Spending money equally in all areas. Point samson needs more work done like Dampier, to attract tourists and give samson and wickham locals nice places to go. Shade on beaches, play area etc.
- Update shopping facilities. Parking Foreshore water play.
- Cultural activities.
- Help with gaining more variety of shopping/facilities in Karratha. Boring.
- Affordable Housing for small start ups to encourage availability of private (essential) services to the community.
- More indoor things for kids to do. Trampoline/climbing centre, bowling alley, bigger/improved indoor play centre with NEW equipment. Shade repaired over leisureplex pool. Upgrade of splash pad at leisureplex, cafe at leisureplex open more hours and accessible from poolside. Cinema showing more & more screen times.
- More events for kids.
- A Bunnings store to add some competition to the other's with the pilbra tax.
- Lowering cost of living prices.
- A focus on more local employment over FIFO workers.
- Lowering rent at the shopping centre so more businesses can survive.
- More facilities for children of all ages and a low cost retirement village for retirees.
- Alcohol and drug abuse in the community.
- Cover the pools at liesureplex. Better caravan park locations for locals.
- Building and business consents to help Karratha to grow and to be the city visitors and locals love.
- Housing.
- Community engagement.
- Improve sports facilities and indoor entertainment opportunities
- Advertising more of what is going on around town(Events), and keeping us all in the loop on new projects (new footpaths ect)
- Building more affordable housing.
- Fences around kids play grounds, high so kids cant get out.
- Cleanliness and amenities for youth.
- Affordable housing,crime,mental health facilities,community engagement, community activities.
- As the town grows we need to survey the need for extra water storage.
- More things for mums with young children or babies to be able to do.

- Rubbish around town is terrible - especially in some residential areas. Residents shouldn't be able to stockpile rubbish in their houses to then blow around town. Dig the back beach boat ramp out past the groin so people can launch their dinghys.
- Leisureplex facility. Community events.
- Local living costs for residents.
- Safety and security.
- Ensuring city stays clean and tidy throughout and events are provided for families.
- Crime and e-scooter regulation and safety.
- Dust management, street lighting and footpaths in Dampier.
- Bring in some sort of international travel to the airport.
- Security.
- Housing.
- Walking paths. Increase space in gym at the leisureplex.
- More cultural involvement.
- Providing a safe community.
- Telecommunications.
- More Affordable housing for workers.
- Crime and entertainment.
- Wickham shade at basketball courts would be good or at least a water Fountain!
Leisureplex: shade to be fixed.
- Maintaining leisure facilities.
- Look after all public land Change Dampier Highway speed limit to 80km/hr - such a great well done road - no need for the 70 limit Have shopping centre car parks cater for bigger vehicles – let's face it - we all have big utes up here and the amount of times mine has been scratched is ridiculous.
- Dogs & cats Keeping troublemakers off the streets.
- Sustainability/ weed management / conservation.
- Street cleaning/ more things for kids/teenagers.
- Town development & foreshore /beach developments. Programs & activities for families & children.
- Reduction in waste going to landfill Cost of living.
- Arts Hospital Community events.
- Housing.
- The same answer people have been saying for years - housing.
- Community events.
- Continue to build on its momentum. Keep bringing specialist events like the comedy festival or jess mouboy etc. Maybe a really big concert event with several Aussie acts at once.
- Culture and diversity.
- More community events.
- More strategies for affordable housing, for those who don't work in the mining industry. Improving tourism and

infrastructure in Roebourne and surrounding towns (beside Karratha).

- More youth activities to keep the kids off the streets.
- Shade over parks for kids to play and not get burnt by hot equipment.
- Lower rates.
- Multiple ideas: Karratha must have: Bunnings Bowling alley - need more things to do other than go have a beer Either water slides or a waverider at the leisure plex Also more affordable housing for essential workers
- More for teenagers to do.
- Family activities.
- Housing, a foreshore in Karratha. Additional restaurants and amenities
- Improved support and encouragement of small businesses.
- Housing.
- Developing community areas & local business - eg the quarter etc, more markets, work on better resident airfares, don't charge the airport so much, reduce the resident capped fares to \$200 one way. So expensive for a family of 4 to get to metro when needed.
- Providing safe, clean facilities for the town. Encouraging community events and harmony.
- Dirtbikes roaring through the streets . And the way people are driving electric scooters on the roads
- Managing funds with new mayor.
- Cultural Safe Community Engagement Housing.
- Fixing the leisureplex shade permanently.
- Reducing rates to help with the rising cost of living, fix the shade sail at the leisureplex.
- Development and planning for future retention and growth for COK, soaring cost of living etc.
- More and bigger facilities for families to enjoy
- Parking at iga is horrendous.
- Promote tourism.
- Just don't drop the ball. Karratha City is doing a great job. We love how well looked about the city centre and all the local parks are. Such a clean and proud town.
- Would love to see a toilet installed at the Brolga meander park.
- Please fix the shade sails at the leisureplex.
- Youth, crime and dog control.
- More flight options/destinations.
- Shade in the leisureplex, most Karratha kids go there throughout the year and their exposure to high UV rays is not ideal.
- Activities for youth - 12-18 More all accessible activities.
- Anti social behaviour.
- Affordable flights to other destinations already from Perth. Possibly overseas travel. Demand is here.

- International airport.
- Increasing activities for children and families with older children from late primary through highschool.
- Shaded parking or plant more tree for shade. Another centre for playing indoors (rock climbing or trampoline centre).
- Sustainability of both the environment and also keeping people wanting to stay in town with the right amenities and services.
- Indoor centre for teenagers.
- Public toilet at Wickham parks Beach facilities and boat beach.
- Updating the leisureplex to reflect the price charged for all of the services and memberships. Unless you work for Rio, the price of a membership is insane.
- Crime.
- Community events and areas for all to enjoy.
- Deliver projects that you've promised to do.
- Weed control Verge maintenance Tree maintenance Shade structures at the leisureplex Utilising Council Contractors to the fullest to ensure value for money to ratepayers.
- Illegal Dumping this is out of control
- Fixing the shade at the Karratha Leisureplex.
- Community events and elderly residents.
- Sustainability, support for small business and more shade in outdoor spaces.
- Extremely high house rental prices. Please please help us!
- Affordability before families not related to mining are not able to stay. Stray dogs out - bump up the fines.
- Sustainability.
- Ongoing maintenance and upgrades to kids play areas. Beautification projects Family friendly events.
- Upgrades to Dampier sports facilities and hopefully planning for a holiday park.
- Please remember Wickham.
- Supporting locals in their buying ventures or in local businesses support so that the community is more likely to give back and as support also.
- As mentioned before more shaded options especially for the hot weather months. Keeping the leisureplex pool maintained. Lots of other towns have free community splash pads and I think that would be amazing in Karratha. Also a real beach area in town would really elevate this city.
- Youth crime.
- Foreshore facilities in Karratha.
- Ensure staff working for the city are trained up properly in customer service.
- Car park shade for shopping center.
- Facilities for youth, bowling, arcade. A music concert like what we had out at Dampier. Street scape the entrance of Dampier, its horrible.
- Maintaining all public spaces and keep up the excellent quality of community

engagement activities scheduled throughout the year.

- Keeping up all the excellent work that has been done.
- Ovals, parks and open spaces. More shade and more seating!
- Community engagement/ support and sporting facilities updated and upgraded.
- Community events, support business growth, park in town centre, further growth to support less transient space, more community events.
- Set up a fenced dog park where dogs can run free without interference of sport.
- The lesiureplex pool shades to make the water comfortable to swim in and not like a sauna.
- Expansion of recreational amenities and community events. KLP waterslide needs to happen you have the design sitting in the improvement study folder ready to go.
- Opportunities to help people help themselves. Not everything needs be done by the City.
- Shade at KLP and longer opening hours at Roebourne Pool.
- Continue with community engagement activities for younger and older citizens.
- Maybe a trampoline centre for kids. Toilets at boat ramps.
- Youth activities.
- Helping to keep cost of living down, not increase the rates.
- Please have a fully inclosed dog park. More offerings at red earth art - movies
- Sort out roebourne!
- More affordable housing, Footpaths, street lights and rubbish collection on the highway.
- Housing and any areas which would have a positive impact on cost of living.
- Maintaining the community involvement programs that support families, indigenous persons, new residents, men and women.
- Increasing funding shade at the public schools, to protect our children.
- Youth aged between 11 and 18 - keeping them engaged in the community, feeling accepted and positive
- Fixing the step at Kats Clubrooms.
- Extending walking paths and lighting to ensure safety in the community.
- Fixing the Karratha leisure plex shade
- Support small businesses in town. To many resources are spent on redoing gardens. Vacant shop spaces are available in city owned buildings. Support local small businesses that can't afford to exorbitant lease prices.
- Crime.
- ERP.
- Health care, Medical Services and Support. Family activities and facilities. Affordable housing so people can stay here.
- Transport from Wickham and dog control.

- Expedition of planning approval for houses and flats on properties to help ease housing issue.
- Shade at the leisureplex Develop a less toxic weed management strategy.
- Glass and rubbish on public spaces. Shade covers over local playground areas and courts.
- Community activities. More flight options to other cities or nearby countries.
- More communities events.
- The pool at the Karratha leisureplex and how it will grow with the town. The shade sail to be fixed, more space and more swim teachers for swimming lessons. Slides for the bigger kids.
- Events for families.
- Indoor play centre, Karratha leisureplex, international airport and better roads
- Continuing to build a happy and safe community.
- Outdoor events/activities More family things to do.
- To keep doing what you're doing.
- Updated parks and playgrounds in Wickham.
- Community engagement.
- Some cooler things.
